15	The jurors are all here.	15	MR. KABRAWALA: It is fine with the government.
16	The first thing I wanted to do is my deputy	16	THE COURT: I think, and maybe you will remember

THE COURT: But the wall clock suggests it was pointed at the same sofa at which the other images were taken, correct?

MR. LaPINTA: Yes. But there is no allegation that that camera recorded anything. The recording, the central issue with Jane Doe 2 was the hand-held camcorder secreted in its case.

THE COURT: If someone has multiple ways of filming something, and they are only alleged to have used one particular camera on the occasion, it doesn't mean that other camera equipment is irrelevant. They are trying to show how he produced this in terms of his control and intent in terms of the images at issue in this case.

MR. LaPINTA: Judge, it is not questionable that the shooting of the video of Jane Doe No. 2 was intended to record Jane Doe No. 2. It was a hand-held camcorder taken feet away from her as she was dressed in costumes and as she was naked. There is no allegation of a surreptitious recording of Jane Doe No. 2.

You are adding into the equation surreptitious recording not part of the allegations of Jane Doe No. 2.

MR. LATO: Your Honor, to add one thing.

221 For those reasons the other cameras have to come in.

be germane to this case as it relates to Jane Doe No. 2.

3 MR. LaPINTA: One last thing. Sorry. But this 4 is so sensitive.

5 They met with Jane Doe No. 2. Jane Doe No. 2 6 agrees that there was recordings of her made. Never once 7 until now have we ever heard of any of -- in any of the 8 papers, complaints or anything, that the recordings of 9 Jane Doe No. 2 were secretly performed. The first time 10 ever.

11 MR. KABRAWALA: Your Honor, looking at the 12 picture, it is going to be up to the jury. Again, they 13 are going to be called upon to determine whether or not 14 this was lascivious or pornographic in nature, some of 15 these images.

16 But the flavor of the picture it is clear that 17 Jane Doe No. 2 doesn't know what is going on.

18 MR. LaPINTA: I saw the pictures and the stills 19 as well. I disagree with that.

20 You can't testify or explain about the mental 21 state of a nine year old or six year old girl taken in a 22 picture.

23 MR. KABRAWALA: There is a picture of her, just 24 her crotch, from the waist down.

It is up to you to decide which witnesses to believe, which witnesses not to believe, and how much of any witness' testimony to accept or reject. I will give you some guidelines for determining the credibility of witnesses at the end of the case.

As you know, this is a criminal case. There are three basic rules about a criminal case that you must keep in mind.

First, the defendant is presumed innocent until proven guilty. The indictment against the defendant brought by the government is only an accusation, nothing more. It is not proof of guilt or anything else. The defendant therefore starts out with a clean slate.

Second, the burden of proof is on the government at all times. The defendant has no burden to prove his innocence or to present any evidence, or to testify. Since the defendant has the right to remain silent, the law prohibits you from arriving at your verdict by considering that the defendant may not have testified.

Third, the government must prove the defendant's guilt beyond a reasonable doubt. I will give you further instructions on this point later.

Now, a few words about your conduct as jurors.

First, I instruct you that during the trial you

235

- are not to discuss this case among yourselves or with 2 anyone else, including during any recesses or breaks.
- 3 Even as among yourselves, you see, it is important that
- 4 each of you keep an open mind until you heard all the
- 5 evidence, the attorneys' summations and my instructions on
- 6 the law, only then will you begin to exchange views among
- 7 yourselves and reach a verdict. But until I tell you to
- 8 actually begin deliberating at the end of the case and at
- 9 the end of my instructions on the law, please do not
- 10
- discuss this case at all among yourselves, with family
- 11 members or anyone else.

So when you are back in the jury room during a break or waiting to come out here, you can't discuss the case, you are not permitted to do that.

When you go home today or you call work and people start asking you what the case is about, you have to tell them that Judge Bianco told me not to discuss the case. When it is over you can discuss it with anyone you want or no one else at all. Not during the case.

I need to emphasize when I say not to discuss it, it means the media as well, no texts or Facebook. No communications about anything about this case.

Second, do not permit any other person to discuss this case in your presence. If someone does so despite you telling him or her not to, report the fact to

1 me. Please do not, however, discuss with your fellow 2 jurors either that fact or any other fact that you feel necessary to bring to my attention. The reason is 4 obvious.

If something occurs that affects the ability of a juror to continue to serve fairly and impartially, and that juror communicates it to fellow jurors, more than one of you may be affected. So please just report to me if you have any issues.

Third, please do not, while you are serving as jurors in this case, have any conversations with the parties, the attorneys, or any witnesses in this case, whether in the courtroom, in the hallways, in the elevator, cafeteria, outside or anywhere else.

By this I mean not only to avoid talking about the case. Do not talk at all, even to say good morning or to acknowledge any of these people. Someone seeing a juror in conversation with a party, a lawyer or a witness, might think that something improper was being discussed. To avoid even the appearance of impropriety, then, have no conversations or acknowledgements of any kind. The 22 lawyers as officers of the court are particularly sensitive to this. So I can tell you when they pass you in the halls and the cafeteria, without even acknowledging

your presence, and they turn away and start walking in the

1 other direction, they are not being rude. They are simply following this instruction, and you need to follow it as 3 well.

Fourth, do not read or listen to anything touching on this case in any way.

And specifically, I don't know if there will be 7 publicity with respect to the case or not, but in an abundance of caution I will instruct you not to read Newsday or watch News 12 during the trial so you don't inadvertently come across anything in the case if there is publicity. So don't watch News 12 or read Newsday, and certainly avoid reading anything touching on the case in any media.

Fifth, do not try to make any research or make any investigation about the case on your own.

And let me just emphasize that point. Jurors are not allowed to do any outside research whatsoever. And that would include visiting the location talked about during the trial, as an example, or going home and 20 Googling something about the trial to try to find out more 21 information, or try to talk to a lawyer about some ruling 22 that I made. No outside research of any kind is permitted by you, a juror. You are only allowed to decide the case

24 based upon the evidence in the courtroom, and no outside 25 research of any kind is permitted. So, please, do not do

Finally, do not form any opinion until all the evidence is in.

Keep an open mind until you start your deliberations at the end of the case.

Sometimes jurors ask if they can take notes. And I do permit the taking of notes. And Michelle, as you see, has given each of you a pad and pen to write with if you want to take notes. I have no view or opinion if a juror wants to take notes. I need to give you some instructions for those who wish to take notes.

The first is, if you take notes, leave them in the jury room when you leave at night. Do not take them home with you. They will be in the jury room when you come back in the morning.

I want you to remember they are for your own personal use.

Also, the notes are simply to help your memory. I don't want you to place too much emphasis on a juror's notes. As you know, a person's notes can be wrong.

At the conclusion of the case when you deliberate, notes that any juror may take may not be given any greater weight or influence in the determination of the case than the recollection or impression of other jurors whether from notes or memory with respect to the

239

evidence presented, or what conclusions, if any, should be drawn from such evidence.

When you deliberate at the end of the case, any difference between a juror's recollection and another juror's notes is to be settled by asking the court reporter to read back the testimony in question. It is the court record rather than a juror's notes to be based on the verdict.

You see we have a reporter here, Harry, taking down the notes of everything said in the courtroom. Anything will be read back to you at your request when you deliberate. And that is true with respect to physical evidence received during the trial. That is also available to the jury upon request.

The trial will now begin.

First the government will make an opening statement, which is simply an outline to help you understand the evidence as it comes in.

Next, the defendant's attorney may, but does not have to, make an opening statement. The defendant has no burden of proof whatsoever. The government has the burden of proof at all times. So defense counsel doesn't even have to give an opening statement. But they are permitted to do so if they wish.

Opening statements are not evidence. Rather,

you can consider the opening statement as a preview of what each side expects the evidence in the case will show.

3 The government will then present its evidence 4 through testimony of witnesses.

Counsel for the defendant may, if he wishes, cross-examine these witnesses.

There is also something called redirect and recross. Sometimes the lawyers get up a second time to ask followup questions of things covered during the cross. There may be some of that as well.

Evidence may also be in the form of physical items, exhibits, which are offered in evidence.

Following the government's case, the defendant may, if he wishes, present evidence. But he is not required to do so. The burden is always on the government to prove every element of the offense charged beyond a reasonable doubt. The law never imposes on the defendant 18 in a criminal case the burden of calling any witnesses or introducing any evidence.

If the defendant puts on any evidence, the government may or may not wish to put further evidence before you to rebut what the defense has set forth.

After all the evidence has been presented, the attorneys will have the opportunity to present a closing argument or summation to you.

241

1 What is said in these arguments is not evidence. Each party is simply presenting to you their view of what 3 the evidence has shown and suggesting to you the 4 inferences or conclusions you should draw from the 5 evidence, whether you find an argument sound and 6 persuasive or you may not.

Because the government has the burden of proof in the case, they have the right to argue first in the closing argument, followed by counsel for the defendant. After which the government may give a short rebuttal summation.

After you heard the closing arguments, I will instruct you on the applicable law. You will then retire to the jury room to deliberate on your verdict.

You have a tremendously important task as jurors. It is to determine the facts. Our Constitution gives a defendant a right to have you, who are members of the community, find those facts. You, and not the Court, are the sole judge of the facts.

Let me say to the alternate jurors that you should listen just as carefully and conscientiously as the 22 other jurors. As you have seen already this morning, you may very well be called upon prior to the conclusion of the case to take the place of one of the jurors, and then you will have to render a verdict. So please pay close

2 That ends my preliminary instructions.

3 I just want to discuss with you scheduling.

As you know, we are sitting Monday through Thursday. We are not sitting on Friday this week. The typical trial day is 9:30 to 4:30. We take a morning break usually around 11:00, 11:15, at a convenient time, for 15 or 20 minutes.

We break for lunch sometime between 12:30 and 1:00. I handle other matters during the lunch break on other cases. Sometimes depending on when those are scheduled or where we are in a particular witness, I may break sometime closer to 1:00. But at sometime close between 12:30 and 1:00.

The afternoon, we take a mid-afternoon break somewhere around 3:00, 3:15. And then we continue to 4:30.

I know a lot of you have buses or trains to catch, so we don't go beyond 4:30. I will end every day at 4:30. Unless occasionally we have a witness who has five minutes left, in order not to have the witness come back I may ask you to stay five minutes or so if you can. Other than that we will not go past 4:30.

As I said when I started, it is important to me that you are treated with professionalism and respect, and

Opening Statement/Kabrawala

any issues you have you can bring to Michelle's attention.

I meet with the lawyers before the day begins, lunchtime, at the end of the day, to try to make sure that the trial is proceeding efficiently, to avoid the number of sidebars that we have to have or to avoid you sitting back in the jury room waiting to come out.

I can't promise you that that is not going to happen because things come up during the trial and rulings need to be made by me. And despite our best efforts to minimize that time, there may be some occasions where you will need to wait.

I will just ask for your patience so I can assure you we are doing everything we can to minimize the amount of time you are not here in the courtroom hearing the evidence.

So with that, we are now ready to proceed to the opening statements.

The government goes first, Mr. Kabrawala.

MR. KABRAWALA: The defendant, Joseph Valerio, had a woman molest her young daughter on camera and send him videos of the sexual abuse by email. From his house here at Long Island, the defendant sat at the computer and emailed the young woman thousands of miles away scripting out a sexually explicit scene for this woman to perform on her young daughter, who is just a toddler.

He didn't do this just once, not just twice. The defendant sent dozens of emails to this woman, his co-conspirator, directing her to do exactly what he said.

4 The defendant and this woman had an arrangement. The defendant demanded videos, the woman molesting her 6 young daughter on camera. And the woman, she wanted 7 money. And the defendant got exactly what he wanted from this arrangement. He got custom-made home videos of a young girl, a toddler, being molested by her mother, sent straight to his in box.

Now, you are going to learn that the defendant didn't stop there. You will learn that the defendant himself sexually exploited another young girl, his own , who was about six years old at the time. He dressed her up in costumes, a red, white and blue cheerleader outfit, a blond wig, nothing but lace tights, and he took sexually explicit pictures of her in his

It was in the basement of his house located in Smithtown, just miles from this courthouse.

These two young girls, that is why we are here today. And it is because of these two young girls that this man, the defendant Joseph Valerio, who sits now in this courtroom before you.

Good morning.

Opening Statement/Kabrawala

My name is Ameek Kabrawala and I am an Assistant U.S. Attorney here in the Eastern District of New York.

I'm joined by Assistant U.S. Attorney Allen Bode and Special Agent Steven Troyd of the FBI. Together we represent the United States of America in this case.

So how did this all come about?

Well, you will learn that the defendant met a woman named Olena Kalichenko on an internet dating site. Kalichenko lived oversees in the Ukraine. She had a young daughter named

Kalichenko even came to visit the defendant here in Smithtown without her daughter. For about two years the defendant and Kalichenko exchanged emails, emails about everyday things, like what was going on in their lives. And they emailed about Kalichenko and her daughter coming to live in Smithtown with the defendant.

But shortly into their relationship the defendant, he took things in another direction. He started asking Kalichenko to make sexually explicit videos with her young daughter in email after email. The defendant demanded videos in which he directed Kalichenko to perform very specific sex acts, such as performing oral sex on her toddler, dressing the toddler up in tights. In exchange, Kalichenko, the defendant's co-conspirator, asked the defendant for money. And she got it.

So you will learn that over the course of a six-month period in 2012, a six-month period in 2012, the defendant requested and received dozens of videos, numerous videos.

These videos show Kalichenko sexually abusing her daughter, and following the defendant's script.

You will learn that based on an investigation by the FBI, federal agents uncovered this arrangement between the defendant and Kalichenko. As a result of their investigation, the FBI obtained a court ordered search warrant to search the defendant's residence up in 15 Smithtown. And in January of this year, 2014, the FBI, together with the Suffolk County Police Department, conducted a search of the defendant's residence, where he lived with a female companion.

Now, you will learn that the defendant was home at the time the search warrant was conducted, and he spoke with law enforcement agents.

You are going to learn that the defendant confessed to directing Kalichenko to produce child pornography with her young daughter. The defendant admitted that he sent emails to Kalichenko asking for

Opening Statement/Kabrawala

247

videos of her sexually abusing her daughter. The defendant also admitted that he paid Kalichenko thousands of dollars, and he wanted these videos in return. And he confessed to receiving that child pornography by email.

In fact, agents showed the defendant two emails from July 2012 in which he scripted out exactly what he wanted to have Kalichenko do with her daughter.

You will see the defendant's exact words. You will see the emails. In one of the emails the defendant literally says, he tells Kalichenko to follow, quote unquote, the script. He told Kalichenko to videotape herself performing oral sex on her daughter.

The defendant said he wanted the toddler to be dressed up in, quote, pantyhose and tights, with long blond hair.

The defendant even described what he wanted to see Kalichenko do with the child's toys.

In one email the defendant said he would pay Kalichenko, quote unquote, for her time making videos with

In one of the emails the defendant commands: Get those videos done.

After reading the emails, do you know what he did? The defendant confessed that he sent them.

Now, while searching the defendant's house over

in Smithtown, the agents found a computer in the 1 2 defendant's home. It was in the home office area. Using 3 forensic tools and technology, agents recovered a number 4 of emails the defendant sent to Kalichenko where he 5 scripted out what he wanted her to do with the toddler.

Agents also found numerous sexually explicit 7 videos, all in the defendant's inbox, his email inbox in his computer, right there at his house in Smithtown, and in the same room where agents discovered his computer, where they found a number of digital devices.

One of those devices is a Samsung memory card, one of those tiny little memory cards you put in your camera.

On that memory card agents made a very disturbing discovery. They found images of another young girl, the defendant's very own , who was about six years old at the time, taken using a Samsung digital camera, a Samsung memory card and a Samsung digital video camera.

Some of the pictures of the defendant's she is dressed up in costume with nothing but a blond wig and tights. The camera focused only on her genitals.

23 These pictures are sexually explicit. Child 24 pornography, ladies and gentlemen.

The agents also saw something they recognized.

Opening Statement/Kabrawala

249

248

They saw a number of things they recognized. The 2 background, the furniture, the toys. They have seen those 3 same things before when they were at the defendant's house 4 searching it.

5 They saw those same things in the defendant's 6 basement.

Based on that new information, federal agents 8 got a second Court ordered search warrant now that they 9 knew something had happened at the defendant's house, and 10 more specifically in his basement.

When they searched the defendant's house again, 12 what did they find? They found things that looked very 13 familiar to them.

The pattern on the furniture. They found the red, white and blue cheerleader outfit. They found the blond wig. They found the toys. All of which can be seen in the pictures. And they found hidden cameras throughout the basement.

19 They also found a wall clock with a hidden 20 camera in it.

21 They found a stage-like platform, a stage, with 22 a hidden camera in it. Do you know where it was pointed? 23 Upwards.

24 And agents also found the Samsung digital video 25 camera that this defendant used to take sexually explicit

Do you know where they found that? They found that hidden in the ceiling above the basement ceiling. Agents had to take apart the ceiling, and they found it there.

Now, for his actions the defendant is charged in a 15-count criminal indictment, as to , the toddler in the Ukraine. The defendant is charged with a conspiracy to sexually exploit the child, transportation of child pornography, receipt of child pornography and also attempted sexual exploitation of a child for emails that the defendant sent to the Ukraine to Kalichenko directing the videos of Kalichenko molesting her daughter.

For the defendant's actions involving his here in Smithtown, he is charged with sexually exploiting a child. And the defendant is also charged with possessing child pornography.

Now, as the prosecution, we have the burden of proving the defendant guilty beyond a reasonable doubt. And we will meet that burden by presenting you with evidence in the form of witnesses, documents and physical evidence.

First and foremost, as you know from jury selection, in order to decide the facts of this case it will be necessary for you to see the images and the videos

that this defendant created or caused to be created.

Now, while it is troubling to view these images, they speak for themselves. You will see the videos that the defendant created in response to his emails, following his script, that Kalichenko created. And you will see the sexually explicit images of the defendant's young taken in his basement.

You will also hear testimony from Special Agent Steven Troyd who will testify about the two searches and what his team found during the searches, and where they found it.

You will see the computer that the defendant 13 used to communicate with Kalichenko. You will see the 14 Samsung digital memory card. You will see the Samsung 15 video camera that the defendant used to film his 16 You will learn where it was found. You will see the 17 basement. You will see the basement ceiling panel tiles 18 taken off where the camera was found. And you will see a 19 receipt showing that the defendant purchased the Samsung video camera and digital memory card and that they were shipped to him.

You will also see the hidden cameras, costumes, costumes that the defendant dressed his

Agent Troyd will recount for you the defendant's confession, that he admitted directing Kalichenko to make

child pornography with her toddler, and he -- that he paid 2 her to do so.

3 You will also see the money trail in the form of 4 Western Union wire transfers showing the defendant paid 5 Kalichenko thousands of dollars, just like he admitted.

6 Now, ladies and gentlemen, the facts of this 7 case are clear.

At the end of the trial we will ask you to return a verdict, the only verdict that is consistent with those facts. We will ask you to hold the defendant accountable for his actions and find him guilty on all counts.

13 Thank you.

14 THE COURT: Members of the jury, as I said 15 before, the government has the burden of proof at all times, therefore the defendant does not need to make an opening statement. But I am advised that the defendant wishes to give an opening statement.

19 Mr. Lato, you may proceed.

20 MR. LATO: Thank you, your Honor.

Good morning, ladies and gentlemen.

21 22 My name is Leonard Lato, as Judge Bianco has 23 already said. And I will be trying this case with my 24 co-counsel, Anthony M. LaPinta, the taller of the two

25 gentlemen at the table. And there is Mr. Joseph Valerio,

Opening Statement/Lato

253

the defendant a couple of chairs away.

2 The question in this case is not what, but who.

A person produced child pornography videos with 4 a toddler. Mr. Kabrawala said that, and the defense 5 agrees with that. But that person, contrary to what 6 Mr. Kabrawala said, was not Joseph Valerio. That person

7 may have been Olena Kalichenko.

8 If Olena Kalichenko, she produced the videos not 9 in the United States but in the Ukraine.

10 Joseph Valerio has never been to the Ukraine.

11 As Mr. Kabrawala stated, another video or other 12 videos were made of a young girl, Mr. Valerio's 13 agree with that, meaning "we," the defense.

14 But that person, once again, was not Joseph 15 Valerio. That person, once again, may have been Olena 16 Kalichenko.

17 Because as Mr. Valerio was never to the Ukraine, 18 Ms. Kalichenko has been to the United States and has been, 19 and has stayed in Mr. Valerio's house.

20 It is not Mr. Valerio, and it only may be 21 Ms. Kalichenko.

22 Why the uncertainty?

23 Because the government's investigation was 24 incomplete.

The government searched Mr. Valerio's house.

(Whereupon, Government's Exhibit 4 was received in evidence.) MR. KABRAWALA: I will publish it. (Whereupon, the exhibit/exhibits were published to the jury.) Q Now, you testified you met with Kalichenko. Without telling us what Kalichenko actually said to you, did she provide you with any documents during the first meeting on November 8th of 2013? A She did. She provided me a number of documents. One was, I-believe, an email that got sent in. She sent it into the embassy detailing it as part of the complaint. She had a couple of emails purportedly from a person in the US. And then there were a couple of quasi legal documents that were included in that packet as well. KABRAWALA: Judge, with respect to the first point, it is no more inflammatory than the charges of this case where the defendant is charged with creating and scripting out child pornography. THE COURT: What is the second one? MR. KABRAWALA: Secondly, it lays the groundwork for the conspiracy itself. As you know, there is a conspiracy charged here. It is intrinsic evidence of the crime that is inextricably related. This shows a sort of genesis of the conspiracy. This is essentially a contract that is between Ms. Kalichenko and the defendant whereby they have an arrangement of some sort. THE COURT: Let me read it. (Whereupon, at this time there was a pause in the proceedings.) THE COURT: This is a co-conspirator statement? MR. KABRAWALA: It is both an admission and co-conspirator statement. Q Now, once a person creates an account, you mentioned earlier that there is an ID check. Within the regular course of Cablevision's business, does the ID information and other customer information, is that obtained? A Yes. We, at a very minimum, we store name and address. Q And is it in the regular course of business for Cablevision to look at some ID that is provided by the potential customer? A Yes. Q And all of this information, is it kept withdrawn. Is it all all this information is collected generally at the same time that the information is given over to Cablevision by the customer? A Sorry, would you repeat? Q Sure. All of this information provided by a customer, is it taken in generally at the same time that the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	is received? That is, does the information is the information captured around the same time it is received? A In general, yes. I would assume there is a slight delay, maybe a day or two before the information if it was by a sales field representative, there may be a lag of a day or two until that information is put into our systems, but in general, yes. Q Which are you referring to? A 200-A. Q Okay. Let's go back. I'm talking about 200, which is the CD. A Okay, sorry. Q The question is: Is the information and data contained within that CD recorded about the same time when it is created? A These are email records. This information is the same with respect to our systems when emails are received or sent. That is to say that it is almost instantaneous. Q Almost instantaneously recorded on Cablevision's systems? A Yes. Q Is it kept and maintained within Cablevision's systems? A These emails, we save this data on our email servers,

daughter. That is relevant to the Government's case. But 1 2 the other portion, such as "Where the fuck are you 3 writing" e-mail is showing that Mr. Valerio is a bad guy, 4 that has no probative value with respect to the production 5 of the video and is entirely inflammatory under 403.

So I think portions of this, in fairness to the Government, should come in, and other portions would be unfavorably prejudicial and should not.

9 MR. KABRAWALA: Judge, this is literally 10 inextricably intertwined with the portion that comes in. 11 It's part of the same e-mail. The jury should see the 12 tone, the entire e-mail. It's this tone that 13 characterizes the relationship between the defendant 14 Kalichenko, and it will be apparent in every single one of 15 the e-mails this is the tone the defendant used directing 16 her to make child pornography with a video -- with a 17 child.

So the portion "Where the F are you," it is all part of this. It has to come in.

THE COURT: I'll overrule the objection. Under 403, the nature of the relationship between the defendant and Ms. Kalichenko establishes who the authors of the e-mails are and the nature of the relationship between them with respect to the alleged criminal activity.

Angelini - Direct/Kabrawala

347

So the nature of that relationship, in my view, is inextricably intertwined with the particular charges in this case, and any concern about unfair prejudice with respect to the tone, the language used, in my view, is not -- the probative value is not substantially outweighed by any unfair prejudice because of the nature of the tone used in the e-mails. Especially in light of the other parts of the e-mails, that certainly comes into evidence with respect to the child pornography itself.

So I'm overruling the objections. If there is 11 any reference in these e-mails to asking for other things 12 to be done, that would be -- in my view would be a different analysis. This only relates to a portion of the e-mail that relates to basically the nature of their relationship with each other.

I'm overruling that objection.

Okay. Are there other -- I want to try covering any objections to any other ones to be used in aid.

MR. KABRAWALA: Just a moment.

We'll be bringing in one more. It is Government's Exhibit 5.

22 THE COURT: So you are not offering 2-D?

MR. KABRAWALA: I'm sorry?

24 THE COURT: 2-D.

25 MR. KABRAWALA: Honestly, Judge, they are all

contained within Exhibit 2, which comes in. Exhibit 2 2 comes in.

3 But what we're doing here is first streamlining 4 it. We're talking about a handful.

5 THE COURT: All the e-mails in 2, the originals 6 are in the Cablevision disk?

7 MR. KABRAWALA: They are, but of course not the 8 same exact words because these were forwarded to 9 Kalichenko.

THE COURT: I understand --

11 MR. KABRAWALA: I mean to Angelini.

12 THE COURT: I mean, the substance is the same.

13 MR. KABRAWALA: It is the same. And one of 14 them, actually a number of them, are also on the

15 defendant's home computer, as you will see through our 16 forensic expert.

17 THE COURT: So right now, the ones you'll use today, I just want to ask the defense if there is an 18 19 objection to using 2-D, 5 and 5-A?

20 MR. KABRAWALA: 2-D, 5 and 5-A. Those are the 21 only ones we'll discuss.

22 THE COURT: What I'd like to give the defense to 23 do, to go through Government's Exhibit 2 and see if you 24 have any objection under 403 or 401 to any other e-mails, 25 other than these before the jury today, and let me know

before the morning.

2 MR. LAPINTA: We'll do so.

3 The problem we have is this: The exhibit list we received references e-mail dates. The problem with

5 that is that a lot of these dates have chain e-mails

6 including other dates. So they are confusing to us which 7

e-mails we're speaking about.

8 So we'll meet with the Government, preview all 9 of their e-mails they intend to offer from now going 10 forward so we don't have to do this each time.

11 MR. KABRAWALA: For the record, Judge, the

12 Government has provided a very clear exhibit list which 13 says "e-mail thread start dates," and it has the start

14 date.

15 We've also provided exhibit numbers as well as 16 marked exhibits. So any dispute could be be raised awhile 17 ago.

5	A Yes.
6	Q In fact, did you also come across a movie poster of

10	Andres spent at that house?
11	A No.
12	Q Did you speak to any of Andres' friends?
13	A Definitely not.
14	Q As you sit here, do you have any idea whether Andres
15	or anyone else saw Mr. Valerio's user name that was open
16	on his desk in the home office?
17	A No, I don't have any information about that.
18	Q Now, in the course of your career, have you seen
19	homes with video surveillance systems on the outside of
20	the house?
21	A Yes.
22	Q Is it fair to say that certain surveillance systems
23	are available for the inside of a house?
24	A Yes.
25	Q The clock in this case with the camera in it, where

574 1 did you find that? 2 That was in the basement, on the wall above a Α 3 computer, facing the couch where the pictures were taken 4 of 5 Q Was the camera clock operational at the time, meaning 6 was it on? 7 Α When I recovered the clock, it was no longer attached 8 to the computer because the computer had been seized on 9 January 28th. 10 Q On January 28th, did you know whether the clock was 11 working that day, meaning hooked up? 12 Α Yes, it was. 13 Is it fair to say that when it was working there was Q 14 no one in view of the camera when you entered the house? 15 Α No, it didn't cover the area of the entry of the 16 house. 17 Q Is it fair to say that the camera was on all the time 18 even though no one was in front of it? 19 Α I couldn't tell you that. 20 MR. LATO: One moment, please, your Honor. 21 () Special Agent Troyd, as the case agent in this case, 22 are you aware whether any recordings were recovered by law 23 enforcement from the clock camera? 24 The question was, were they recovered by law 25 enforcement?

1	Q	Yes.
2	Α	I'm not aware of any.
3	Q	Special Agent Troyd, do you see on the screen
4	Gove	ernment's Exhibit 311 in evidence?
5	Α	Yes, sir.
6	Q	Is the location depicted in 311 the location where
7	the	camcorder was found?
8	Α	Yes.
9	Q	In fact, sir, at the lower portion of the photograph
10	on t	the left side, is that the camcorder in its case?
11	Α	Yes.
12	Q	Was there a hole in one of the ceiling tiles
13	perm	mitting the camera to look downward?
14	Α	I'm not aware of one.
15	Q	Now, sir, is it fair to say that the camcorder was
16	not	set up to record from the location where you found it?
17	Α	It was not able to record in the condition we found
18	it.	
19	Q	Now, during the search did you recover what has been
20	ente	ered into evidence as Government's Exhibit 325, the
21	came	era box?
22	Α	Yes.
23	Q	And this was the camera box, the camcorder, found in
24	the	ceiling; is that correct?
25	Α	Yes.

	<u> </u>
1	Q Was the password to use that camcorder on the box?
2	A There was a password written on the box. I don't
3	believe that camcorders require passwords, but I may not
4	be correct in that.
5	Q Would it be fair to say whatever that password was
6	needed for, was open on the face of the box?
7	A Yes.
8	Q Now, do you recall testifying on direct examination
9	that you spoke to Special Agent Angelini during the
10	investigation?
11	A Yes.
12	Q And is it fair to say that in substance you told
13	Agent Angelini not to tip off Kalichenko that she too was
14	a target of the investigation?
15	A We discussed it, how to approach arresting
16	Ms. Kalichenko, in numerous scenarios because we're
17	dealing with foreign government, and they could decide not
18	to extradite one of their citizens, and that would have
19	basically made it impossible for us to arrest
20	Ms. Kalichenko.
21	Q Would it be fair to say that she was a target of the
22	investigation?
23	A Absolutely.
24	Q Is it fair to say that when she was talking to
25	Special Agent Angelini, you didn't want Ms. Kalichenko to

	11 0yu 01 0007 Euro
1	577 know that she in fact was a target? Correct?
2	A That's correct.
3	Q Because if she knew she was a target, you were
4	concerned she could hide and destroy evidence; is that
5	correct?
6	A I was more concerned that she would travel and we
7	wouldn't have access to her. She had supplied us
8	evidence. We had additional evidence: We had developed
9	additional evidence, and it was beyond the point where her
10	destroying evidence could have helped herself.
11	Q Did you say earlier this morning you wanted to gather
12	all the relevant evidence to the investigation?
13	A Yes.
14	Q Were you concerned, irrespective whether you thought
15	it would help her, that she could hide or destroy
16	evidence? Yes or no.
17	A It wasn't a concern because
18	Q Okay. You answered it, sir.
19	At some point after Mr. Valerio was arrested,
20	did you ask Ms. Kalichenko to come to the United States?
21	A No.
22	Q Did another agent or law enforcement officer ask her
23	to come to the United States?
24	A No.
25	Q Did you or another law enforcement officer learn

i	
1	578 after Mr. Valerio was arrested that in fact Ms. Kalichenko
2	was on a plane to John F. Kennedy International Airport?
3	A I'm sorry, can I have the question again?
4	Q After Mr. Valerio was arrested, at some later date
5	did you learn that Ms. Kalichenko was in fact on a flight
6	from Ukraine to JFK International Airport?
7	A Yes.
8	Q When she arrived at the airport, did you or another
9	agent meet her there?
10	A Yes.
11	Q Did you make arrangements to meet her there?
12	A Yes.
13	Q Is it fair to say that you drove Ms. Kalichenko to
14	the FBI offices in Melville?
15	A Yes.
16	Q Is it fair to say at that point there was no danger
17	that Ms. Kalichenko could hide or destroy any evidence in
18	Ukraine?
19	A No, that she possibly could still destroy evidence.
20	Q While she was in your presence, is it your testimony
21	that she could destroy evidence on the other side of the
22	Atlantic?
23	A She could have made arrangements in advance to
24	destroy evidence.
25	Q I didn't ask you that, sir.

	110yd 010007Ede0
1	579 While she's in your presence, did she have the
2	ability to destroy evidence?
3	A She herself physically could not destroy evidence
4	when she was in my custody.
5	Q Did you have some concern that she could still
6	destroy evidence?
7	A No.
8	Q Did you arrest her, in fact, after you interviewed
9	her at the FBI office in Melville?
10	A I arrested her in JFK airport.
11	Q So it would be fair to say she was in your custody,
12	correct?
13	A Yes, she was handcuffed and transported to the
14	office.
15	Q Is it fair to say that while in your custody she had
16	no opportunity to use a telephone or other electronic
17	device?
18	A No, she did not.
19	Q After you arrested her at John F. Kennedy airport,
20	did you contact Special Agent Angelini?
21	A Not immediately.
22	Q Did you contact any FBI officer or liaison in Ukraine
23	to try to gather Ms. Kalichenko's evidence in Ukraine?
24	A No.
25	Q After Ms. Kalichenko was in your custody, did you, as

	11 by C C OSS/Lato
1	580 part of your investigation, make any effort to retrieve
2	e-mails from her account?
3	A No.
4	Q Did you make any effort, and by that I mean you or
5	any law enforcement officers, to retrieve any text
6	messages from Ms. Kalichenko's account?
7	A No.
8	Q Did you or any other law enforcement officer make any
9	effort to retrieve any tweets from Twitter in this case
10	from anyone's account?
11	A No tweets.
12	Q Did you attempt to retrieve Ms. Kalichenko's Facebook
13	page?
14	A No.

KABRAWALA: The Government moves to admit. 9 MR. LATO: No objection. 10 THE COURT: 565 is admitted. 11 (Whereupon, Government Exhibit 565 was received 12 in evidence.) 13 Q So you were asked about essentially an e-mail address 14 and a password that were in plain view while you were in 15 the house; is that fair to say? 16 Yes. Α 17 Q I want to zoom in on what you were being asked about. 18 Actually, did you next know what you were being 19 asked about, what piece of paper? Can you describe where 20 it is? 21 It's the paper in the center of the screen of the 22 It was to the left of the PAL sticker. 23 Q Is that the blue sticky note? 24 Actually, what I testified yesterday, I was reading 25 from the white page that the blue note is attached to.

		11 Oyu - Red 11 eCt/Rabi awa 1a
1	Q	All right. I'm just going to zoom in on that.
2		Can you see that?
3	Α	Yes.
4	Q	Did you see that? I'm going to zoom on it even more.
5		So in this white area in the center of the page
6	that	appears to be in a notebook of some kind, written in
7	blue	ink, joeval5@optonline.net, and it's kind of
8	unde	rlined.
9	Α	With the word "upper" under the word "joeval," and
10	"low	under the 66.
11	Q	That was in plain view for everyone to see?
12	Α	Yes, sir.
13	Q	And some kind of password maybe?
14	Α	Yes, maybe.
15	Q	Let's zoom in even more.
16		What does that say there on the blue note?
17	Joeva	al at what?
18	Α	At gmail.
19	Q	At gmail, right?
20	Α	Yes.
21	Q	And there's a password underneath it. It says,
22	Joeva	al and there's a series of numbers?
23	Α	Yes.
24	Q	What is the e-mail we've been discussing this entire
25	tria	l relating to Joseph Valerio?

		Troyu - Reutrect/Rabrawara
1	Α	G02 Joeval5@optonline.net.
2	Q	Joeval5@optonline.net?
3	Α	That's correct.
4	Q	Not joeval66@gmail?
5	Α	That is correct.
6	Q	By the way, you were asked about the defendant's
7	daughter, A , today. Do you remember?	
8	Α	Yes.
9	Q	To your knowledge, what country do A and her
10	moth	er live in?
11	Α	I believe it was South Africa.
12	Q	South Africa?
13	Α	Right.
14	Q	What is that, on the other side of the world?
15	Α	Pretty much.
16	Q	Did Andre, the defendant's son went there, live there
17	when	you went there twice?
18	Α	I didn't see him on either occasion.
19	Q	He's in college?
20	Α	Yes, sir.
21	Q	You were asked about the February 24, 2014, what
22	we'v	e been calling the second arrest.
23		Do you remember that?
24	Α	Yes.
25	Q	Now, defense counsel asked you whether the defendant

603 1 was Mirandized, and he actually went over the advice of 2 rights form that the defendant and agent completed that 3 day. 4 Do you remember that? 5 Α Yes. 6 Q After the Miranda warnings were given, the defendant 7 was asked, according to your testimony on direct, why he 8 was being arrested. 9 And in response -- why don't you tell us what 10 you said. 11 Objection. MR. LAPINTA: 12 THE COURT: You said "on direct" and said "that 13 day." 14 MR. KABRAWALA: All right. Let me rephrase the 15 question. 16 Is it fair to say that after the defendant was 17 advised why he was being arrested for a second time, he 18 said in sum and substance, I want to kill myself, and I 19 don't have a family anymore? 20 In reverse order, but he did say those things. Α 21 At that point, I think on cross you had said you () 22 brought him to the FBI's office in Long Island and you 23 processed him in a processing area? 24 Yes, we have an arrest processing area that is 25 excluded from the rest of the office for safety purposes.

604 And at any point that day, did you actually sit down 1 Q 2 and interview the defendant again? 3 Α No, other than pedigree information for the arrest 4 processing paperwork. 5 Q Pedigree. What is that? 6 Date of birth, associates, family members. Α It's essentially a U.S. Marshal's form required when we bring a 7 8 prisoner in, so should they need to locate him in the 9 future, they have it available. 10 Essentially background information, name and address; Q 11 is that right? 12 Α That's correct. 13 Q But you didn't sit down to interview him again? 14 Α No. 15 Q Okay. 16 Defense counsel asked you -- he made reference 17 to a particular e-mail, Government's Exhibit 214 that I'm 18 now publishing. 19 Α Yes. 20 Well, with respect to this e-mail of April 12, 2012, 21 from Kalichenko to joeval5@optonline.net, there is some 22 discussion in the e-mail of Ms. Kalichenko being away from 23 her daughter? 24 Α Yes. 25 Q There was a suggestion that there are two

5	A Yes.
6	Q Well, what defense counsel didn't show you, I will
7	show you now.
8	At the bottom of this e-mail, while it appears
9	that Kalichenko is away from her daughter, just read the
10	last couple of lines in the e-mail starting "I really
11	missed"
12	A I really missed you, Joseph, and, my daughter,
13	as wellkisses, Helena.
14	THE COURT: How does she spell there?
15	THE WITNESS:
16	Q What does she call ? "My daughter," right?
17	A Yes.
18	Q By the way, do you know if there are variations,
19	common variations, of the spelling of, whether they
20	be English or Ukrainian?
21	A Yes.
22	Q One of the spellings sometimes could be,

24	A Yes.

607 1 Q Is it fair to say that the other one was January 19th 2 of 2011? 3 Α I'm not sure on the second one. 4 Q Is it fair to say that even if you are not sure, the 5 videos of precede the order date on this receipt? 6 Α I would say that is possible, yes. 7 Q Do you recall being asked on redirect about the FBI 8 policy changing this year with respect to recording? 9 Α Yes. 10 Prior to January of this year, did the FBI ever Q 11 attach cameras or audio devices to informants and 12 undercover officers? 13 Α Yes. 14 As far as you knew in January when you interviewed 15 Mr. Valerio, it was lawful for you to record the 16 conversation? 17 It would be lawful. Α 18 Now, do you recall being asked on redirect whether, Q 19 during your interview of Mr. Valerio on January 28th, 20 whether anyone pointed a gun at him? 21 Α Yes, I was asked that. 22 Now, is it fair to say that Mr. Valerio's height and 23 weight are about the same today as they were on 24 January 28th of this year? 25 Α Yeah, approximately the same.

8	Q About how tall is Detective Forrestal?
9	A Probably the same height at me, 5-10, maybe.
10	Q One of the other agents was Special Agent Messineo,
11	who is in the first row, correct?
12	A Yes.
13	Q And there was one other Suffolk County officer

6	Α	Yes.
7	Q	Does the FBI have the ability to interview persons in

9	Α	Yes.
10	Q	Did you have that ability throughout this
11	inve	estigation?
12	Α	Certainly.
13	Q	Is it fair to say that in this investigation the FBI
14	had	the ability to interview persons in Ukraine?
15	Α	Not unfettered access.
16	Q	So there was a fettered access?
17	Α	Yeah, there was some

23	(Whereupon, at this time the following took		
24	place at the sidebar.)		
25	(Continued.)		

THE COURT: What she can testify to is when she
was there or what Mr. Valerio told her. So just don't ask
open-ended questions, things that your daughter may have
told you.
MR. KABRAWALA: Thank you.
MR. BODE: May we have some lead?
THE COURT: You don't have to ask "from
conversations with your brother."
MR. BODE: We've never talked to her, so we
don't know all the details.
THE COURT: If you want, I'll tell her based on
what she saw or only what her brother told her, okay?
MR. KABRAWALA: Yes, Judge.
(End of sidebar conference.)
(Continued.)
THE COURT: Ms. Imperiale, they are asking about
things with respect to the questions regarding modeling.
You can only answer the questions based upon things that
you observed or that Mr. Valerio, your brother, told you.
They can't be based on anything else, that someone else
told you.
It has to be something you know because you were
there or something that your brother told you. Okay?
THE WITNESS: Right.
THE COURT: Go ahead.

10	A Well, I wasn't, you know, asked, you know, about that

      he's testifying as to both a fact and expert witness.
23
                We'll ask that your Honor give an instruction

2	So the record is very clear and there is no
3	issue on appeal, we have a suggested instruction what the
4	Court may do at that transition time, and we'd ask the
5	Court at the time when he's deemed an expert to make very
6	clear to the jury that he'll now be testifying in an
7	expert capacity, as set forth in our suggested
8	instruction.
9	THE COURT: What does the defense think of the
10	instruction?
11	MR. LATO: One minor modification of the
12	request.
13	Since it is up to the jury to determine whether
14	Detective Forrestal is in fact an expert, we ask only that
15	you say he's now being offered as an expert as opposed to
16	the Court saying he is in fact an expert.
17	MR. BODE: That's fine, your Honor.
18	THE COURT: So I'll say he's now being offered
19	as an expert witness?
20	MR. LATO: Yes. Thank you.
21	THE COURT: Okay. So I'll give that
22	instruction.
23	Are there any other issues with respect to this
24	witness then?
25	MR. KABRAWALA: No, Judge.

637 1 THE COURT: Any exhibits coming in? 2 MR. KABRAWALA: There will be a number of 3 exhibits that come through Detective Forrestal. I believe 4 what they are are portions of a report that he prepared 5 after reviewing the cell phone that was seized from the 6 defendant. 7 Also, portions of a presentation, a PowerPoint 8 presentation exhibit, that he created in his capacity as 9 an expert to show where the images were located on the 10 computer that was seized from the defendant, and also 11 images that were recovered from the memory card that was 12 seized from the defendant's house. 13 So we've given those over to the defense. 14 have given that -- redacted copies to the Court, and we've 15 provided the defense and updated the Court's binder with 16 additional exhibits that we found last night. 17 THE COURT: Does the defense expect any 18 objections to these exhibits? 19 MR. LAPINTA: Let me address the issues 20 regarding the offer of the report. 21 Obviously, we have the report -- I'm sorry. No 22 objection about anything. 23 THE COURT: All right. I'll see you at 1:30. 24 Have a good lunch. 25 (Whereupon, a recess was taken.)

You go through the same way. 10 the academy, and then I was assigned to the Fifth Precinct 11 as a patrol officer for five years. I was recruited to 12 the narcotic section after those five years, and I served 13 there for an additional five years as an undercover 14 officer. And I was partially recruited and I had some 15 computer experience in the military, and I helped them 16 install an intelligence database in the office. 17 Now, I served there for five years. I made detective while I was in narcotics. And then I asked for 18 19 and was granted leave to join the Sixth Precinct detective 20 In a precinct the detectives is kind of basically 21 where you learn your craft. There wasn't one yet established inside the police department. And he wanted me to do some demonstration cases and some research to determine whether we should establish one and what format it should take and what-not. I was transferred to his office and I worked under the shield of the chief of detectives office for two years, and the unit was formally established in 2001 as the computer crimes unit. I have served there coming on 15 years ever since. Q And the computer crime unit -- you mentioned it was first founded. But did it exist before you participated in it? Α There was a shell unit that they called the crime analysis, and they did minor forensic jobs, forensic jobs, and they didn't formally establish a computer crime unit, one that encompassed all the areas it encompasses now. () What role, if any, did you play in the establishment of the computer crimes unit in the Suffolk County Police Department? Along with demonstration cases, I wrote a series of proposals, visited other units, looked pretty much across

642 1 the country to determine what everybody else was doing, 2 and then made recommendations to the chief of detectives 3 about what format the unit should take. 4 Q Are you currently assigned to the computer crimes 5 unit? 6 Α I am. 7 Q How long have you been in that unit? 8 Α 2001, at least 15 years. 9 Q Are you cross-designated as an officer in any other 10 law enforcement agency? 11 Yes, a task force officer with the Long Island Α 12 Exploited Children's Task Force, run by the FBI. 13 Q How long have you been employed by the Long Island 14 Exploited Children's Task Force with the FBI? 15 It has been in various forms over the last five years Α 16 formally. Actually, informally I was doing the same 17 mission since 2005. 18 What is the mission of the Long Island Child Q 19 Exploitation Task Force? 20 What the Long Island Exploited Children's Task Force 21 does is it brings officers from other agencies, together 22 with FBI agencies, it is a force multiply. We have 23 different skills and assets that we bring to the table. 24 And the idea is basically to establish proactive 25 investigative cases involving child pornography, child sex

We investigate crimes with actual victims rather than the undercover mission, where adults may be approaching children to engage in sexual acts and take inappropriate pictures. You mentioned the term computer forensics. What does () that mean? Computer forensics is the discipline, or sometimes it Α is said it is the science of extracting information or data or evidence from various kinds of digital media, computers, hard drives, even the little SD disk you might

Q Have you over your many years and experience received any training in the area of computers and, if so, please generally describe the categories of training you received in computers? Α Everybody that comes of the computer forensics business starting out, we all kind of start the same way. We take a basic data and recovery analysis course which is the very basic level of computer course and forensics that is given by a group sponsored by the Department of Justice called NW3C. That is a training course? Q A training course, yes. That is usually followed up Α with advanced data in recovery analysis, which is another week of training regarding seizure, proper seizure and analysis of digital media. I also took an FBI course called NNSI training. () What is that? Α National infrastructure of training in which they ran a computer hacking training, I guess you call it, on how to investigate network protrusions, hacking cases and that kind of a spiraling case.

645 Over the course of the years I have taken numerous courses in the various software we use in our office, and in particular EnCase training, which is a kind of forensic software we use in our office, and I have attended their trainings. We have attended FTK training, which is a Forensic Tool Kit, and that is another commercial vendor of software that also provides training in various areas of forensics. We will return to FTK and EnCase. Q Have you ever taught any computer courses or the like? Α I don't do specifically forensic courses. I give continuing education training to the District Attorney's Office, actually a number of bar association presentations over the years over digital media and how it interfaces with evidence. I teach basic recruiting level, basic advanced computer investigations training at the Police Academy. And I have watched it pretty much all over the northeast in the same subjects. Q Is it fair to say -- withdrawn. Is it fair to say that you keep up-to-date with the subject matter of computer forensics, and you regularly attend courses?

646 1 Α Usually once or twice a year we try to attend one of 2 the trainings. 3 Throughout the country there is a number of 4 organizations and task forces and what-not that host 5 five-day training seminars, and then you go for five days 6 and then you have various subjects you can select from. 7 And you attend them and attend or select a half a day or a 8 day training in a specific area that is either new or you 9 want to refresh in or new software being deployed. 10 We also belong to various Listserves, is what 11 they are called. 12 What they are is being involved in the forensic 13 areas, they are email groups, a large body of groups of 14 forensic people, computer crime investigators and 15 what-not. And as new things are seen and questions arise, 16 you would post different items to the Listserve and it 17 keeps you up to speed in the industry. 18 Q How long do you -- how often do you employ computer 19 forensics in your day-to-day practice in the computer 20 crime unit? 21 Α Computer and cell phone forensics, pretty much every 22 day. 23 Q And is it fair to say that part of your job as a 24 detective in the computer crimes unit is to extract 25 information from computers, cell phones and the like, in

647 1 connection with criminal investigations? 2 Α Yes, it is. 3 () Approximately -- can you estimate approximately how 4 many computer devices -- when I say that, I also mean cell 5 phones, that forensically you examined during your law 6 enforcement career? 7 Α Just thinking about it, probably about 500 large 8 forensic jobs involving computers. 9 Cell phone is much more and smaller jobs but 10 just as important. And I have probably done, since 2007, 11 eight to nine hundred cell phones at least. 12 Now, before we talk about any involvement in this 13 case, I want to generally go over in context, generally 14 speaking, when you examine a computer, and we are 15 referring to a computer and not cell phones, what do you 16 Can you generally walk us through what you do when 17 you receive a computer? 18 If we have already received a computer, we have a 19 general procedure for processing it into evidence in our 20 We complete certain forms and then we log it or 21 lodge it into our computer crimes evidence room. 22 Whichever analyst has shelf area where they keep the 23 evidence. 24 When we do the analysis, we remove it to the --25 from the room and take it to a workbench area and complete

648 1 a hardware acquisition work sheet. 2 After that we take it to the workbench. We 3 complete that form and note the model, the serial number, 4 the condition of the actual unit. 5 Then we actually dismantle it, take the sides 6 off of it and decide what storage is inside, storage media 7 inside, and analyze it. 8 Q When you say storage media, what kind of example is 9 that? 10 Generally speaking, when you are working Hard drive. 11 with a computer -- although anything is storage media, 12 little SD cards, whatever, and we generally speak of a 13 computer hard drive, which is storage media where the 14 information is kept. 15 We actually open up the case of the computer and 16 remove the hard drive. We take the hard drive out and 17 note the condition. We note where we took it from. And 18 you actually take it to a copy machine and make a copy of 19 the face of it. So we know the model, the hard drive, the 20 serial number and what-not. 21 That hard drive is then taken to our forensic 22 work station where we have a forensic computer that we 23 work with containing software and tools, and it has 24 different hardware that we use in conjunction with that.

And we attach it -- attach that hard drive to basically

25

what is called a write block.

What a write block does is it prevents any information whatsoever, even if you made a mistake from data, from being written over that hard drive. So that way that original piece of evidence came out of the computer always remains pristine. Nothing is ever altered or changed. Even if you make a mistake, it couldn't -- because it is on a write block.

Then you do what is called making a forensic image. We use our forensic image attached to the write block and we start the process called imaging. And that is software that we use. There are a couple of different things you can use. It is software that is now going to go to that hard drive and going to make a bit by bit, every piece of information on that original hard drive, and it is going to make an exact copy of it. It is going to put everything exactly where it was. Whether it means anything or not. It is going to make an exact copy that is called a forensic image.

The forensic image is what you are conducting an examination of. You don't conduct the examination of the original. You look at the copy, and that is where we apply the forensic tools.

Q How do you know that it is an exact copy of whatever hard drive you were copying?

650 Α There is a concept in computer forensics called hashing, and what a hash is, a numerical number, a complicated mathematical formula. The hard drive is made up of a bunch of storage products that basically are made up of zeros and ones, and you put those zeros and ones together in certain sequences and it would make a color or a file or a word or a piece of information. What this hashing formula does is goes in and adds up all the zeros and ones in a very complex formula and divides all those numbers and multiplies in formulas and comes up with what essentially is a digital fingerprint, or digital DNA number for that hard drive, all that information. It now goes and does the same thing with the image you made. And if you get a match, it is a billion to one -- actually, multibillions to one that there could be some kind of image or match. Basically it is saying this is a digital fingerprint of that and if that number matches, it is exact. Do you use different programs on different computers? Q Α I do. Have you received any certification -- withdrawn. Q

Are you familiar with the -- well, you testified

	651
1	about EnCase?
2	A Yes.
3	Q What is EnCase?
4	A EnCase is a commercial suite of forensic tools
5	designed to let you conduct forensic examinations. It is
6	a commercial company, guidance software. And it has been
7	around for quite a while and used very widely in our
8	district. It gives you tools to look at that information,
9	to organize the information. You can search it for terms.
10	You can search it for files. You can search it for
11	pictures. It gives you all those tools to make the job
12	easier that we used to do manually.
13	Q So EnCase is a commercially available product?
14	A Yes.
15	Q Is it only available to law enforcement?
16	A No. Also available commercially. Throughout the
17	world it is used.
18	Q Now, are you certified in EnCase?
19	A No, I'm not.
20	Q How do you become certified in EnCase or one become
21	certified in EnCase?
22	A After you take the course and training, you are
23	offered the opportunity to actually pay a fee and take a
24	test and do additional training. And I chose not to do
25	that.

ı	
1	Q And part of that certification process, would you
2	need to recertify and repay a fee?
3	A Yes.
4	Of course, that is over the entire spectrum of
5	all the software you use.
6	Q Fair to say you use a lot of software?
7	A Yes.
8	Q Who pays the initial fees in your case?
9	A The Suffolk County Police Department.
10	Q They would pay?
11	A Yes.
12	Q And who would pay the renewal fees in your case?
13	A Sorry?
14	Q Who would pay any renewal fees in your case?
15	A We would hope the police department would do that,
16	but they don't.
17	Q How long have you been using EnCase?
18	A I have been using EnCase since it was initially
19	before the industry in roughly 2000 is the first variation
20	of the product.
21	Q Can you describe how you first came to use EnCase?
22	A Our office at the time, the industry was just kind of
23	being established. Everybody was using different tools,
24	and forensics was just starting to be a big thing in the
25	computer world. All of us were using all these little

653 individualized tools that different investigators actually made to be able to get to do these things. Guidance Software came up and actually put a suite of tools together in one place. And we heard about it through the Listserve and what-not. We contacted the company and asked them for an evaluation copy and they gave it to us. Q When you first started using EnCase, was it commercially available? It was just starting to be commercially deployed. Α But it was basically out in a beta version it is called or a test version. Q And you were one of the testers of the EnCase? Α Yes. We were one of the beta testers, members in our office. And I note you are also a detective in addition to Q having experience in the computer forensics. Have you ever conducted any search warrants? Α Yes. O Approximately how many in your career? Α It is well in excess -- my personal actual swearing as to a search warrant, it has to be 200 plus. And then actually attending other individuals in our office who had executed search warrants given to me by others, probably about 150, 200.

1	654 Q Have you conducted any search warrant in your career
2	in connection with child exploitation or child pornography
3	case?
4	A The majority of warrants I have been involved with
5	are child pornography warrants.
6	Q Have you ever taken statements from criminal
7	defendants in connection with your duties as a detective?
8	A I have.
9	Q Throughout your career?
10	A Yes.
11	Q You have?
12	A Yes.
13	Q How many would you say over your entire career?
14	A It has to be in the hundreds for child pornography
15	alone, it has to be in the hundreds.
16	Q I want to draw your attention to January 2012
17	2014, earlier this year.
18	Were you contacted by any law enforcement agency
19	or officers with whom you work generally?
20	A Yes, I was. I was contacted by Special Agent
21	Danielle Messineo and Special Agent Steven Troyd regarding
22	an investigation.
23	Q Were you asked to help them conduct a search warrant?
24	A Yes, I was.
25	Q Did you in fact help them conduct the search warrant?

r		101100tal Billoct/Rabiawala
1	Α	655 I did.
2	Q	Was it your investigation that you helped them
3	cond	uct a search warrant on?
4	Α	No. I was not the lead in the investigation.
5	Q	Was it a Suffolk County Police Department case?
6	Α	No. It was an FBI case.
7	Q	Now, prior to the FBI agent contacting you, did you
8	know	anything at all about that particular investigation?
9	Α	I knew cursory amount of information, you know, just
10	the	basic thumbnail sketch of what the investigation was
11	abou	t.
12	Q	Before they contacted you?
13	Α	No, not before.
14	Q	Before they contacted you, you had no idea?
15	Α	No.
16	Q	So it wasn't your investigation?
17	Α	Correct.
18	Q	I want to draw your attention now to later in the
19	mont	h, to January 28th, 2014.
20		Did you in fact assist the FBI in conducting a
21	sear	ch warrant at 3 High Gate Drive in Smithtown, New
22	York	?
23	Α	I did.
24	Q	What was your goal that day?
25	Α	I was to assist in the seizure evaluation, seizure

1	
1	and then eventually the forensic analysis of the seized
2	and digital media taken from the location.
3	Q Now, did there come a time you actually arrived at
4	the house?
5	A Yes.
6	Q Now, in connection with your role in evaluating and
7	seizing and then evaluating the computer equipment, what
8	did you do when you got to the house? Did you go right to
9	the computer?
10	A Yes. I took a tour of the entire scene upstairs and
11	downstairs, just to see what computer equipment was
12	readily apparent.
13	Q Did you enter immediately when other officers entered
14	initially into the house?
15	A No.
16	Q When did you come approximately?
17	A We when we got the all secure sign that someone
18	came to the front door and we entered then.
19	Q What do you mean by all secure?
20	A Just they secured the residence, to search the
21	initial people through the door, and they advised that the
22	house was secure before we came in.
23	Q Did you find any computers in the house?
24	A There were numerous computers.
25	Q Were they on or off?

657 1 Α All the ones I observed were off. 2 Q Would it matter if they were on or off? 3 Α It would. 4 Q Why is that? 5 Α If the computer is on it has to be handled in a 6 particular way. If it is off you basically package it up 7 and bring it back to the office to do your evaluation. 8 If it is on, you have to evaluate other 9 important programs that are running. Something displayed 10 on screen may need to be photographed. 11 Sometimes computers are very complex to be set 12 up, when you pull the power all the information on it 13 encrypts, so literally while it is powered up if you don't 14 make certain moves you will never come into the computer. 15 Q Encrypts is like blocking? 16 It is basically a program called bit locking, which Α 17 is a Windows product which says basically you will never 18 get into it again. 19 You said it sometimes happens in a complex scene. 20 Was this a complex scene? 21 Α From the perspective of the computers that were out 22 and visible, it was not complex, no. 23 Q Now, at some point after you surveyed the computers 24 and seized them, did you participate in an interview of a 25 man by the name of Joseph Valerio?

ı	TOTT estat-bit ect/ Rabi awa ta
1	658 A I did.
2	Q By the way, do you see Joseph Valerio sitting here
3	today?
4	A I do.
5	Q Point him out, please.
6	A The gentleman right here wearing a brown jacket and a
7	black pattern tie.
8	MR. KABRAWALA: Let the record reflect that the
9	witness identified the defendant.
10	THE COURT: Yes.
11	Q Now, I'm showing you what is admitted as
12	Government's Exhibit 302.
13	MR. KABRAWALA: Publishing.
14	(At this time a document was exhibited on the
15	courtroom screen.)
16	Q Is this where you and other law enforcement officers
17	met with the defendant?
18	A Yes.
19	Q Was the defendant handcuffed?
20	A No.
21	Q Was he restrained in any way?
22	A No.
23	Q Did you see anyone at any point draw any weapons
24	while they were in the house?
25	A No.

1	Q	Did you see anyone draw weapons at the defendant?
2	Α	No.
3	Q	Did anyone restrain the defendant, hold him down?
4	Α	No.
5	Q	Did anyone raise their voices at the defendant?
6	Α	No.
7	Q	Did you raise your voice at the defendant?
8	Α	No.
9	Q	So did the defendant admit that he directed Olena
10	Kali	chenko to produce child pornography with her daughter?
11	Α	Yes.
12		MR. LaPINTA: Objection.
13		THE COURT: Sustained. Sustained as to form.
14	Q	What, if anything, did the defendant admit?
15		MR. LaPINTA: Objection.
16		THE COURT: Sustained as to form.
17	Q	What, if anything, did the defendant say during the
18	inte	erview in general to you?
19	Α	In general he stated that Olena Kalichenko that he
20	dire	ected her to reach out and make child pornography
21	imag	ges of her daughter.
22	Q	Did he say he received those images?
23	Α	He did.
24	Q	What did he say?
25	Α	Specifically, I don't remember specifically what he

I	
1	said. But I do remember him admitting that he received
2	the child pornographic videos from her.
3	And then the other thing I specifically recall
4	him saying is that he did receive a DHL, DVU, quote,
5	unquote.
6	Q He claimed that the DHL package was empty?
7	MR. LaPINTA: Objection to the form of the
8	question.
9	MR. KABRAWALA: Withdrawn.
10	THE COURT: Sustained.
11	Q Do you recall the defendant being Mirandized, that
12	is, being advised of his rights?
13	A I do.
14	Q Showing you what is admitted as 304,
15	Government's Exhibit 304, do you recognize this document?
16	(At this time a document was exhibited on
17	courtroom screen.)
18	A Yes.
19	Q This is an advice of rights form?
20	A It is.
21	Q Is your signature on it?
22	A It is.
23	Q Did you witness this being signed by the defendant?
24	A I did.
25	Q Did he waive his rights and agree to speak to law

ĺ	10.1.000
1	enforcement?
2	MR. LATO: Objection.
3	THE COURT: Sustained as to form.
4	MR. KABRAWALA: I will move on. The document is
5	in evidence.
6	Q Now, you testified earlier about your experience in
7	computer forensics.
8	Have you previously been qualified as an expert
9	in computer forensics?
10	A I have.
11	Q What court?
12	A In this court here, actually, the Eastern District,
13	in 2005 in U.S. v. Wernick.
14	Q Which judge was that?
15	A Judge Hurley.
16	Q Down the hall?
17	A Yes.
18	I was qualified in Brooklyn Federal Court, Judge
19	Weinstein. And that was in, I think, 2009 or '10.
20	Across the bridge was qualified as an expert in
21	computer crimes investigations.
22	Q Manhattan Federal Court?
23	A Manhattan Federal Court.
24	Recently in April, State Court, the People of
25	the State of New York versus Sparagano. And that was in

662 1 State Court in April. 2 Q Recently? 3 Α It was a child pornography trial. Recently, 4 yes. 5 MR. KABRAWALA: The government moves to qualify 6 detective Rory Forrestal as an expert in computer 7 forensics. 8 MR. LATO: No objection to him giving an opinion 9 about his expertise and leaving it to the jury as to 10 whether in fact he is. 11 THE COURT: Obviously the jury is tasked with 12 finding whether a witness is qualified with respect to 13 what is called expert testimony. The Court allows him to 14 offer an opinion, but it is up to the jury to evaluate 15 that testimony. 16 I wish to give you an instruction, but I will 17 speak to the lawyers for a moment. 18 19 (Whereupon, at this time the following took 20 place at the sidebar.) 21 THE COURT: The government had offered this 22 instruction. 23 I pulled up what I normally use and give at the 24 end of the case and propose to use this instead. And I 25 will give you guys a chance to look at it.

1	663 MR. KABRAWALA: I will read over your shoulder.
2	That is good, that is fine.
3	MR. LaPINTA: Good.
4	MR. KABRAWALA: Thank you, Judge.
5	THE COURT: Here is the second page.
6	MR. KABRAWALA: Yes.
7	MR. LATO: Agreed.
8	MR. KABRAWALA: Thank you, Judge.
9	
10	(Whereupon, at this time the following takes
11	place in open court.)
12	THE COURT: Members of the jury, let me give you
13	an instruction regarding testimony that one goes with one
14	side offering expert testimony. I will give you the
15	instruction at the end of the case, but I will give it to
16	you now so you can have it now as well.
17	Detective Rory Forrestal at this point has
18	testified as a fact witness. He is now being offered as
19	an expert witness by the government.
20	Each of these types of testimony, fact witness
21	testimony and expert witness testimony, may be considered
22	by you.
23	I would like to give you an additional
24	instruction with regard to witnesses offered as expert
25	witnesses.

Forrestal-Direct/Kabrawala

If scientific, technical or other specialized knowledge will assist the jury in understanding evidence which decides a disputed fact, a witness with a particular knowledge, skill, experience, training or education may be called to testify about such evidence or facts in issue in the form of an opinion.

The rules of evidence ordinarily do not permit witnesses to testify to opinions or conclusions. And exceptions of this rule exist to those being called as quote, unquote, expert witnesses, who may state their opinions and who may also state the reasons for their opinions.

You should consider the witness' opinion received in this case and give it such weight as you may think it deserves. You are not obligated to accept the expert's testimony as truth. If you should decide that the opinion of the witness is not based on sufficient education and experience, or that the reasons given in support of the opinion is not sound or if the opinion is outweighed by other evidence, you may disregard the opinion entirely.

In sum, the expert witness is in all other respects the same as any other witness. You should consider his or her qualifications, his or her experience, his or her interest in the outcome of the case, if any,

1	\$65\$ his or her demeanor, and all the other factors that at the
2	end of the case I will instruct you to consider in
3	assessing the credibility of other witnesses.
4	With that instruction we will now continue.
5	MR. KABRAWALA: Thank you, your Honor.
6	Q While you were at the search on January 28th, 2014 of
7	the defendant's house, did you seize any computers or cell
8	phones?
9	A The agents found the computers in various rooms and
10	they were photographed and brought to me. And I did a
11	complete tour of the scene to make sure that everything
12	was that had some sort of storage capacity and would
13	have been involved in a forensic case was actually taken.
14	Q Did you take custody of them?
15	A I did.
16	Q Did you bring them back to your laboratory?
17	A I did not.
18	Q Showing you what is in evidence as
19	Government's Exhibit 402, an LG My Touch T-Mobile cell
20	phone.
21	(Handed to the witness.)
22	Q Is that one of the items that you took custody of?
23	A Yes.
24	Q And did you conduct your forensic analysis on this
25	device?

A We don't call it a cell phone analysis, forensic
analysis, we call it a cell phone extraction, which is a
different analysis. We did extract the data.
Q My apology.
How did you go about conducting that cell phone
extraction?
A Cell phones work a little bit differently. Although
we process them in our office the same, we complete a cell
phone worksheet, a cell phone worksheet that notes the
condition, the type, the make, the model, who is doing the
extraction on the unit.
We actually take the unit apart.
We remove the battery and note the details
inside. I placed my initials on the inside. That way I
can later identify the unit.
We take the unit and use what is called a
Cellebrite, C-E-L-L-E-B-R-I-T-E.
Q So you take the battery cover off, if I can figure
out how to do it?
A You go to the back like this and flip the battery
out.
Q I want to take this back and put it on the projector.
A Yes.
Q It appears that there are in fact initials on it.
(At this time a document was exhibited on

	667
1	courtroom screen.)
2	Q Are those your initials?
3	A Yes. They are.
4	Q And that is how you know that this is the cell phone
5	in question?
6	A Yes.
7	Q By the way, where does it say that this was made?
8	A It should say on the tag, and it does. It says it
9	was made in Korea.
10	Q Korea.
11	Where is this little battery made?
12	A Made in China.
13	Q China.
14	You mentioned Cellebrite.
15	What goes through the process of the Cellebrite
16	analysis?
17	A The cell phone extraction tool is a box, which is
18	used in this particular case. It is literally a miniature
19	computer that has software and hardware installed in it,
20	and it enables it to attach and extract all the data
21	stored inside this cell phone.
22	Also from the SIM card installed, there is a
23	little card inside that has data on it that the telephone
24	company uses.
25	Then if there was any small storage cards, they

668 1 sometimes come with it and we also extract the data from 2 that. 3 Every one of these has a different connection. 4 It enables to connect to it in a different way. They give 5 you a couple of hundred different cables you can attach to 6 it. And it gives different selections on options on the 7 couple of different ways to extract data from these 8 It gives you a couple of options to get the best things. 9 result. 10 What kind of information is extracted from this cell Q 11 phone using Cellebrite? 12 From this specific unit I did a physical extraction 13 that gets all it can at that particular time that the 14 software allows. It gets text messages, also known as SMS 15 messages; MMS messages, which are multisystem messages, 16 which contain pictures and what-not attached to it in a 17 text message format. It has location data, stored 18 pictures, if there are any videos available. 19 Whatever you can see on the cell phone, 20 generally speaking, except a few categories, it will 21 catch. 22 Did you find any child pornography images on that 23 cell phone? 24 Α No, I did not. 25 Now, what is Cellebrite, this forensic tool, what Q

1		
1	does	it produce at the end of doing whatever it does?
2	Α	Following the extraction process, you would bring it
3	back	to your forensic computer. And Cellebrite has
4	softw	are you would then use which lets you open that
5	extra	ction, and it categorizes these different data pieces
6	that	you have extracted from there, organizes them, and
7	then	gives you the option to produce reports in different
8	forma	ts.
9	Q	So can you see, for example, just all the photos that
10	were	on the cell phone?
11	Α	Correct.
12	Q	Can you see all the videos that were on the cell
13	phone	?
14	Α	Correct.
15	Q	Can you see an email on the cell phone?
16	Α	In this particular case there weren't any emails
17	extra	cted.
18	Q	Did you see any cell phone text messages?
19	Α	Yes.
20	Q	And was there a report generated?
21	Α	Yes.
22	Q	And as part of that report, can you lay out
23	every	thing that happened in a timeline?
24	Α	It automatically does it if you do a full report.
25	And y	ou can basically select it specifically. You can

670 1 just go out and select a timeline report if you want. 2 Q Can you describe what a timeline is, since we have 3 not seen the report yet? The timeline report basically gets all those 5 different categories. When it organizes the information 6 to be analyzed, it actually separates it by text messages, 7 by call log, by location, by whatever. 8 What timeline does is, it takes all the 9 different categories and combines it in one spot and 10 organizes it chronologically. 11 Showing you what is marked as Q 12 Government's Exhibit 270 -- withdrawn. 13 The report that it produces, or the report 14 produced for this phone, is it fair to say that it was a 15 couple of thousand pages? 16 About 2,200. Α 17 2,200 pages? Q 18 Yes. Α 19 I'm showing you ten pages which are collectively Government's Exhibit 270. 20 21 (Handed to the witness.) 22 Q Do you recognize that? 23 At the top of it is the bottom part of the 24 It looks like the very beginning of the 25 timeline report and follows through.

ı	Total Biroot/Nabiawara
1	671 Q And is it fair to say that those are selected pages
2	of this 2,200 page report?
3	A Correct.
4	Q Pages starting at withdrawn.
5	Did you produce the report using the forensic
6	tool Cellebrite?
7	A I completed a complete report, the whole report. I
8	used that, yes.
9	Q You produced a complete report and this is a portion
10	of that complete report?
11	A Right.
12	MR. KABRAWALA: The government moves to admit
13	Exhibit 270.
14	MR. LATO: No objection.
15	THE COURT: 270 is admitted.
16	(Whereupon, Government's Exhibit 270 was
17	received in evidence.)
18	MR. KABRAWALA: And I'm going to publish the
19	first page of Government's Exhibit 270.
20	(At this time a document was exhibited on
21	courtroom screen.)
22	Q Look at the first row where it says number one. What
23	does that tell you, number one? What does that row of
24	information tell you?
25	A I have to talk loud, I'm moving away from there.

1	
1	672 The first column is type. And it shows what
2	type of entry it was, whether it was a text message, a
3	call log entry, and also a little arrow showing the
4	direction of incoming or outgoing.
5	The next column is time stamp.
6	The party indicating where it came from.
7	The description would be, if it was a text
8	message, we would have the text there. If it was a call,
9	it would just say call.
10	Down here if it was a lat long, it would
11	indicate it there. And then the next column if it was
12	deleted, it would indicate it was deleted.
13	Q You can see deleted test messages?
14	A Sometimes it gives deleted text messages.
15	Q I want you to look at the time stamp associated with
16	number one.
17	January 28th, 2014. That is the day of the
18	search warrant, right?
19	A Right.
20	Q That appears to be the final date of any texting
21	activity in the report; is that right?
22	A Yes.
23	Q Does it appear that this phone was in use on
24	January 28th, 2014?
25	MR. LaPINTA: Objection.

1	THE COURT: Objection?
2	MR. LaPINTA: Yes, as to the word "use."
3	Q What, if anything, does the fact that there is a text
4	message on January 28th, 2014 tell you about the use of
5	this phone on that date?
6	A It shows the cell phone was alive and actively being
7	used for communication.
8	Q And does it appear to be an incoming text message
9	from someone named Andre, A-N-D-R-E?
10	A It does.
11	Q It says, if we don't go to the game tomorrow, which
12	is perfectly fine, let's watch it together in the movie
13	room and order food.
14	Did I read it correctly?
15	A You did.
16	Q Now I will kind of walk through the rest of the ten
17	pages.
18	Page 2, the entry that starts with number 54.
19	Is it fair to say that this is a sent message to
20	a person identified in the contact as Vinny?
21	A Yes.
22	Q And the text of the sent message from the cell phone
23	says, here's my email address if you need it:
24	Joeval5@optonline.net?
25	A Correct, yes.

,		Total State State and Tanana
1	Q	Page 3, if you go there, please.
2		Are you there?
3	Α	Yes.
4	Q	There is an entry 550.
5	Α	I see it.
6	Q	It looks to be an international number with a country
7	call	ing code of plus 38.
8	Α	Yes.
9	Q	It is a sent message from that cell phone you have in
10	fron	t of you, right?
11	Α	Yes.
12	Q	That was seized from the defendant's house on
13	Janu	ary 28th, 2014?
14	Α	Yes.
15	Q	The sent message says: Write me;
16	joev	al5@optonline.net?
17	Α	Correct.
18	Q	Just jump down to the next message, please.
19	Α	Yes.
20	Q	Entry 551, which is on the same page, the very next
21	one?	
22	Α	It is.
23	Q	It appears to be a message a few minutes before the
24	mess	age that you just read out loud; is that right?
25	Α	Yes.

1 Q So it is a timeline in a reverse chronological order? 2 Α Yes. 3 And the message that was sent, can you just read --() 4 I'll read it. I will read the message aloud and you tell 5 me if I get it wrong. 6 You are, my sweet. I'm going out now, but I saw 7 your Skype message when I first -- when I finished Skype. 8 I don't have Skype messaging sweetie. I will give you my 9 email address, Yara. Helena is with some man. Listen, 13 you have to go to an au pair meeting -- agency, then I 14 will bring you here to my home. I have a personal 15 assistant, slash, au pair, coming to my home in July. She 16 is from Spain. 17 Write me on my email is: Joeval5@optonline.net. 18 That is all correct. Α 19 O Page 3, we are down the page, 556. 20 I see it. Α 21 Sent message. Hello Helena. I'm out at Gurney's in () 22 Montauk this weekend. And it goes on to say, provide --23 here is my email address in case you forgot. 24 Α Correct. 25 Q Now, on page 4, on 278, and at the bottom it says

	Tot restar-birect/Rabi awara
1	676 264, so this is 264 of that multi-page report.
2	A I am on the page.
3	Q Entry number 608, this is a sent message from that
4	cell phone to a person identified as a contact, Mike.
5	I will read it, and you let me know if I get it
6	wrong.
7	Hey Mike. Okay. Let's put in the starter and

10	issue. Let's do it this way we agreed. My email is

12	A All correct.
13	Q Now we are on page 5.
14	This is the entry 284.

	101100tal Dilloct/Rabiawaia	
1	Q Detective, what are we looking at here?	
2	A Excuse me.	
3	This is a portion of the extraction report, and	
4	specifically in regards to the phone number 380992256638.	
5	Q All right.	
6	I want to go through some of these entries, line	
7	by line.	
8	The first message is from that number you	
9	described; is that correct?	
10	A Yes.	
11	Q What is the date of it?	
12	A It is December 3rd, 2013, at 3:08 p.m.	
13	Q What is does the body say?	
14	A The body is: Joseph, so what do you think about	
15	property in Dubai as an investment opportunity, question	
16	mark.	
17	Q What is the next message? Go ahead and describe the	
18	next message. Same number?	
19	A Same number.	
20	Again, December 3, 2013, at 8:55 p.m., UTC time.	
21	And it is, you know, you are really damn. You could have	
22	negotiated with me before the criminal case against I	
23	can't make up the letter, it is a little fussy on the	
24	сору.	
25	MR. BODE: it is you up on the screen there.	

681 1 THE WITNESS: Let me read the entire thing, a 2 little blurry on the sheet. 3 You know, you are really damn. You could have 4 negotiated with me before the criminal case against you 5 was being opened. 6 Q All right. 7 Let's zoom out, and what is the next message? 8 What does it indicate to you that it is blank in the from 9 section? 10 Α The blank would mean it is being sent to the phone 11 number. 12 Being sent from that phone? Q 13 Being sent from this phone to the phone number Α 14 38092995638. 15 Q Okay. 16 So this is sent some two days approximately 17 after the first few messages we viewed; is that right? 18 Α Yes, on December 5th. 19 () Can you read the portion in all caps. 20 It is all caps. It says: Listen you crazy woman. 21 don't know who you are. If you continue to harass me and 22 my family again I will go straight to the police. 23 have your cell phone number and photo. Do not message me 24 here on Viber or anywhere else again. Don't ever again. 25 Q What is Viber?

1		
1	682 A Viber is a cell phone app service that is very good	
2	in facilitating international phone calls and text	
3	messages.	
4	Q All right.	
5	Let me put it back up now.	
6	I will say summarize, from the same 38	
7	number, line 4, it is a day after, approximately, the	
8	message that you just previously read.	
9	I want you to read the incoming message, what it	
10	was.	
11	A You are really damn. Yes, go to the police. They	
12	are waiting for you.	
13	Q Let me jump to the next incoming message, actually	
14	line 6.	
15	December 6th, 2013.	
16	What is the incoming text?	
17	A It says NYPD already has all my info, data and more	
18	and then enough pics and videos.	
19	Q The next message appears to be the same number, three	
20	minutes later on the same day, exactly three minutes.	
21	What is the text?	
22	A It says: Have a nice sleep.	
23	Q And the next message after that, 8, 12/6/13, what	
24	does it say there?	
25	A Capital letters. Now I will be going to the police	

683 1 to put your ass in jail for harassment and stalking my 2 life. You are a sick dangerous woman. I warned you. 3 Q That is an outgoing message? 4 Α An outgoing message. 5 Q What is the next message after that? 6 The next message, December 6th, on 156. Shall I give Α 7 you the exact names of the officers you must contact? 8 Q All right. 9 Let's jump down. 10 Read the next one. 11 A few minutes later, please don't -- please do Joseph Α 12 go. 13 Q All right. 14 Why don't you read line 18? Line 18 is December 7, 2013. At 6:45 p.m., UTC time. 15 Α 16 It says okay, Joseph, I am fed up with you. I 17 am sending all the videos I made for you with 18 the FBI. That's the only piece needed to get a court to 19 arrest you. 20 THE COURT: You misread one word. Please read 21 it again. 22 THE WITNESS: Okay Joseph, I am fed up with you, 23 I'm sending all the videos I made for you with 24 That's the only piece needed to get a court 25 order to arrest you. No more mercy for you.

1	
1	\$684\$ Q Why don't you read the outgoing message, starting,
2	number 32. It appears to be the same day as the message
3	you read.
4	A It is December 7th, and it says: I always offer
5	peace, especially during this blessed time of the year for
6	family. But you want war.
7	Q Go ahead and read the next one.
8	A The next one is: I helped you and your family. Now
9	leave it like that. Don't ever forget.
10	Q Read the next one, please.
11	A We shared a lot in our past.
12	The next line is peace be with you.
13	Q What is the next entry there.
14	A The next one says: That's not what the FBI thinks
15	about you. They think you are a predator.
16	Q Let me stop you right there.
17	I want to have you read just one more, page 2 of
18	Government's Exhibit 555, line 44.
19	A It is on 1/7/2014. And it says Merry Christmas
20	Helena.
21	Q What does the next one say?
22	A The next one says, thank you Joseph it says thank
23	you Joseph.
24	Q So the messages were between approximately the
25	messages that you just testified about, is it fair to say

ı		
1	that they started around December 3rd, 2013?	
2	A Yes.	
3	Q Line number two where there was an incoming text that	
4	says, you could have negotiated with me for the criminal	
5	case against you, etcetera?	
6	A Yes.	
7	Q When was the date of the search warrant?	
8	A It was January 28th, 2014.	
9	Q Is it fair to say that some number withdrawn.	
10	Is it fair to say that the defendant's phone	
11	received information about criminal investigation	
12	concerning him some eight weeks prior to the search	
13	warrant?	
14	A Approximately, yes.	
15	Q Are you able to say with certainty that all of the	
16	devices that were seized at the defendant's house on	
17	January 28th, 2014 are all the devices that he owned?	
18	MR. LaPINTA: Objection.	
19	THE COURT: Sustained as to form.	
20	Q Are you able to say with any certainty that the	
21	defendant had any other devices, other than the ones that	
22	you had seen there?	
23	MR. LaPINTA: Objection.	
24	THE COURT: Sustained as to form.	
25	Q Do you know what devices, if any, the defendant had	

1	
1	at his house on December 3rd, 2013?
2	A No.
3	Q Could you know that?
4	A No.
5	Q I will show you Government's Exhibit 303-A. Just
6	look at your screen.
7	Government's Exhibit 303-A is an email in
8	evidence I'm publishing.
9	(At this time a document was exhibited on
10	courtroom screen.)
11	Q It is the original message that has come up a number
12	of times. And I will represent to you it came up a number
13	of times.
14	I want you to read where I'm circling, the
15	paragraph starting with, the videos you sent.
16	And end when you get to cell phone camera.
17	A Okay.
18	The videos you sent by cell phone camera are
19	perfect. And there is no need for the expense of another
20	camera. When you have done a terrific job with the cell
21	phone camera.
22	Q I meant the next reference to cell phone camera.
23	Continue reading until you get to the next reference of
24	cell phone camera.
25	A Do you want me to restart the sentence?

1		
1	Q	You can go ahead and continue.
2	Α	I have a new cell phone which allows me to transfer
3	your	video to my email and the screen is bigger to view.
4		Continue?
5	Q	Yes.
6	Α	All right.
7		Plus you can have endless video time per session
8	with	the cell phone camera.
9	Q	You can stop there.
10		You testified you didn't find any child
11	porno	ography on Government's Exhibit 402, the cell phone?
12	Α	No.
13	Q	But you testified that the defendant received
14	info	rmation as early as the first week of December that
15	there	e was a criminal investigation against him?
16	Α	Yes.
17	Q	Could there be other devices out there that weren't
18	seize	ed
19		MR. LaPINTA: Objection.
20		THE COURT: Sustained.
21	Q	There was no child pornography on the cell phone.
22		Was there any child pornography that you found
23	on a	ny of the computer devices?
24	Α	There were.
25	Q	Showing you what is admitted in evidence as

			688
1	Gove	rnment's Exhibit 400.	
2		(Handed to the witness.)	
3	Q	Do you recognize that.	
4		(Counsel confer.)	
5	Q	Do you recognize that?	
6	Α	Yes.	
7	Q	Did you evaluate that?	
8	Α	Yes.	
9	Q	Forensically?	
10	Α	Yes.	
11	Q	How do you know it is the same device?	
12	Α	I documented it. It has my initials on the top of	
13	it.	I put the markings on. I put the unique Suffolk	
14	Coun	ty case number there.	
15	Q	I'm showing you what is marked as	
16	Gove	rnment's Exhibit 401.	
17		(Handed to the witness.)	
18	Q	What is this thing?	
19	Α	This is a computer hard drive that was installed	
20	insi	de the computer evaluated.	
21	Q	All right.	
22		You have to walk us through this.	
23		What is the difference between this computer	
24	towe	r and that Government's Exhibit 401?	
25	Α	They work in conjunction with each other. This is

      the device, if you will, where the data is stored.
                                                            And it
2
      works with the computer that was basically the mechanical
 3
      end of the disk that contains instructions on how to look
 4
      at this stuff essentially.
5
      Q
           Was this at some point inside that?
      Α
           That was installed inside that, yes.

           So Government's Exhibit 401 was inside

      Government's Exhibit 400?

      Α
           Yes.
12
      Q
           I brought it over in a box. Was it in a box?
13
           No, stored in a bag.
      Α
14
      Q
           You put it in a box to protect it, right?
15
      Α
           Yes.

                MR. KABRAWALA: The government moves to admit

      Exhibit 401.
18
                MR. LaPINTA:
                               No objection.
19
                THE COURT: 401 is admitted.

                 (Whereupon, Government's Exhibit 401 was
21
      received in evidence.)
22

23
      and I will publish this.

ĺ	
1	Q Does it say where it is made?
2	A Made in Malaysia.
3	Q I will bring this back to you.
4	When you got Government's Exhibit 400, I think
5	you testified you took 401 out of there, right?
6	A Yes.
7	Q What did you do with Government's Exhibit 401, the
8	hard drive, once you obtained it?
9	A Basically processed it as I previously testified.
10	Q I can't hear you. It is a big courtroom. Sorry.
11	A I applied the process that we discussed before. I
12	brought it to my forensic work station. I attached it to
13	a TABLU write block.
14	Q When you you talked about a write block before,
15	and now you are talking about a TABLU write block.
16	Remind us what a write block does again.
17	A The write block prevents basically the back wash of
18	data even accidently. It keeps the original pristine.
19	Q You made a forensic copy, which is a bit by bit copy
20	of the information on that hard drive; is that right?
21	A Correct.
22	Q And the TABLU hard drive I will hold up the hard
23	drive, Government's Exhibit 401, what did you do with it
24	physically?
25	A Physically it gets attached using cables and a power

691 1 supply to the write block. And then the write block is 2 actually attached to the forensic computer. 3 Q It is like a dam, isn't it? 4 Α Yes. 5 Q And nothing can go from this side of the dam to here; is that right? 6 7 Α Right. 8 Q And this is in the exact same condition on the date 9 it was seized, January 24th, 2014? 10 Α The data, yes. 11 Q No data whatsoever at all had been changed in any 12 wav? 13 Α No. 14 Q What did you do once you hooked up the TABLU write 15 block, what happened then? I then used forensic images software, in this 16 17 particular case FTK, which is a Forensic Tool Kit. They 18 have an imaging piece of software that I applied and 19 basically directed it to make the forensic image a lab 20 hard drive. 21 () What, if anything, happened to that specific forensic 22 image that you extracted from the hard drive? 23 Α That is attached to my forensic computer, and it lets 24 me use all the forensic tools I have installed on the 25 computer to examine the contents.

ı		
1	692 Q And did you do anything with that forensic bit by bit	
2	image?	
3	A I did.	
4	I examined it using EnCase, the forensic tools	
5	we spoke about before. Another tool Internet Evidence	
6	Finder, IEF.	
7	Q Let me stop you right there.	
8	The forensic image that you made, did you make	
9	another forensic image at some point?	
10	A I did.	
11	Q Why?	
12	A The original image that I made on the particular web	
13	hard drive, the hard drive actually failed, corrupted.	
14	I'm not sure why. It just didn't work anymore. So I	
15	reimaged the hard drive and in March next, I reimaged	
16	all the media originally imaged in March.	
17	Q Now, you took the hard drive at some point and	
18	connected the TABLU write block dam and made a forensic	
19	image?	
20	A Yes.	
21	Q And you put that forensic image on your laboratory	
22	computer?	
23	A The hard drive, yes.	
24	Q The hard drive on your laboratory computer?	
25	A Right.	

		Torrestar Bricot/Rabiawara
1	Q	And at some point the laboratory computer hard drive
2	faile	ed?
3	Α	Correct.
4	Q	So then you reinitiated the entire process? You
5	walked back to the storage area presumably where you keep	
6	that	hard drive?
7	Α	Correct.
8	Q	Let's go through that process again.
9		Then you reimaged it using what software?
10	Α	FTK, or Forensic Tool Kit.
11	Q	And then you obtained that forensic image, correct?
12	Α	Correct.
13	Q	And then what software did you use on that forensic
14	image	e ultimately?
15	Α	Again, I used EnCase version 6.19, called Internet
16	Evide	ence Finder. I also used portions of FTK, the
17	forer	nsic tools, as opposed to the hard drive imaging
18	tools	s. I used a whole series of tools to examine the
19	conte	ents of the computer.
20	Q	And did you find an email on that computer?
21	Α	I did.
22	Q	I will actually show you Government's Exhibit 506.
23		Do you see that?
24		(At this time a document was exhibited on
25	court	croom screen.)

1	A Yes.
2	Q What is Government's Exhibit 506?
3	A It is a PowerPoint slide that I put together showing
4	the directory image as I would see it during my forensic
5	examination.
6	Q You put together Exhibit 506 to assist us today in
7	the court proceeding to see how you did your forensic
8	analysis?
9	A Correct.
10	MR. KABRAWALA: The government moves to admit
11	506.
12	MR. LATO: No objection.
13	THE COURT: 506 is admitted.
14	(Whereupon, Government's Exhibit 506 was
15	received in evidence.)
16	MR. KABRAWALA: I will publish it.
17	Q Let's walk through what this exhibit shows.
18	And let me start with the left-hand side, the
19	first row, C1-HD-1.
20	What is that?
21	A We give every piece of evidence media evidence
22	numbers so we can talk about it and refer to it.
23	So when I imaged the hard drive from this
24	computer, what I named it for processing purposes is
25	computer one, hard drive one.

ĺ	
1	695 If there was a second hard drive in there, we
2	would have a computer hard drive two. This was the only
3	hard drive in there.
4	Q That Government's Exhibit 400 only had one hard
5	drive?
6	A Yes.
7	Q How big is the hard drive?
8	A A 20 gigabit hard drive.
9	Q Relatively small?
10	A Yes.
11	Q And you named the hard drive for your forensic
12	purposes C1-HD-1?
13	A Yes.
14	Q And did you determine at some point whether there was
15	an operating system on the hard drive?
16	A Yes.
17	Q And what operating system was in use on that hard
18	drive?
19	A It was Windows Millennium.
20	Q Windows Millennium?
21	MR. LATO: Objection to the echo.
22	Q What is an operating system?
23	A An operating system is software that is designed to
24	make everything work together. It basically uses a set of
25	instructions for the different hardware pieces that

A lot of people know Apple is the other one, and that has a different operating system and they handle data just a little differently. Generally it is a set of instructions that makes everything work and how it displays and how you see it. Q I see on the left-hand side of Government's Exhibit 506, and a red circle, Windows, that is the operating system? That is the directory that the files involved with Α the operating system reside. Q All right. Let's walk through what is shown, if you can just walk us through what is shown on Government's Exhibit 506. Right below the C1 hard drive one, it shows the hard Α drive in this particular case. And in Windows it is always given a volume number or drive number. In this particular case the C represents the hard drive, the whole hard drive in entirety. Down below it are file directories. This is a standard file directory structure that you would see in a Windows installation.

697 A file directory is basically, the best way to think about it is file cabinets inside your house. There has to be a way to organize, discuss things and find things. Basically it is a bunch of file cabinets or directories that has similar information in them. actually opening them up, there would be additional file folders or cabinets, whatever, that would further organize things by pictures, by videos, by documents, by all kinds of different files. It is an organization tool. Q Did you find anything in My Documents? In My Documents there were pictures and documents, Α quite a bit of information. Q What, if anything, did you do next after you -- after you started forensically analyzing the hard drive? Umm, you would start entering all these different directories and you would use the various forensic tools to examine what contents are immediately visible. () Let's go to the right-hand side of Government's Exhibit 506. What does this show? What does this directory structure show? This file directory structure is related to the program Microsoft Express. And what that does is in a new Windows directory it creates a file directory in one of

ĺ	
1	698 the storage areas I told you about called identities and
2	then puts the Microsoft data all in one place.
3	Q Let me just back you up a little bit.
4	There were programs on this computer?
5	A Yes.
6	Q And one of the programs was Microsoft Express?
7	A Yes.
8	Q What is that?
9	A Microsoft Express, they call it an email client, or a
10	program you would use to look at, compose, send or
11	organize your email.
12	Q Okay.
13	And that is a program that is on this computer?
14	A Correct.
15	Q Now, walk us through the right-hand side, the
16	directory that is for Microsoft Express.
17	A Microsoft Express, depending on the options you
18	choose, it creates these different folders called DBX
19	folders. It goes in and makes a folder or in box, or out
20	box, or deleted box. All this is part of the process that
21	organizes this information and lets it be used.
22	Q All right.
23	And did you in fact find a sent box?
24	A I found a sent box, yes.
25	Q And what did the DBX file in relation to the sent

	699
1	box?
2	A It would be sent sent DBX, I believe.
3	Q They are maintained in a database in that folder?
4	A It is in a database format, yes, DBX file.
5	Q All right.
6	I will show you
7	THE COURT: Why don't we take a break before you
8	proceed.
9	We will take the afternoon break.
10	Do not discuss the case.
11	(Whereupon, at this time the jury left the
12	courtroom.)
13	THE COURT: Everyone be seated.
14	I would like you to give me an estimate at the
15	end of the week where we stand. They wonder sometimes if
16	the case is proceeding as quickly as we are anticipating.
17	I hope to be able to tell them at the end of the
18	day based on my discussion with the lawyers I anticipate
19	the presentation of the evidence will be completed
20	sometime on Monday, and we would have the summations on
21	Wednesday morning because Tuesday is the holiday.
22	Are both sides comfortable with that?
23	MR. LaPINTA: Yes.
24	MR. KABRAWALA: Yes, Judge.
25	THE COURT: All right. Thank you.

3	
4	THE COURT: Please be seated.
5	Bring in the jury.
6	How much more do you have on direct?
7	MR. KABRAWALA: About an hour and a half.
8	THE COURT: Okay.
9	You are not going to finish?
10	MR. BODE: We will be playing the videos. They
11	are all loaded onto the machine.
12	THE COURT: I wanted to ask about the 229-A.
13	There was some confusion yesterday with the two labels.
14	We should resolve it at some point to make sure what is or
15	is not in evidence. Okay?
16	MR. KABRAWALA: Yes.
17	(Whereupon, the jury at this time entered the
18	courtroom.)
19	THE COURT: Everyone be seated.
20	Mr. Kabrawala.
21	BY MR. KABRAWALA:
22	Q Detective, when we broke just before the break you
23	were testifying about Government's Exhibit 506, which is
24	an exhibit that you prepared to assist us to show where
25	you found emails on that machine; is it fair to say?

	101100001100001000000000000000000000000
1	A Yes.
2	Q All right.
3	Did you in fact find emails?
4	A I did.
5	Q Where did you find the emails?
6	A The emails were in all the boxes specific to the
7	case. I found emails in inbox, parenthesis one, the DBX
8	and sent items, dot DBX.
9	Q Are those the two items circled in red on the screen?
10	A Yes.
11	MR. KABRAWALA: The government moves to
12	sorry.
13	Q I'm showing you what is marked as
14	Government's Exhibit 550, a CD, and 550-A, another CD.
15	Do you recognize those items? If so, describe
16	what they are.
17	A I do.
18	These are disks that I created after I extracted
19	the emails from the hard drive.
20	Q How do you know that you created the disks that you
21	are holding?
22	A I created the disks and put it in the labelling
23	machine. And then I initialed the disk and dated the disk
24	on the top.
25	Q You signed them?

	TOTTES Late Diffe CL/ Nabi awa ta
1	702 A I did.
2	Q What is 550?
3	A 550 is all the emails from the inbox, parenthesis
4	one, dot DBX.
5	Q Is that the one I'm I have circled here?
6	Extracted from that hard drive?
7	A Yes, that's correct.
8	Q And what is the other disk?
9	A The other disk is all the emails I extracted from the
10	sent dot DBX.
11	Q Again, the same question.
12	You extracted those items from that computer,
13	right?
14	A Yes.
15	Q That hard drive?
16	A Yes.
17	MR. KABRAWALA: The government moves to admit
18	those two exhibits.
19	MR. LaPINTA: Can we approach, please?
20	
21	(Whereupon, at this time the following took
22	place at the sidebar.)
23	MR. LaPINTA: While we were on the break, I
24	proposed a stipulation regarding this particular exhibit.
25	This hard drive has over 12,000 emails.

703 1 MR. KABRAWALA: No. The entire case has 12,000. 2 That only has about 2,000. 3 MR. LaPINTA: Okay, 2,000. The same. 4 2,000 emails on this. 5 I looked at them all. But just as the one snuck 6 by me, my concern is that the jury, for whatever reason, 7 may want to see it, and some of the other emails, that we 8 both looked at them to make sure they are cleansed of any 9 problems. 10 I don't want to have a foundation for every 11 unrelated email to be developed. But I will not agree for 12 every unrelated email to be published to the jury in the 13 unlikely event they want to see it. 14 MR. KABRAWALA: Judge, this case is about the 15 control over the devices found in the defendant's house, 16 which are really germane to the defendant -- to the 17 government's case. And we produced --18 THE COURT: I know. But 2,000 emails is a lot 19 of emails, for purposes of cumulativeness, relevantness 20 and 404. 21 Obviously the ones you are playing for the jury 22 they can object or not. 23 But the ones you are not playing for the jury, 24 if the jury is to ask for all the emails on the disk that 25 they argue should be redacted in some way --

1	MR. LaPINTA: That is what I said.
2	MR. KABRAWALA: That is fair.
3	MR. BODE: And the reason why we wanted to put
4	them all in, Judge, is their forensic expert is not on
5	yet, and it may be that he may find something else
6	relevant as well.
7	MR. LaPINTA: I have no problem with that, it
8	comes in, but if they want to see it.
9	MR. BODE: We agree.
10	MR. LATO: It is resolved.
11	THE COURT: All right.
12	
13	(Whereupon, at this time the following takes
14	place in open court.)
15	THE COURT: Based upon the discussion at the
16	sidebar, Government's Exhibit 550 and 550-A are admitted.
17	(Whereupon, Government's Exhibits 550 and 550-A
18	were received in evidence.)
19	MR. KABRAWALA: Thank you.
20	Q Did you find an email between joeval5@optonline.net
21	and kalichenkoes@mail.ru in the inbox? Let's talk about
22	the inbox.
23	A The inbox 1 dot DBX, yes.
24	Q Thank you for the clarification.
25	I'm now showing you what is marked as

14	I will read, and tell me if I get it wrong. I'm

18	Again, is that a true and correct extraction of

21	A Yes.
22	MR. KABRAWALA: Move to admit 566.

2	MR. KABRAWALA: I will publish it. And I will

4	Joseph, I have just checked the package,
5	tracking number is and there is a package number ending
6	in 6006. If you go to www.DHL.com.
7	Q Is that fair to say that that is what it says?
8	A Yes.
9	Q By the way, that DHL number I just read, that was in
10	an email on that computer; is that right?
11	A Yes, it was.
12	(Counsel confer.)
13	MR. KABRAWALA: Can we have a sidebar, Judge?
14	
15	(Whereupon, at this time the following took
16	place at the sidebar.)
17	MR. KABRAWALA: We discussed at a pretrial
18	conference the admission of this, at which time this was
19	obviously provided with a certification from DHL.
20	There is nothing that has changed. This should
21	come in as a self-authenticating document.
22	THE COURT: I remember that conference.
23	MR. BODE: I have the minutes if you need.
24	THE COURT: I remember it.
25	MR. LATO: There is no question that the bulk of

1	
1	718 the document should come in. My only request is the
2	following:
3	With respect to the portion that says DVD disk,
4	we don't know if that was written by Ms. Kalichenko as a
5	co-conspirator statement made in the course of a
6	conspiracy, or if it was written by someone at DHL based
7	upon examination.
8	That is the only question I have. Because if in
9	fact it was written by somebody from DHL based upon what
10	Olena Kalichenko said
11	MR. KABRAWALA: It doesn't matter because it is
12	taken in the regular course of business.
13	THE COURT: The issue is whether or not it
14	should come in as a co-conspirator statement, I think
15	there is a sufficient basis to allow it. You can make
16	that argument, but I will allow it.
17	MR. LATO: As I was saying it, I think I agree,
18	anyway. So that is myself saying I agree.
19	
20	(Whereupon, at this time the following takes
21	place in open court.)
22	MR. KABRAWALA: The government moves to admit
23	Government's Exhibit 201.
24	THE COURT: Any objection?
25	MR. LATO: No, your Honor.

1		THE COURT: 201 is admitted.
2		(Whereupon, Government's Exhibit 201 was
3	rece	eived in evidence.)
4		MR. KABRAWALA: Publishing it.
5		(At this time a document was exhibited on
6	cour	rtroom screen.)
7	Q	This is a DHL bill of lading, the weigh bill.
8		Do you see the tracking number on top?
9	Α	Yes.
10	Q	Is it the same tracking number as the tracking number
11	in t	the last email; is that right?
12	Α	Yes.
13	Q	Contents?
14	Α	DVD disk.
15	Q	Contact name, Kalichenko O.
16	Α	That's correct.
17	Q	Delivery address?
18	Α	3 High Gate Drive, Smithtown, New York.
19	Q	Contact name, Joseph Valerio?
20	Α	Correct.
21	Q	Date is 26-04-12.
22		What does that tell you?
23	Α	April 26th, 2012.
24	Q	They write things differently across the pond?
25	Α	They do.

	101100141 211001/11421 41414
1	Q All right.
2	Did you recover child pornography videos on that
3	hard drive?
4	A I did.
5	Q I was showing you what is marked as Government's
6	Exhibit 500, the disk.
7	(Handed to the witness.)
8	Q What is that disk?
9	A This is a disk I created that contained a number of
10	emails which contained attached videos that are child
11	pornographic in nature.
12	Q And you extracted that from the inbox of this thing,
13	this hard drive, Government's Exhibit 401, that was in
14	this machine, Government's Exhibit 400, that was found at
15	that man's home (indicating)?
16	A Yes.
17	MR. KABRAWALA: The government moves to admit
18	the video.
19	MR. LaPINTA: What number is that again?
20	MR. KABRAWALA: Government's Exhibit 500.
21	MR. LaPINTA: No objection.
22	THE COURT: 500 is admitted.
23	Q Now, I will just bring over to you a binder, a binder
24	with a number of exhibits in it.
25	And I want you with the Court's permission to

	101100141 211001/11401414

2	Take a look at Government's Exhibit 501, 502,	
3	503 and 504?	
4	Are those merely portions of	
5	Government's Exhibit 500?	
6	A Yes.	
7	Q Essentially they are videos you took from	
8	Government's Exhibit 500 and you put them on a separate	
9	disk?	
10	A Correct.	
11	Q How do you know that you did that?	
12	A We marked, or I marked, and I labeled it video disks.	
13	I created the disk. And after creating each one and	
14	giving it an individual file name, I initialed them.	
15	MR. KABRAWALA: Move to admit all of those.	
16	MR. LATO: No objection.	
17	THE COURT: Government's Exhibit 501 through 504	
18	are admitted.	
19	(Whereupon, Government's Exhibits 501 through	
20	504 were received in evidence.)	
21	Q By the way, there are emails, too, in the binder,	
22	Government's Exhibit 501-D, 502-A, 503-G and 504-E.	
23	How did those relate to those various disks?	
24	A The disks contained the files that have the video.	
25	And the text portion of the actual video that the files

3	is that correct?	
4	A Yes.	
5	Q And Government's Exhibit 501 is total time, two	
6	minutes 33 seconds.	
7	We will not play the entire video.	
8	Did you make the clips of that video?	
9	A I did.	
10	MR. LaPINTA: Objection to form.	
11	THE COURT: Sustained.	
12	Q Did you make the clip of Government's Exhibit 501,	
13	the two minute and 33 second long video?	
14	A I did.	
15	Q Did you make a shorter clip of it?	
16	A I did, yes.	
17	MR. KABRAWALA: All clips are in evidence.	
18	A We have it as a disk identified as	
19	Government's Exhibit 501, for the record.	
20	Q 501-B, which is in evidence, is a 30 second clip of	
21	Government's Exhibit 501?	
22	A Correct.	
23	Q You created that clip?	
24	A Yes.	
25	MR. KABRAWALA: I'm going to play it.

                THE COURT:
                            Hold on -- did you say 501?
 2
                MR. KABRAWALA:
                                В.
 3
                MR. LaPINTA: D, as in dog.
 4
      Q
           D is a piece of paper.
 5
                The other --
 6
                THE COURT: Why don't you approach.
 7
 8
                 (Whereupon, at this time the following took
 9
      place at the sidebar.)
10
                THE COURT: When did 501-B, as in boy, come in?
11
                MR. KABRAWALA:
                                 Judge, it is all contained -- I
12
      see what you are saying.
13
                THE COURT: You can offer it.
14
                MR. LaPINTA: That is usually what happens.
15
                MR. KABRAWALA: That is fine, all right.
16
17
                 (Whereupon, at this time the following takes
18
      place in open court.)
           Is Government's Exhibit 501-B, is that on the disk
19
20
      identified and labeled Government Exhibit 501?
21
      Α
           500 or 501? Actually in both places.
22
           Both places?
      Q
23
      Α
           Yes.
24
           When you created the disk, all the 501 series were
25
      contained within the disk labeled 501?
```

	727	
1	A Correct.	
2	MR. KABRAWALA: We move to admit 501-B and	
3	501-C, contained within the disk labeled	
4	Government's Exhibit 501.	
5	THE COURT: And 501-C	
6	Q B is a clip found on the email, identified and	
7	admitted as 501-D, as in delta?	
8	MR. LaPINTA: Objection. I don't know what clip	
9	is.	
10	MR. KABRAWALA: All right. I will do it this	
11	way.	
12	Actually, I think 501-C is one of the entire	
13	videos it is actually the entire video, 501-C is the	
14	entire video	
15	MR. LaPINTA: Objection.	
16	Q Is 501-C the entire video?	
17	A I believe so, yes.	
18	Q And I will publish that now.	
19	(At this time a document was exhibited on	
20	courtroom screen.)	
21	Q The last entry on Government's Exhibit 501	
22	MR. LaPINTA: D or C?	
23	THE COURT: Use the letters, say delta or bravo,	
24	or say something, okay?	
25	Q 501 delta, there are a number of files on it, right?	

```
728
1
           Four attached files, yes.
      Α
2
      ()
           And is one of those files Government's Exhibit 501-C
 3
      as an entire video that is two minutes and one second
 4
      long?
5
      Α
           I believe so, yes.
6
                MR. KABRAWALA: The government moves to admit
7
      501-B and C.
8
                  (Whereupon, a pause takes place in the
9
      proceedings.)
10
                MR. LaPINTA:
                               No objection.
11
                THE COURT: 501-C and 501-D are admitted and can
12
      be played to the jury.
13
                MR. KABRAWALA: We will play 501-B first and
14
      then 501-C.
15
                 (Video played.)
16
                MR. KABRAWALA: Now I will publish
17
      Government's Exhibit 501-C, as in Charley.
18
                 (Video played.)
19
           I'm showing you what is marked as
20
      Government's Exhibit 502-A.
21
                MR. KABRAWALA: Publishing 502-A.
22
                 (At this time a document was exhibited on
23
      courtroom screen.)
24
           I see it.
25
           Was the email also found on the defendant's computer,
      Q
```

Ī			
1	this	one?	729
2	Α	Yes.	
3	Q	What is the date?	
4	Α	December 29th of 2012.	
5	Q	And that is when it was sent to the defendant?	
6	Α	Yes.	
7	Q	Who is it from?	
8	Α	It is from sorry, can you move it to the right	
9	just	a little bit, please.	
10	Q	I will just read it. It is Olena Kalichenko?	
11	Α	Yes.	
12	Q	And were there attachments to this email?	
13	Α	There were.	
14	Q	A number of attachments?	
15	Α	Yes.	
16		There were four.	
17	Q	All right, four attachments.	
18		502 is in evidence.	
19		THE COURT: How long is this one?	
20		MR. KABRAWALA: One minute, 26 seconds.	
21	Q	This is one of the videos in that attachment	
22	with	drawn.	
23		One of the videos on that email was	
24	Septe	ember 29th is what we are about to see?	
25	Α	Yes.	

730 1 Q File 3.3, that is a shortening for it. 2 (Video played.) 3 MR. KABRAWALA: Government's 503. 4 THE COURT: Why don't we stop for today. 5 As you know, we are not sitting tomorrow. We will reconvene on Monday morning at 9:30. 6 7 I like to give the jury an estimate of where we 8 are at, given the estimate given at the jury selection 9 which Judge Brown said two weeks. 10 We discussed with the lawyers, and we feel that 11 the presentation of the evidence will be complete at some 12 point on Monday. 13 What will happen is Tuesday is a holiday, so we 14 will not be sitting on Tuesday, Veterans Day, and on 15 Wednesday morning you will hear the summations and the 16 charge. 17 That is my estimate of what will happen next 18 week. 19 I will see you all Monday morning at 9:30. 20 Thank you. 21 Do not discuss the case or read anything with 22 regard to the case. 23 (Whereupon, at this time the jury leaves the 24 courtroom.) 25 THE COURT: If everyone can be seated, please.

731 1 I just want to explain to you that the one 229-A 2 was some kind of ticket email --3 MR. BODE: Does the Court have a transcript, I 4 have it here. 5 229-A, the exhibit was admitted. And the 6 witness indicates, and they talk about it, and let me 7 describe an email that appears to be from 8 joeval5@optonline.net, forwarded to himself 9 September 15th, 2012, Ticket Master -- September 15, 2012, 10 Ticket Master email. That is admitted as 229-A, as in 11 alpha. 12 THE COURT: That is what was admitted. But in 13 the binder there is a different 229-A, and I want to make 14 sure that that one is not in evidence, the one in the 15 binder. 16 MR. BODE: Yes, your Honor. 17 I know defense has the correct one at this 18 point, your Honor. And as long as we all agree what it 19 is, we will make sure that the correct one stays in our 20 binder and that we don't somehow send the other one back. 21 THE COURT: Okay. 22 MR. LaPINTA: Judge, you may have an old exhibit 23 list that was changed, I think, once or twice, and there 24 may be a newer one around. 25 THE COURT: All right.

1	
1	732 The only reason 208 to 231 was admitted as a
2	range, I think.
3	MR. BODE: 208
4	THE COURT: 208 and 231 was admitted.
5	MR. BODE: Yes.
6	THE COURT: Are there any other within that,
7	are there subdivisions like A, B, and C, or something like
8	that?
9	MR. BODE: Let me just double check, your Honor.
10	MR. KABRAWALA: The only subdivision is
11	THE COURT: 211-A.
12	MR. KABRAWALA: Yes, which is already in
13	evidence.
14	THE COURT: All right.
15	So we are on the same page then.
16	Any other issues before we break for the day?
17	MR. LATO: Not from the defense, your Honor.
18	MR. KABRAWALA: No, your Honor.
19	THE COURT: I will see you all on Monday.
20	MR. LaPINTA: 9:15, Judge?
21	THE COURT: 9:30.
22	MR. LaPINTA: 9:30. Thank you.
23	(Case on trial adjourned until 9:30 o'clock,
24	Monday, November nine, 2014.)

743 1 BY MR. KABRAWALA: 2 Q Detective Forrestal, based on your experience in 3 computer forensics, what is MOV? 4 MOV is -- usually a file extension for the video-type 5 of files in computers. 6 Q Continue reading, please. 7 You were asked? 8 Very nice ones with you and Α Great job. You 9 see you are bonding very well with . As you can see 10 my energy is flowing through on to you. Do you 11 feel it? It's coming from me, as she touches and explores 12 your breasts then to touch you below. 13 As you keep her between your legs safely, with 14 your legs up around her, putting her toy down by your 15 sweet pussy, from your belly down to your pussy. With you 16 and her securely on the couch, bed or floor, you can use 17 the cell phone camera with one hand, grabbing your tits 18 with the other, and from your eye view down to your sweet 19 pussy. You will be recording playing with your 20 sweetness below as she touches and explores you, as you 21 continue to insert the toys between your legs. This will 22 be like a French short film. We will work on a title my 23 sweeties. 24 Q Thank you. I am going to have you scroll down. 25

20	in evidence.)	
21		MR. KABRAWALA: I'm now publishing the exhibit.
22	Q [Does this appear to be some sort of promotional
23	e-mail	1?
24	A]	It is.

		101100tal Biroot/Rabi awala
1	Α	761 Tallmensshoes.com.
2	Q	When was the tallmensshoes e-mail sent?
3	Α	Sent September 27, 2012.
4	Q	Who was it sent to?
5	Α	Joeval5@optonline.net.
6	Q	Did you also find e-mails in the defendant's "sent"
7	folder of the database file?	
8	Α	I did.
9	Q	And those are in evidence, aren't they?
10	Α	They are.
11		MR. KABRAWALA: For the record, they are in
12	evide	nce as Government's Exhibit 550-A as in alpha.
13	Q	I'm showing you what has been marked as Government's
14	Exhib	it 550-A. I'm not sure if it is in, actually.
15		What is this?
16	Α	This is a disk that I created that contains all the
17	e-mai	ls that I extracted from the sent .DBX.
18		MR. KABRAWALA: Government moves to admit 550-A
19	as in alpha.

5	MR. KABRAWALA: Only 300.
6	THE COURT: Same understanding to the extent the
7	Government does not show them to the jury now, they ask
8	for the whole file during the deliberations, that it is
9	reserved under 401 and 403 objections.

5	(Whereupon, Government Exhibit 550-A was			
6	received in evidence.)			
7	BY MR. KABRAWALA:			
8	Q Showing you what has been marked as Government's			
9	Exhibit 564, do you recognize this e-mail, and if so, how?			
10	A This is an e-mail I recovered from the hard drive of			
11	the computer seized from the residence of Joseph Valerio.			
12	MR. KABRAWALA: The Government moves to admit			
13	564.			
14	MR. LATO: No objection.			
15	THE COURT: 564 is admitted.

18	MR. KABRAWALA: I'm now publishing Government's			
19	Exhibit 564.			
20	Q Can you please briefly describe this e-mail?			
21	A This is an e-mail that was sent from Joseph Valerio,			
22	an e-mail to joeval5@optonline.net. It was sent April 6,			
23	2012. It is to Angelique Davidse I may have			
24	mispronounced that name. The subject to Joseph			
25	Valerio.			

1	764 Subject: Happy big third birthday, A
2	Woaw, yeah.
3	Q Is it fair to say that it appears to be a birthday
4	greeting?
5	MR. LATO: Objection.
6	THE COURT: Sustained.
7	Q Please read the e-mail.
8	A Happy third birthday, A Love and kisses always
9	from Dadda Valeria, sister , Andre, grandma, Aunt
10	Bernadette, Uncle Mike, cousins Mario and and and the
11	rest. We love you. See you soon.
12	MR. KABRAWALA: Thank you.
13	Q In addition to the computer, computer hard drive
14	specifically, and the cell phone you already testified
15	about, did you conduct any forensic analysis on any other
16	computer or computer-related device?
17	A Yes.
18	Q What other device?
19	A I examined the SD card.
20	Q SD?
21	A Yes.
22	Q What does SD stands for?
23	A SD cards are storage data, and they are small cards
24	used in cameras, cell phones and other devices.
25	Q Showing you what has been admitted in evidence as

	Torrestar - Direct/Rabi awara	
1	765 Government's Exhibit 405.	
2	Is this an item that you conducted a forensic	
3	analysis on?	
4	A It is.	
5	Q And that's the memory card, the SD card?	
6	A Yes.	
7	Q Who is it made by?	
8	A This is made by Samsung.	
9	Q And you can take it out of the bag if you would like.	
10	How do you know that you reviewed that exhibit	
11	in particular?	
12	A I put my initials on the face of the SD card, "RFF."	
13	Q Turn it around and describe what it says.	
14	A This is a request for a set of glasses. At the end	
15	it says	
16	MR. LAPINTA: Objection.	
17	MR. KABRAWALA: I'll take it and put it in the	
18	overhead.	
19	MR. LAPINTA: I object to any reference what is

6	MR. KABRAWALA: Thank you.		
7	Your Honor, may we take a quick break?		
8	THE COURT: How long do you need, a minute or

14	MR. KABRAWALA: 30 minutes, 45 minutes.

1	768 Exhibit 505.
2	A Yes.
3	Q Do you recognize what that disk is?
4	A Yes.
5	Q What is it?
6	A A disk that I created that contains a PowerPoint
7	presentation that I made for presentation here in court.
8	Q Did you make that presentation to assist us and the
9	jury in understanding your testimony?
10	A Yes.
11	Q Does it contain images that you took from the memory
12	card that you just testified about, Government's
13	Exhibit 405?
14	A Yes.
15	Q And are the exhibits, Government's Exhibit 507
16	through 539, contained within the disk that you just
17	testified about?
18	A Yes.
19	MR. KABRAWALA: The Government moves to admit
20	Exhibits 507 through 539, as well as 505.
21	MR. LATO: One moment, please.
22	No objection.
23	THE COURT: 505, 507 through 539, are all
24	admitted.
25	(Whereupon, Government Exhibits 505 and 507

	Forrestal - Direct/Kabrawala
1	769 through 539 were received in evidence.)
2	MR. KABRAWALA: I will now show you everything
3	just using the screen.
4	THE WITNESS: All right.
5	MR. KABRAWALA: I'm publishing Government's
6	Exhibit 507 withdrawn.
7	I'll actually take it down.
8	BY MR. KABRAWALA:
9	Q What, if anything, did you do once you received the
10	SD card, memory card?
11	A I ran a forensic analysis on the card.
12	Q Walk us through that, please.
13	A Somewhat similar to the other ways we examine digital
14	media. In this case we take the SD card and put it in a
15	tool called it is called a write block. This one is a
16	Digital Intelligence card reader write block. We put it
17	in there and apply the same process creating an image, and
18	we add it to our forensic job that we're doing.
19	Q Did you create a forensic image of the memory card?
20	A Yes, I did.
21	Q And it did an exact bit-by-bit copy of that memory
22	card, Government's Exhibit 402?
23	A It did.
24	Q Did you recover any images on that memory card?
25	A I did.

ı		
1	770 Q How did you go about recovering imaging from	
2	Government's Exhibit 402?	
3	A The forensic software EnCase, E-N-C-A-S-E,	
4	automatically displays some images that are readily	
5	apparent on the SD card.	
6	We would then recover the videos. There were	
7	videos on this particular SD card, and we would attempt to	
8	review them to see whether there were images within that	
9	we could recover, directly visible.	
10	Q So you used software called EnCase?	
11	A Yes.	
12	Q Using that software, what, if anything, did you find?	
13	A I did. I found a number of images that had been	
14	deleted that contained videos, that when you played the	
15	videos there was a frame of the picture left.	
16	Q You found videos but they were deleted, and all you	
17	could see is a still frame of the video?	
18	A Correct.	
19	Q Was that the same with respect to still images, that	
20	is, photographs?	
21	A I recovered a still image from the SD card that was	
22	located on it, yes.	
23	Q And I think you testified about your experience using	
24	EnCase earlier last week; is that true?	
25	A True.	

771 1 Q Now, I'm going to show you what has been admitted 2 into evidence as Government's Exhibit 507. 3 What are we looking at here? 4 Please describe first -- generally, what are we 5 looking at? 6 Α This is a screen shot that I took of what was being 7 displayed on my monitor as I conducted a forensic analysis 8 of the four gigabyte SD card. 9 Q I see, generally speaking, two major columns. There 10 is a column here on the left-hand side of the page with 11 home, entries, and what appear to be a book. 12 What is that? 13 The column below it, it's on the home selection. Α 14 What that displays is the file directory for the volume 15 you are looking at, or in this particular case the SD 16 card. 17 Q What is a file directory? 18 The organizational structure for this particular Α 19 operating system. Just a particular way of organizing 20 They put stuff in places so they know where to 21 find it. 22 And in this particular case under volume C, 23 which is the SD card, they created a number of directories 24 to put information in. 25 Q As part of that information, did you say you

	101.00241 51.0027, Nasi awa ia	
1	772 recovered some images?	
2	What are we looking at on the right-hand side	
3	column where it says "name"?	
4	A This is the actual data that is contained in those	
5	different file directories. It shows you not only the	
6	directory name, but it also shows you the files that were	
7	either in there or that it was able to see immediately	
8	that was deleted.	
9	Q All right. So I see that there appears to be it	
10	says, SD 2 space 4GB, Samsung?	
11	A Yes.	
12	Q Below that it C. What is that?	
13	A The volume name or drive name it gave this particular	
14	unit, in this case C.	
15	Q There appears to be a folder called DCIM.	
16	A Yes.	
17	Q Within that there is a subfolder called 100 photo?	
18	A Correct.	
19	Q Below that on line 5 there appears to be something	
20	called cam_005.jpg?	
21	A Correct.	
22	Q Describe what that file is.	
23	A That file is a picture, a still picture, that was	
24	recovered from the SD card.	
25	Q What does JPG stand for?	

i		
1	Α	J peg, or still picture file, as opposed to a video.
2	Q	I see there is a column named "is deleted."
3		Next to that is "last accessed."
4		What date was this cam_005.jpg image last
5	acce	ssed?
6	Α	January 19, 2011.
7	Q	1/19/2011?
8	Α	Correct.
9	Q	What date was that file created?
10	Α	It was created January 19, 2011.
11	Q	What date was that file last written?
12	Α	January 19, 2011.
13	Q	What does "last written" mean?
14	Α	Last written was the last time that the file was
15	actu	ally written to the disk, or SD card in this
16	part	icular case.
17	Q	I see in line 12 there is video.tmp. It says:
18	Desc	ribe, file, deleted, archive?
19	Α	Yes.
20	Q	Then it says "is deleted," and there is a dot next to
21	it?	
22	Α	Yes.
23	Q	Last accessed July 27, 2013?
24	Α	Correct.
25	Q	Do you see that?

_		Torrestar - Direct/Rabi awara
1	Α	774 I do.
2	Q	What does that mean to you, if anything?
3	Α	That means that that particular video.tmp was
4	prol	bably deleted on 7/27/2013, the last time it was
5	acc	essed.
6	Q	Video.tmp, is that some sort of file?
7	Α	It is.
8	Q	What kind of file is it?
9	Α	A temporary file created by the Windows file system.
10	Q	That was deleted sometime on July 27, 2013?
11	Α	Correct.
12	Q	Is there any way for a file that is on the SD card to
13	sim	ply delete itself?
14	Α	No.
15	Q	What is required to delete an image or data off an SD
16	car	d?
17	Α	User input of some fashion.
18	Q	User input?
19	Α	Yes.
20	Q	What do you mean?
21	Α	You have to go to a keyboard and put the SD card
22	act	ually in some device. You would have to then use a
23	key	board and the computer to delete it.
24	Q	So it wouldn't spontaneously delete itself?
25	Α	No.

1		
1	Q	775 I'll show you what has been admitted as Government's
2	Exhibit 511.	
3		Do you see that?
4	Α	I do.
5	Q	What is the file name of that file?
6	Α	The file name is cam_0005.jpg.
7	Q	Was that the file you just testified about?
8	Α	Yes.
9	Q	The exact file?
10	Α	Yes.
11	Q	When was that file created?
12	Α	It was created on January 19, 2011.
13	Q	Now, take a look at that photograph.
14		I'm sorry. What time, please?
15	Α	The time was 6:20 p.m.
16	Q	6:20 p.m.?
17	Α	Correct.
18	Q	Do you recognize Government's Exhibit 332 in that
19	imag	ge?
20	Α	I do.
21	Q	Can you describe where you see Government's
22	Exhi	bit 322?
23		Is this a Spiderman ball?
24	Α	It is.
25	Q	Where do you see it?

,	Torrostar Britot/Rabi awara
1	776 A Right next to the child in the image.
2	Q Do you see what appear to be Government's
3	Exhibit 334, 334-A and 334-B in the image itself?
4	A I see one of the pillows, where the head is resting
5	on it, and it shows partially the symbol on there.
6	Q Now, I'm going to show you what's been marked as
7	Government's Exhibit 513.
8	Is this information that relates to
9	cam_0005.jpg, the image that I just showed?
10	A Yes.
11	Q This is the same structure as was described before?
12	A It is.
13	Q Image dated January 19, 2011.
14	Now, there's a box on the bottom of this
15	exhibit.
16	What is this information?
17	Can you please describe this information?
18	A It is a screen shot of me depicting the data that is
19	contained within the file, in this particular case the
20	metadata.
21	Q What is metadata?
22	A Metadata is data about data, an administrative part
23	of the file structure that records certain information
24	about the file. In this particular case it is a picture,
25	and it went out, recorded administratively in the

background. As you see, it was made on a Samsung electronics gives the model number, in this case
electronics gives the model number, in this case
HMX100, and then it imprints a date and time stamp very
often.
Q Can you tell what, if any, digital device was used to
create the cam_0005.jpg file?
A Samsung Electronics, HMX100.
Q Did you recover any other files other than camera
files withdrawn.
Did you recover any files other than still image
J peg files from Government's Exhibit 402?
A I did.
Q What kind of files?
A I recovered frames from within video files that were
deleted from the SD card.
Q Can you describe what that is, a frame?
A A frame. Actually, a video is made up of a series of
frames. It's seamless to you. You see it as a video.
When you play the file, it has these frames.
When it is deleted, sometimes frames remain
behind of the file when it is not corrupted.
Q When a user deletes something off of a computer,
let's say an SD card, is everything deleted from that SD
card?
A No.

	TOTTESCAT - DITECC/RADIAWATA
1	778 MR. LAPINTA: Objection.
2	THE COURT: Overruled.
3	You may answer.
4	A No.
5	Q Why is that?
6	A Actually, the process of deleting something from any
7	kind of digital media at all, you are not making it really
8	disappear. It administratively releases that area that
9	used to occupy whatever digital media piece it is to the
10	hard drive. It gives you, A, opportunity to recover it,
11	and then, B, releases that area to be overwritten by
12	another file or some other media data.
13	Q And this is not overwritten?
14	A No.
15	Q What happened if the data is not overwritten?
16	A Then it can be recovered.
17	Q It can be recovered?
18	A Recovered. Sometimes in full; sometimes just
19	partially.
20	Q Showing you what has been admitted as Government's
21	Exhibit 508.
22	What is this?
23	A This is a screen shot that I took of one of the
24	frames contained within the video HDV_00
25	Q Let me describe it. HDV_0043.MP4.

		Torrestar - Direct/Rabiawara
1		779 When was it created?
2	Α	That file was created on September 10, 2010, at
3	3:39	p.m.
4	Q	Showing you what has been admitted as Government 509.
5		What is this?
6	Α	This is a screen shot of one of the frames contained
7	with	in the file HDV_0044.MP4.
8	Q	Just showing you very briefly Government's
9	Exhi	bit 509.
10		Do you see Government's Exhibit 334-B in that
11	imag	e?
12	Α	I see one of the pillows with that symbol on it, yes.
13	Q	Showing Government's Exhibit 510.
14		Is this a deleted video file named HDV_0045.MP4?
15	Α	Yes.
16	Q	At 3:47 p.m. it was created?
17	Α	It is.
18	Q	Again, do you see Government's Exhibit 334-B, or what
19	appe	ears to be the same color?
20	Α	I see cushions that are of the same color, yes.
21	Q	You were at the defendant's house on January 28,
22	2014	?
23	Α	Yes.
24	Q	Do you recognize that sofa?
25	Α	Yes.

		Forrestal - Direct/Kabrawala
1	Q	780 Where do you recognize that from?
2	Α	That was in the basement of Joseph Valerio's
3	resi	dence.
4	Q	Showing Government's Exhibit 515.
5	-	What is the file name and when was it created?
6	Α	File name is HDV_0048.MP4. The file was created on
7		uary 19, 2011, at 6:21 p.m.
8	Q	Showing Government's Exhibit 516.
9	Q.	Is the file name HDV_549.MP4?
10	Α	It is.
11	Q	Created January 19, 2011, at 6:25 p.m.?
12	A	It is.
13	Q	Showing Government's Exhibit 518.
14		File name is HDV_0053.MP4, created January 19,
15	2011	, at 6:53 p.m.?
16	Α	Correct.
17	Q	Showing 519.
18		What kind of file was it?
19	Α	This is HDV_00555, created January 19, 2011, at
20	6:59	p.m.
21	Q	Holding up Government's Exhibit 343, an article of
22	clot	hing, and Government's Exhibit 336, a pom-pom.
23		Do you see these two items depicted in the image
24	that	you just described?
25	Α	I do.

ı	
1	781 Q Showing you Government's Exhibit 520. It looks like
2	we've seen this image before.
3	Can you explain the circumstances under which
4	you found this image again?
5	A One of the things we do while doing the forensic
6	analysis, we use a function in the forensic software
7	called image or file recovery, and we direct it to recover
8	anything it recognizes as an image from the hard drive
9	that wasn't previously seen.
10	Q So using this other method, you recovered additional
11	images?
12	A I did.
13	Q And some of them were duplicates?
14	A Correct.
15	Q Why did you use two methods to recover images, one
16	method being EnCase and the other method what you just
17	described? Why two things?
18	A That is part of the EnCase forensics suite of tools.
19	If you want to be complete, one tool will not get it when
20	the other tool will. And the other we apply.
21	THE COURT: Okay. We'll take the morning break
22	now.
23	(Whereupon, at this time the jury exits the
24	courtroom.)
25	(Whereupon, a recess was taken.)

3	(Whereupon, the jury at this time enters the

6	BY MR. KABRAWALA:	
7	Q Before the break you testified about a number of	
8	files that were recovered, HDV files.	
9	A Yes.	
10	Q What were those files again?	
11	A Video files.	
12	Q Were those stills part of the video files?	
13	A The screen shots, yes.	
14	Q How do you know that those stills were part of	
15	deleted videos?	
16	A They were actually displayed as deleted in my file	
17	directory tool in the EnCase, and I played the videos,	
18	recovered them, and saw the frames displayed.	
19	Q So, for example, if I were to show you Government's	
20	Exhibit 507 I believe you testified about this earlier.	
21	In the box where it is deleted, "is deleted," there's a	
22	little dot there.	
23	A Yes.	
24	Q That's how you know it was deleted?	
25	A That and the little displayed symbol in red by the	

783 file name, a circle with a cross through it.
Q Showing you another image, Government's Exhibit 524.
Can you describe first of all, in
Government's Exhibit 524, can you describe how you
recovered that image?
A That was recovered using the EnCase forensic tools
recovered files, and I directed it to recover anything it
could see on the SD that had the characteristics of a J
peg or image. It recovered it from the unallocated space
of the SD card.
Q Can you explain, please, what unallocated space is?
A Almost just like it says: that area of the digital
piece of storage media that isn't accounted for. It may
contain data, but it is not specifically saved there or
archived there.
Q Showing Exhibit 525.
Is this another such image in an unallocated
space?
A Yes.
MR. LAPINTA: What is that?
MR. KABRAWALA: 525.
Q This image also was on the SD card that you examined,
correct?
A Yes.
Q Was this image also recovered in the unallocated

ı		Torrestar Britot/Rabiawara
1	spac	e?
2	Α	It was.
3		THE COURT: What number are you referring to?
4		MR. KABRAWALA: Thank you for the reminder.
5		526.
6	Q	Now I'm showing you 527. It appears to be a redacted
7	port	ion of 526; is that correct?
8	Α	Yes.
9	Q	Again, do you see the pattern in that image, 526, do
10	you	see the pattern depicted in Government's Exhibit 334?
11	Α	Yes.
12	Q	Showing you 528, Government's Exhibit 528.
13		Was this also recovered from the SD card?
14	Α	It was.
15	Q	Can you briefly describe this image, please?
16	Α	An image of a child, a child wearing a wig, and the
17	child is naked, standing, looking out.	
18	Q	All right. I'm just going to show you 529, which is
19	a re	dacted version of 528.
20		Is that fair to say?
21	Α	Yes.
22	Q	Now, do you recognize just remember that picture,
23	okay	?
24	Α	Yes.
25	Q	Do you recognize the sofa or the seat, the black seat

		101100101 2110017, Nabi awa 14
1	that	785 is depicted in Government's Exhibit 528?
2	Α	Yes.
3	Q	I will show it to you one more time.
4		I'm showing you right now Government's
5	Exhil	oit 307, and there appears to be in the foreground
6	some	sort of black seat. Is it fair to say?
7	Α	Yes, it is.
8	Q	Showing you again Government's Exhibit 528.
9		Showing you Government's Exhibit 530.
10		Was this image also on the SD card?
11	Α	It was.
12	Q	Showing you 535.
13		Was this image also on the SD card?
14	Α	It was.
15	Q	Were these was this unallocated image part of the
16	vide	o or a still image before it was deleted?
17	Α	I'm not sure.
18	Q	How come you are not sure?
19	Α	It doesn't attach it to any particular file. No one
20	knows	s. It's on the unallocated space because that space
21	has I	peen released to the operating system and overwritten.
22	So i	t wasn't assigned anywhere.
23	Q	Is it fair to say it's a fragment of data on the SD
24	card'	?
25	Α	It wouldn't be a fragment of data. It is complete

,	Torrestar Britot/Rabi awara
1	786 enough to display as an image, so therefore it would not
2	be a fragment. It would be able to show the files
3	attached to it.
4	Q Showing you Government's Exhibit 539.
5	Can you describe this image, please?
6	A This is an image of a child sitting on the couch that
7	we previously discussed. You can see, I think it is a
8	Nerf gun, a toy gun off to the side.
9	Looks like she is wearing a piece of a costume.
10	Q Showing you what has been introduced into evidence as
11	Government's Exhibit 533.
12	Do you see Government's Exhibit 533 in the image
13	that is being displayed?
14	A Yes.
15	Q Where do you see it in the photograph?
16	A Off to her side on the couch, laying there.
17	Q Showing you Government's Exhibit 514.
18	What is this an image of?
19	A This is a slide I created. I took screen shots while
20	using a forensic tool to examine the metadata one I
21	created using the SD card versus one I created using a
22	camera on a lab SD card.
23	Q Which camera did you use?
24	A I used the Samsung video camera I recovered from the
25	residence of Joseph Valerio.

1	787 Q Showing you Government's Exhibit 404.
2	Is this the camera you used?
3	A It is.
4	Q Walk us through what you are describing. Tell us
5	what you did with that camera.
6	A Essentially we took one of the video files that we
7	recovered that was deleted, and we examined it on a lab
8	forensic computer using a tool called Exif, a tool. That
9	is a forensic tool, a little program you can run to
10	examine in further detail any metadata assigned to a
11	particular file.
12	I used that tool against one of the video files
13	I recovered. This one is HDV_0053.MP4.
14	Q So you have a file that you extracted from the SD
15	filed and that was called HDV 0043?
16	A 0053.
17	Q I'm sorry. 0053?
18	A Correct.
19	Q And you took a separate SD card?
20	A We took an SD card that we have in our office which
21	we use for examination purposes. I wiped it completely
22	clean to make sure there was no data previously that
23	may have been previously on it. I then used that SD card
24	in this camera and essentially took a video so I can
25	examine it and compare it to the one of the deleted file.

1	
1	788 Q So when you took one of your SD cards from your
2	police lab and put it in that camera you are holding
3	A Correct.
4	Q what, if anything, did that reveal?
5	A Using the Exif tool that we discussed before, it
6	displayed that videos were made with the Samsung camera.
7	Didn't display a model, but all the characteristics of
8	that video file were exactly the same.
9	Q Essentially you took a test image; is that fair to
10	say?
11	A Correct.
12	Q And the data from the test image matched the data on
13	the file that was recovered from the SD card seized from
14	the defendant's house?
15	A Correct.
16	Q Now, there's been some testimony about dates of
17	creation, I believe September 10, 2010, and January 19,
18	2011, the two dates that you testified about on which
19	various images or videos were created?
20	A Yes.
21	Q How do you know that those dates are accurate?
22	A I tested the camera, examined the camera, powered it
23	up, examined the date that was in the camera.
24	Q Walk us through what you did and when you did it.
25	A Took the camera out of our evidence room, took the

		Total Direct Auditum
1	powe	789 r supplies we seized with the camera, plugged it in
2	and ·	then powered the camera.
3		Then basically opened the display screen, used
4	the i	menu to get to the date and time function, and saw it
5	was o	creating the same date. It matched.
6	Q	What date did you undertake that activity?
7	Α	February 26, 2014.
8	Q	What was the date on the camera when you turned it
9	on?	
10	Α	February 26, 2014.
11	Q	Did you ever double-check that?
12	Α	Yes, I did.
13	Q	When did you do that?
14	Α	Last Wednesday.
15	Q	When you turned the camera on, did it reflect the
16	date	of last Wednesday?
17	Α	Yes.
18	Q	So you checked the date twice?
19	Α	I did.
20	Q	And it was the same date both times?
21	Α	It was.
22		MR. KABRAWALA: One moment, Judge.
23		I have nothing further at this time, Judge.
24		Thank you.
25		THE COURT: Cross-examination?

20	isn'	t that right?
21	Α	I'm trained not certification. I have a
22	cert	rificate in the software.
23	Q	My question is, you are not a certified user of that
24	soft	ware, correct?
25	Α	Correct.

		101103011 01033724111104
1	Q	Yes or no?
2	Α	I'm authorized to use the software. I don't have the
3	cert	ification.
4	Q	I didn't ask you that.
5		I asked you: Are you certified to use that
6	soft	ware?
7	Α	You are using the term a little out of I'm trying
8	to a	nswer you properly.
9	Q	If you can't answer it, let me know.
10	Α	Not the way you asked it.
11	Q	Did you complete a certification program with the
12	EnCa	se manufacturer?
13	Α	Yes.
14	Q	Did you obtain a certification from them when you
15	took	that program?
16	Α	I attained a certificate of training, not the
17	cert	ification.
18	Q	My question to you: The certification. Are you a
19	cert	ified EnCase evaluator?
20	Α	No.
21	Q	You didn't take the certification program; isn't that
22	righ	t?
23	Α	No, I didn't.
24	Q	In fact, the Suffolk County Police Department offered
25	to p	ay for the initial class to obtain the certification;

,		101103141 010337241 11114
1	isn'	805 t that right?
2	Α	No.
3	Q	Okay. You didn't take it because it cost too much
4	mone	y?
5	Α	No, that's not why.
6	Q	You didn't take it because you didn't feel it was
7	impo	rtant?
8	Α	Partially, yes.
9	Q	Okay. But nevertheless they offered this
10	cert [.]	ification program that you did not take; is that
11	right	t?
12	Α	Correct.
13	Q	You obtained a cell phone from Mr. Valerio's home,
14	right	t?
15	Α	Correct.
16	Q	You made a reference to it minutes ago in your direct
17	exam.	ination. That's the phone, right?
18	Α	Yes.
19	Q	Who was the carrier of that phone?
20	Α	T-Mobile.
21	Q	And you are familiar and experienced with obtaining
22	reco	rds from telephone companies, aren't you?
23	Α	I am.
24	Q	And you've obtained cellular records from carriers
25	many	times in the past in your duties as an investigator,

		Torrestar - Cross/Larrinta
1	corr	806 ect?
2	Α	Correct.
3	Q	The number involved here is (970) 310-8942, correct?
4	Α	Correct.
5	Q	You did not obtain any cell records from the carrier
6	in t	his investigation, correct?
7	Α	I didn't personally obtain, no.
8	Q	The only records that you received from the cell
9	phone was what you obtained using your forensic software,	
10	corr	ect?
11	Α	Correct.
12	Q	Information that is kept from the carrier of the cell
13	phon	e would provide for specific calls made from and to
14	that	phone, correct?
15	Α	They could, yes.
16	Q	Were you able to obtain all of the calls from and to
17	that	phone from your forensic evaluation of that phone?
18	Α	I don't believe so.
19	Q	Is it fair to say that you were limited in what calls
20	were	placed out of that phone and what calls were placed
21	into	that phone from your forensic evaluation? Correct?
22	Α	It appears so, yes.
23	Q	It appears so or it is so?
24	Α	It's hard to tell. The data wasn't there, so I
25	wasn	't able to recover it. I don't know what I was

	101100141 010007 241 11114
1	807 missing.
2	Q But you were able to subpoena that information from
3	the provider, weren't you?
4	A That wouldn't be my responsibility, to subpoena the
5	information from the provider. It would depend on what
6	the data was.
7	Q Well, you have been involved in numerous
8	investigations involving cell phones, right?
9	A Correct.
10	Q And in some of those investigations, if not most, you
11	obtained subpoenas to retrieve data from the telephone
12	carriers, haven't you?
13	A If there is data available, yes.
14	Q Well, did you make an inquiry in this case as to
15	whether there was data available on that cell phone from
16	the carrier?
17	A I'm sorry?
18	Q From the carrier?
19	A From the carrier, no, not me. No.
20	Q So you have never looked at data provided to you from
21	the carrier regarding the cell phone, right?
22	A Not only the carrier
23	Q Just the carrier data?
24	A Not the only calls available on the unit.
25	Q I didn't ask you if those are the only calls.

		808
1		I asked you if you received any data from the
2	actual	phone carrier that provided a service to this
3	phone.	
4	A I	didn't personally, no.

1	Q	809 You viewed records from this carrier before in other
2	case	s, right?
3	Α	Yes.
4	Q	And you read the records that you obtained from this
5	part	icular carrier before; is that correct?
6	Α	Yes.
7	Q	And some of that information would include the dates
8	of p	hone calls; is that correct?
9	Α	Correct.
10	Q	And it would include the times of the phone calls; is
11	that	correct?
12	Α	Correct.
13	Q	And it would include the number that was either
14	rece	ived or dialed out; is that correct?
15	Α	Correct.
16	Q	And also the duration of the call; is that correct?
17	Α	Correct.
18	Q	And when you obtain a phone number on a data on a
19	reco	rd from a provider, you could research who the person
20	is t	hat holds that phone number; is that correct?
21	Α	Potentially, yes.
22	Q	And none of that investigation was done in this case;
23	is t	hat correct?
24	Α	That is not my portion of the investigation.
25	Q	As far as you are concerned, did you perform this

		101103ta1 01003/Lai iiita
1	inves	810 stigation with this data from the cell provider?
2	Α	I provided
3	Q	Yes or no?
4	Α	I can't answer that yes or no.
5	Q	Did you ask for any data from the cell phone provider
6	with	regard to calls to and from that cell phone?
7	Α	No.
8	Q	Did you direct anyone that you were working with to
9	obta ⁻	in that data
10	Α	No.
11	Q	from the cell phone carrier?
12	Α	No.
13	Q	And are there other computer experts, cell phone
14	expe	rts besides you that were involved in this
15	inves	stigation?
16	Α	No.
17	Q	There were no emailed data on that phone that you
18	obta ⁻	ined; is that right?
19	Α	Right.
20	Q	And there was text messages in the form of telephone
21	text	messages with the provider; is that correct?
22	Α	Correct.
23	Q	And also text messages from a service called Viber;
24	is th	nat correct?
25	Α	Correct.

,		101103141 01033/141 11114
1	Q	Detective Forrestal, you had occasion to make a
2	prin	tout of the Viber text messages involved in that
3	phon	e; is that right?
4	Α	Some of them, yes.
5	Q	And would you agree that some of those Viber text
6	mess	ages found on that phone are relevant to this case?
7	Α	They are.
8	Q	And they in that extraction report that you
9	deve	loped on that LG My Touch phone, reveals the source of
10	wher	e those texts come from, right?
11	Α	Yes.
12	Q	And in the form of phone numbers?
13	Α	In the form of what appears to be a phone number,
14	yes.	
15	Q	And you also have a time stamp; is that correct?
16	Α	Yes.
17	Q	Date stamp, right?
18	Α	Yes.
19	Q	And a body of the message, correct?
20	Α	Yes.
21	Q	You reviewed that extraction report?
22	Α	Yes.
23	Q	And are you familiar with that extraction report?
24	Α	I am.
25	Q	And are you aware that some of those messages were

	TOTTEStat-Closs/Larinta
1	from a person by the name of Helena; is that correct?
2	A Correct.
3	Q And from your review of that Viber data text
4	information, did you come to the understanding that Helena
5	was using the word "negotiate" with Mr. Valerio on
6	numerous text messages; is that correct?
7	A Correct.
8	Q Do you recall seeing the word negotiate from a source
9	that you know to be Helena's source?
10	A I saw it in the text messages, yes.
11	Q That very word was used a number of times; is that
12	correct?
13	A Yes, it was.
14	Q Three to be exact; is that correct?
15	A Yes.
16	Q And from reading that as a trained investigator, did
17	you come to the conclusion that Olena Kalichenko was
18	trying to extort Mr. Valerio?
19	A It wouldn't be my place to decide if he was being
20	extorted or not.
21	Q From what you read as a trained officer, a trained
22	officer, is it your opinion that Helena, by using the word
23	negotiate, was extorting Mr. Valerio?
24	MR. KABRAWALA: Objection.
25	THE COURT: Sustained.

i	101100101 010007 201 11110
1	813 Q She held over Mr. Valerio's head her ability to
2	contact authorities; is that correct?
3	A It is not my place to interpret that.
4	Q Okay.
5	Do you recall a message on 12/3/2013, when the
6	body of the message read, you know, you really damn,
7	you could have negotiated with me before the criminal case
8	against you was being opened.
9	Do you remember that?
10	A I do remember.
11	Q 12/9/13, do you recall the message from Helena, I see
12	you really don't want to recognize your mistakes and
13	negotiate. Let's play hard ball then.
14	Do you remember that message?
15	A I do.
16	Q And there are other messages that have the word
17	"negotiate" as well; is that correct?
18	A Correct.
19	Q Let's turn your attention to the desktop computer
20	that you did an investigation of the VVTV computer. You
21	recall that?
22	A Yes.
23	Q And that computer was found in an upstairs office,
24	right?
25	A Yes.

		TOTTES CAT-CTOSS/ LAFTITCA
1	Q	And when you brought that computer to your police 814
2	offic	ce, you examined the operating program on that
3	comp	uter, didn't you?
4	Α	The operating system?
5	Q	Yes.
6	Α	Yes.
7	Q	And you used TABLU hardware write block?
8	Α	Yes.
9	Q	And the EnCase program as well?
10	Α	Yes.
11	Q	And you found that the operating system was an older
12	type	system, right? Would you agree with that?
13	Α	Yes.
14	Q	Tell the jury what operating system you found.
15	Α	Windows Millennium.
16	Q	Do you know the year that Windows Millennium was last
17	produ	uced?
18	Α	No, not specifically.
19	Q	Would you agree with me it was over five years ago?
20	Α	Agreed.
21	Q	Over seven years ago?
22	Α	Yes.
23	Q	Close to ten years ago; is that correct?
24	Α	I don't know specifically. But an older system.
25	Q	Of say in terms of modern technology, it wasn't the

ı	
1	815 most modern type of operating system out there; is that
2	correct?
3	A That would be fair.
4	Q Would you go as far as saying it was an ancient
5	system being used?
6	A No, not necessarily.
7	Q Well, the last time that that program was produced,
8	manufactured, technology has advanced considerably, would
9	you agree?
10	A Yes.
11	Q Video filming, recording, has advanced significantly;
12	is that correct? Yes or no?
13	A No. I wouldn't agree with that.
14	Q Well, isn't it true that that particular operating
15	program would have difficulty playing videos that were
16	part of this case a year ago when this case started?
17	A No.
18	Q It would not?
19	A It wouldn't have a problem.
20	Q It wouldn't have a problem?
21	A No.
22	Q So it is your expert opinion that that system, over
23	seven years old, or around seven years old, would not have
24	a problem playing the videos that we have seen here
25	involving child pornography; is that your testimony?

i	101100ta1 0100072a1 111ta
1	A Yes, it is.
2	Q Well, you had the occasion to look at these videos;
3	is that right?
4	A Yes.
5	Q The duration of these videos?
6	A Yes.
7	Q And would you say the longer a video is, the more
8	problematic it would be to showing on that old program?
9	A Not necessarily.
10	Q And the density of the video by the way, what is
11	density of the video?
12	A I don't know what you are talking about.
13	Q Okay.
14	The way the video is recorded, does that dictate
15	if it is playable on an operating system?
16	A No, not necessarily, it depends on a large number of
17	factors, the memory installed, the hard drive, the speed
18	of the hard drive.
19	Q What was the memory installed on his hard drive?
20	A I don't recall.
21	Q If I told you it was 20 megabit megahertz, is that
22	accurate?
23	A I don't think so the way you stated. It is 2.0
24	megahertz.
25	Q Do you have anything written down about how big an

		1011 esta1-c10ss/Lar IIIta
1	oper	rating system it is?
2	Α	It is not the size of the operating system. The
3	oper	rating system is the operating system.
4	Q	The size of the hard drive?
5	Α	It is
6	Q	How big is it?
7	Α	20 gigabit.
8	Q	Is that big in your opinion?
9	Α	No, small.
10	Q	And the size of the hard drive, the more problematic
11	it v	would be to play the video?
12	Α	Not necessarily.
13	Q	It could be?
14	Α	It could be, but not necessarily.
15	Q	Now, when you evaluated this computer you found child
16	porr	nography on it; is that correct?
17	Α	I did.
18	Q	And that child pornography was found in what you
19	call	led to be an inbox; is that right?
20	Α	Right.
21	Q	If child pornography videos were played on that
22	comp	outer, wouldn't they have been found in other places
23	besi	ides the inbox?
24	Α	They should have been, yes.
25	Q	Tell the jury where else they should have been found,

1		
1	if they were played.	8
2	A They may have may have been observed in a media	
3	file. The program that is actually running the video,	
4	there may be elements of it in unallocated places, and the	;
5	reference where it was filed, if it was filed, and if it	
6	was archived.	
7	Q Anyplace else?	
8	A Not off the tip of my tongue.	
9	Q Did you find any of those pornography videos in any	
10	media files?	
11	A No.	
12	Q Did you find any pornography graphic videos in	
13	unallocated space on the computer?	
14	A No, I didn't.	
15	Q Did you find any pornographic videos, child	
16	pornography, on any temporary files?	
17	A No.	
18	Q Is it fair to say that in light of the fact that	
19	since there are no other sources of that video besides	
20	that inbox, that there is a great likelihood that those	
21	videos were never played on that computer, correct?	
22	A On that computer?	
23	Q Yes.	
24	A Just on that computer, yes.	
25	Q So as you sit here today, in your vast training as a	

	TOTTES LATE OF USS/LAF TITLA	
1	819 computer expert you can't tell this jury with any degree	
2	of certainty that those videos of child pornography were	
3	played on that particular computer; is that correct?	
4	A On that particular computer?	
5	Q Correct.	
6	A Right.	
7	Q Just because something was in an inbox doesn't mean	
8	it was watched on that computer, correct?	
9	A We have reference to it being watched, so it was	
10	watched somewhere.	
11	Q Viewed, viewed on that computer.	
12	A I have no evidence of it being viewed on that	
13	computer.	
14	Q And because of the inbox, it means it was sent to an	
15	email address that was used by that computer; is that	
16	correct?	
17	A Used by the recipient of the email.	
18	Q On that computer, correct?	
19	A Correct.	
20	Q Let me turn your attention to the four FD storage	
21	cards evaluation that you did on that. Do you recall that	
22	testimony before?	
23	A Yes.	
24	Q Three of the storage cards did not contain child	
25	pornography; is that correct?	

		Forrestal-Cross/LaPinta
1	Α	Yes.
2	Q	The card you did look at, if it contained, if I say
3	con-	traband, is that acceptable?
4	Α	Yes.
5	Q	And contraband was found on the Samsung for the SD
6	dev	ice; is that correct?
7	Α	Yes.
8	Q	And you developed a report with regard to your
9	fin	dings of that particular storage card; is that right?
10	Α	I did.
11	Q	You wrote that report?
12	Α	I did.
13	Q	You wrote it after you were finished with your
14	inve	estigation of this particular device?
15	Α	Up to that point, yes.
16	Q	And did you look it over?
17	Α	Yes, I did.
18	Q	And is it accurate?
19	Α	I made a few typos on it.
20	Q	Let's talk about the mistakes. There are mistakes on
21	tho	se reports?
22	Α	Typos.
23	Q	Typos are mistakes or not?
24	Α	Typing mistakes, yes.
25	Q	You identified a file well, in the body of your

		101100141 010007241 11114
1	repo	821 rt you indicate that the cam bottom slash 0005.JPG
2	file	was used by you; is that right?
3	Α	Yes.
4	Q	And I will refer to it as the JPG file; is that okay?
5	Α	Yes, sure.
6	Q	You said you found that JPG file; is that correct?
7	Α	Yes.
8	Q	And that you determined that that file was recorded
9	on 1	/19/11; is that correct?
10	Α	Correct.
11	Q	And the time of that file being recorded in the body
12	of y	our report, you have it as 0620 hours; is that right?
13	Α	Yes.
14	Q	Is 0620 hours military time; is that correct?
15	Α	Generally, yes.
16	Q	You are familiar with military time because you are a
17	veteran, are you?	
18	Α	Yes.
19	Q	And tell the jury, what is 0620 hours?
20	Α	0620 would be 6:20 a.m. in the morning.
21	Q	And in your report that you wrote, you have 0620
22	hour	s in the body of the report; is that correct?
23	Α	I don't recall. I have to see what I put afterward,
24	if I	put p.m. or not.
25	Q	Do you have your report in front of you?

	Forrestal-Cross/LaPinta
Α	Not in front of me.
	(Counsel confer.)
Q	I show you this document. Does it help you refresh
your	recollection as to the time you put down on your
repo	rt?
Α	Yes.
Q	And look at the top portion of the report, sir.
Α	I see it.
Q	0kay.
	Do you reference that JPG video as being
reco	rded at 0620 hours?
Α	0620 p.m., sir.
Q	Look at I, sir. Not 1, but I.
Α	Yes. I see it.
Q	Do you refer to it as 0620 hours, yes or no?
Α	I did, yes.
Q	When he described in more detail that file, you make
refe	rence to it once again, don't you?
Α	Yes.
Q	And that would be a number one under I; is that
righ [.]	t? Or I-1?
Α	The 6:20 is reference to item 2, A.
Q	Number two, yes, correct.
	Now, the number one file let me take it one
step	back, sorry.
	Q your report A Q A Q A Q refer A Q right A Q

	101100141 010007241 11114
1	823 You testified on direct examination as the time
2	found metadata on the card; is that correct?
3	A Yes.
4	Q And you went as far as to say that you checked the
5	date and the time on this metadata twice; is that right?
6	A I did.
7	Q And the date you found to be the accurate date when
8	you checked it; is that right?
9	A Correct.
10	Q And the time was not accurate; is that correct?
11	A Correct.
12	Q Did you say that on the direct examination?
13	A I don't remember if I did or I didn't.
14	Q Well, the time was off by an hour and 12 minutes, was
15	it?
16	A Yes, it was.
17	Q Now, when you obtained possession of this camcorder,
18	and you looked at the time, that time was set sometime
19	beforehand obviously; is that correct?
20	A Correct.
21	Q And as you sit here today, you don't know if it is
22	the same type of time entry, if it was in the same
23	camcorder, the same in the camcorder prior to the entry
24	being made; is that correct?
25	A No, I don't.

101100ta1 0100072a1 111ta
\$824\$ Q $$ In other words, the time settings on that camcorder
could have been changed after these videos were made; is
that right?
A It is a possibility.
Q But you don't know if it was, right?
A I don't.
Q It could have happened, right?
A It may have.
Q So when you testified to the reliability of that date
stamp and time, you can't testify with certainty that that
was an accurate entry of date and time when it was set at
the time this video was taken; is that correct?
A Based on my examination of that camera and my prior
knowledge of forensics on other cameras over the years, I
believe it to be accurate.
Q Well, let's talk about the information on the disk,
on the card.
Does the data on the card indicate when the date
had been changed?
A No, it doesn't.
Q Does the data on the card indicate when the time was
changed?
A No, it doesn't.
Q You don't know whether that camera's date or time was
changed once or 20 times, right?

•		Forrestal-Cross/LaPinta
1	Α	No .
2	Q	So it could have been changed a number of times
3	befo	ore those videos were made; is that right?
4	Α	It could have.
5	Q	And it could have been changed a number of times
6	afte	er the videos were made; is that right?
7	Α	Perhaps.
8	Q	But yet your finding of that date and time in your
9	expe	ert opinion is accurate; is that right?
10	Α	Correct.
11	Q	Let's refer to the data you recovered that were
12	stil	ls that were time stamped 9/10 of 10
13	Sept	cember 10th, 2010. All right?
14	Α	Yes.
15	Q	And your report doesn't have that right date listed
16	firs	st; is that right?
17	Α	One of the typos.
18	Q	You wrote 9/10/14?
19	Α	Yes.
20	Q	Clearly a mistake, right?
21	Α	Yes.
22	Q	Is there anything else that is a mistake on that
23	entr	ry withdrawn.
24	Α	I believe there was another typo of the date and
25	time) .

	TOTTESTAT-CTUSS/Ear Titta
1	Q Let me draw your attention to it.
2	Not only is there another typo on the date and
3	time, but you actually had a typo on the actual identity
4	of the file, don't you?
5	A If you point it out to me.
6	Q Look at your entry on I-1.
7	A I see it.
8	Q Under the mistaken date of 9/10/14, right?
9	Look at A.
10	A I see it.
11	Q You testified on direct examination that the file was
12	listed as HDV, underscore, 043 dot MP 4; is that correct?
13	A Yes.
14	Q And that is not the correct address; is that correct?
15	A It should have been two zeros, zero zero four.
16	Q You made a mistake in A by writing one zero, right?
17	A Yes.
18	Q You made a mistake in B by also misstating the
19	correct title to that; is that correct?
20	A Right.
21	Q And you also made a mistake in C; is that right?
22	A Right.
23	MR. LaPINTA: Now, counsel would stipulate that
24	the date of September 10th, 2010 is a Friday.
25	(Whereupon, at this time there was a pause in

	827
1	the proceedings.)
2	MR. BODE: It is a Jewish holiday.
3	MR. LaPINTA: Yes. And I presume you are Jewish
4	then; is that what you are saying?
5	(Counsel confer.)
6	MR. LaPINTA: Would you testify and would you
7	agree that 9/10/10 is a Friday?
8	MR. BODE: Yes.
9	MR. LaPINTA: Would you stipulate that 1/19/11
10	is a Wednesday?
11	MR. BODE: Yes.
12	THE COURT: Let me explain to the jury what a
13	stipulation is.
14	A stipulation is when the parties agree that a
15	certain fact is true. And you can accept those facts as
16	true. But what weight you give to those facts is
17	obviously up to the jury.
18	Q With regard to the videos you found on the camcorder,
19	there is no time stamp on the actual video when you see
20	it, right?
21	When you see the videos, is there a date of a
22	time stamp that you can visually see?
23	A No.
24	Q Now, when we speak of the dates you brought to our
25	attention, 9/10/10, the correct time if it was accurately

		TOTTES CAT-CTOSS/LAFTITCA
1	ente	828 red would be 2:27 p.m.; is that correct?
2	Α	Yes.
3	Q	And when we speak of the date January 19th, 2011,
4	that	is the if that is the accurate date, the accurate
5	time	would be 5:08 p.m.; is that correct?
6	Α	Yes.
7	Q	Now, when you did the search warrant of the house and
8	you	found this camcorder, as an experienced detective in
9	comp	uter crimes you are well aware of the numerous other
10	type	s of investigative forensic procedures that could be
11	used	on evidence, aren't you?
12	Α	I don't know what you are talking about.
13	Q	Well, you are an experienced detective in narcotics
14	as w	ell; is that correct?
15	Α	In the past, yes.
16	Q	And you know about crime labs that are around here?
17	Α	Yes.
18	Q	Suffolk County has one, the FBI has one, right?
19	Α	Yes.
20	Q	And they are capable, these crime labs, of doing a
21	fing	erprint identification on objects; is that right?
22	Α	Yes.
23	Q	In your scope of many years as a detective,
24	fing	erprint examination can be a very useful form of
25	evid	ence that you can use against somebody; is that right?

	Forrestal-Gross/LaPinta
1	A Yes.
2	Q And you know the difference between a latent print
3	and what the characteristics of a print are; is that
4	correct?
5	A I do.
6	Q And a fingerprint is unique to the person who has it,
7	right?
8	A Correct.
9	Q And there was no fingerprint evidence retrieved from
10	this camcorder; is that correct?
11	A Not to my knowledge.
12	Q Not on the bag that was carrying it; is that right?
13	A I don't know if that would have supported
14	fingerprints.
15	Q All right.
16	Not on the camcorder itself; is that right?
17	A Right.
18	Q And obviously you have to hold the camcorder to use
19	it, right?
20	A Right.
21	Q Would you agree, sir, there are other resources aside
22	from forensics that are useful to other investigators like
23	yourself, like cell phone records that we have already
24	discussed, right?
25	A Yes.

	101100141 01000, 241 11114
1	Q And how about bank records?
2	Is that relevant in the terms of purchases of
3	various electronic equipment?
4	A Depending on the investigation.
5	Q Obviously items retrieved here had to have been
6	purchased; is that right?
7	A Theoretically.
8	Q Well, didn't you find receipts here?
9	A I didn't personally find receipts.
10	Q Are you aware that receipts were found in this case?
11	A I'm aware items were seized during the search
12	warrant, yes.
13	Q Did you do any banking investigation as far as other
14	electronic equipment that may have been purchased by
15	Mr. Valerio that you did not seize?
16	A That was not my part in this case. It was forensics.
17	I was the forensic person in this case.
18	Q But you are a member of this team, aren't you?
19	A I am.
20	Q And you get together with the other members of the
21	team to discuss the investigation; is that right?
22	A I do.
23	Q And you have a specialty, and Agent Troyd has a
24	specialty, and Agent Messineo has a specialty, and
25	together you discuss where this investigation is going to

	831	1
1	go; is that right?	
2	A In this particular case that was not my place.	
3	Q Your place was limited here in your opinion to just	
4	the forensic examination?	
5	A That is my part in this case, yes.	
6	Q And you were, however, present during the questioning	
7	of the defendant; is that right?	
8	A Yes.	
9	Q And you were present during the execution of the	
10	search warrant, weren't you?	
11	A I was.	
12	Q Are you aware in your experience in this	
13	investigation whether any bank records of Mr. Valerio was	
14	obtained anywhere?	
15	A I'm not aware.	
16	Q No bank records were obtained in the search of the	
17	house that proved to be relevant to this investigation; is	
18	that right?	
19	A Not that I recall.	
20	Q No credit card records were obtained in this case to	
21	obtain relevant information in your investigation; is that	
22	right?	
23	A There was a reference to telephone credit cards and	
24	even banking information retrieved from the hard drive emai	ı .
25	Q So you had the information available, didn't you?	

_	1011esta1-c10ss/Lar IIIta	
1	A From the emails, yes.	
2	Q And you retrieved those emails as the computer expert	
3	in this case?	
4	A I did.	
5	Q So you had the name of the bank, correct?	
6	A In some cases, yes.	
7	Q And the bank account numbers; is that right?	
8	A There were account numbers, yes.	
9	Q So it would have been very easy, whether it is you or	
10	Agent Troyd or Messineo, to obtain those records because	
11	you had the information right there, right?	
12	A Again, it is not my part in this case.	
13	Q I'm not asking if it was. But the information was	
14	right there, right?	
15	A I had resolved emails, yes.	
16	Q You didn't have to search to find this information,	
17	it was right in front of you in the data; is that correct?	
18	A It was in the emails recovered, yes.	
19	Q In trying to ascertain as to whether there were other	
20	electronic devices that you did not seize, did you look	
21	into any type of local computer stores to find out whether	
22	Mr. Valerio purchased other items of electronics?	
23	A No.	
24	Q You issued subpoenas on other computer manufacturers	
25	in the past?	

		1011 estat-ci 055/Larilita
1	Α	833 Yes.
2	Q	And you are aware how to do that?
3	Α	Yes.
4	Q	Effortless, correct? Easy to do?
5	Α	Not effortless.
6	Q	Easy to do with respect to other things you are
7	requ	uired to do; is that right?
8	Α	Somewhat.
9	Q	There are a number of different phone carriers out
10	ther	re, aren't there?
11	Α	There are.
12	Q	And to avail yourself to the thoroughness of the
13	inve	estigation to see whether there were other phones
14	invo	olved besides the ones that you recovered, did you do
15	any	investigation of other phone carriers?
16	Α	That is not my position in this case.
17	Q	Did you recommend to do other investigation of other
18	phon	ne carriers?
19	Α	I did not.
20	Q	Do you know whether other agents in this case did
21	inve	estigations of other phone carriers?
22	Α	I don't know.
23	Q	There was a CD presumably mailed to Mr. Valerio. Do
24	you	remember that?
25	Α	Yes.

	TOTTES LATE OF USS/LAF TITLA	
1	834 Q And I believe Special Agent Angelini received a copy	
2	of that CD; is that correct?	
3	A Again, I don't know that.	
4	Q Did you ever have in your possession a CD that was	
5	part of this investigation?	
6	A I have been given copies of CDs made during the	
7	investigation.	
8	Q Did you conduct a forensic examination on those CDs?	
9	A On the ones provided by the Special Agent?	
10	Q The CD provided to Special Agent Angelini?	
11	A I did not.	
12	Q You never performed any forensic examination on that	
13	CD; is that your testimony?	
14	A Yes.	
15	Q Well, in your experience in investigating and doing	
16	forensic examinations on CDs, would CDs sometimes have a	
17	date stamp on them?	
18	A The CD itself?	
19	Q The videos contained on the CDs, would they sometimes	
20	have a date stamp on the videos?	
21	A Yes.	
22	Q You don't know if that took place?	
23	A No.	
24	Q Would they sometimes have a time stamp, in terms of	
25	the time of the video?	

		Forrestal-Cross/LaPinta
1	А	Yes.
2	Q	And would they have any indication of perhaps where
3	they	would be?
4	Α	In some cases, yes.
5	Q	And none of that was done in this case; is that
6	righ	t?
7	Α	I received a copy of the CD.
8	Q	None of that evaluation was obtained from that CD?
9	Α	I don't know what I have no knowledge of what was
10	done	with that CD.
11	Q	Because you didn't do an investigation on it, right?
12	Α	I received a copy of the CD.
13	Q	Detective, from the copy of the CD that you received,
14	did	you do any forensic evaluation on the CD? Yes or no?
15	Α	No.
16	Q	There were a number of child pornography videos
17		MR. LaPINTA: Would you mind if I break?
18		THE COURT: Yes.
19		I have other matters on, so we will adjourn

21		So you will have an unusually longer lunch.
22		Do not discuss the case.

6	THE COURT: Please be seated.
7	Bring the jury in.
8	You have your expert waiting?
9	MR. LaPINTA: Yes.
10	THE COURT: All right.
11	MR. LaPINTA: And the second witness as well.
12	THE COURT: How long is your expert?
13	MR. LaPINTA: Certainly not as long as Detective
14	Forrestal. I would say a half an hour probably.
15	THE COURT: All right.
16	(Whereupon, the jury at this time entered the
17	courtroom.)
18	THE COURT: Please be seated.
19	Members of the jury, we are ready to continue.
20	Go ahead, Mr. LaPinta.
21	MR. LaPINTA: Thank you, your Honor.
22	BY MR. LaPINTA:
23	Q Good afternoon, Detective Forrestal.
24	A Good afternoon, counsel.
25	Q You left off with respect to your various activities

,	10.10014. 0.000, 24		
1	as the forensic tech involved in this investigation.		
2	I now want to direct you to your role in		
3	examining the emails and attachments that were obtained		
4	via the Cablevision optonline subpoena.		
5	Are you familiar with those materials?		
6	A I viewed them, yes.		
7	Q Would you say that you have a good working knowledge		
8	of that material?		
9	A No.		
10	Q Would you say you took the time to review those		
11	emails to learn about the facts of the case?		
12	A I reviewed them.		
13	Q Okay.		
14	A Just briefly.		
15	Q Okay.		
16	You certainly viewed the images sent via		
17	attachments to emails from the Kalichenko email address;		
18	is that correct?		
19	A I did.		
20	Q In fact, those emails is what you used to compile the		
21	images you showed to this jury; is that correct?		
22	A Yes.		
23	Q When you reviewed the emails of child pornography,		
24	would you agree with me that the emails of child		
25	pornography did not have on the email a time stamp?		

	i di i esta i -ci dss/Lar i i ta	
1	A Correct.	
2	Q Did not have a date stamp?	
3	A Did not have a metadata stamp.	
4	Q On the video could you see a time or date stamp? Yes	
5	or no?	
6	A No, not on the time, on the video itself.	
7	Q And by viewing the emails with the child pornography,	
8	you could not determine where those videos were made; is	
9	that correct?	
10	A Correct.	
11	Q And you could not determine only by viewing those	
12	videos when those emails were made, correct?	
13	A Correct.	
14	Q You never met Olena Kalichenko; is that correct?	
15	A Correct.	
16	Q You never met the child in the video; is that	
17	correct?	
18	A Yes.	
19	Q You have no first-hand knowledge whether the child in	
20	the video is even related to Olena Kalichenko; is that	
21	correct? First-hand knowledge.	
22	A Through the document contained on the recovered	
23	material, in viewing that, yes.	
24	Q Besides the information on the emails, do you know	
25	that this child was related to Olena Kalichenko?	

	101103141 010337241 11114
1	A Well, that
2	Q Aside from that, sir?
3	A Besides that, no.
4	Q You have no first-hand knowledge besides the videos
5	that her name was, is that correct?
6	The emails, sorry.
7	A Aside from the email, no.
8	Q Aside from the email you have no knowledge that the
9	child is ?
10	A From the document related to the emails, yes.
11	Q When I say the emails, I mean the document in the
12	emails.
13	A There is a difference. The attachments and the
14	emails, there are official records attached, and I would
15	say through those records I know the child to be
16	Q Aside from the emails and attachments, do you know
17	her name to be, or whatever her name is?
18	Do you know her to be aside from the attachments
19	and the video and the emails?
20	A I know her to be , yes.
21	Q The subject child pornography videos were all
22	attached as attachments to emails, aside from the CD-ROM
23	that was evidently mailed; is that correct?
24	A Correct.
25	Q And an attachment to an email could be in the form of

		101100101 01000/201 11110	
1	a vi	841 deo or a document; is that right?	
2	Α	A document, yes.	
3	Q	And it is not uncommon to send videos as attachments	
4	to e	mails; is that correct?	
5	Α	Yes.	
6	Q	And aside from the date that an email is sent, would	
7	you a	you agree that the date the email is sent isn't	
8	necessarily the date that a document or email is created?		
9	Α	True.	
10	Q	A document or video that is included in an email can	
11	be made at any time before that email is sent; is that		
12	corr	ect?	
13	Α	True.	
14	Q	It can be made a minute before or a day before; is	
15	that	correct?	
16	Α	Correct.	
17	Q	And it could be made a month before or a year before,	
18	correct?		
19	Α	Correct.	
20	Q	In your report you state that the child is two years	
21	of age. Do you remember that?		
22	Α	I do.	
23	Q	That fact which you state in your report is your	
24	opin	ion; is that correct?	
25	Α	Correct.	

	1011 esta1-ci oss/Larilita	
1	842 Q In working with Agent Troyd, are you aware that the	
2	sworn document he filed with the Court, he wrote that the	
3	child was three years old? Are you aware of that?	
4	A No.	
5	Q Have you read the search warrant affidavits in this	
6	case?	
7	A I have.	
8	Q Have you read the search warrant affidavits submitted	
9	to the Court on January 27th, 2014?	
10	A I read it once, yes.	
11	Q Okay.	
12	Do you know that that sworn affidavit by	
13	Special Agent Troyd indicates that the child in the video	
14	is three years old? Do you know that?	
15	A I don't remember that.	
16	MR. LaPINTA: Bates stamp 135.	
17	(Counsel confer.)	
18	MR. LaPINTA: You can do it on redirect. Don't	
19	tell me how to question the witness, okay?	
20	Q Showing you the document in front of you	
21	(Handed to the witness.)	
22	A I see what, sir?	
23	Q Looking at what is in front of you	
24	A Yes.	
25	Q Bates stamp 135; is that right?	

		TOTTESCAT-CTOSS/Lartifica
1	Α	Yes. 843
2	Q	And does that refresh your recollection as far as
3	Agen	t Troyd stating the age of the child to be
4	appr	oximately three years old; is that right?
5	Α	Approximately.
6	Q	Three years old?
7	Α	Approximately three years old is what he says.
8	Q	That is his language, approximately three years old?
9	Α	Yes.
10	Q	And your language is she was approximately two years
11	old?	
12	Α	Yes.
13	Q	In fact, neither you nor Agent Troyd knows the age of
14	that	child in the video?
15	Α	Know the age of the child exactly, no.
16	Q	The following questions I'm going to ask you have to
17	do w	ith your experience in being a child pornography
18	inve	stigator. And excuse the nature of this question,
19	plea	se.
20		In your investigations of child pornography, you
21	come	across a wide variety of child pornography; do you
22	agre	e?
23	Α	Agreed.
24	Q	You found child pornography in a number of different
25	loca	tions, haven't you?

1	Α	Geographic locations you are talking about?
2	Q	Technology locations?
3	Α	Yes.
4	Q	You found pictures of child pornography in people's
5	home	s; is that right?
6	Α	Yes.
7	Q	And you found pictures of child pornography on cell
8	phon	es?
9	Α	Yes.
10	Q	Computers?
11	Α	Yes.
12	Q	On laptops?
13	Α	Yes.
14	Q	On towers?
15	Α	Yes.
16	Q	On iPads?
17	Α	Yes.
18	Q	Tablets, right?
19	Α	Tablets, yes.
20	Q	And in the course of your investigation, you have
21	come	across child pornography of a number of different
22	type	s? And what I mean by types is, I mean different ages
23	of c	hildren; is that right?
24	Α	Right.
25	Q	And children doing different acts in the videos; is

		101165ta1-01055/LaFilita
1	that	845 correct?
2	Α	Yes.
3	Q	Some of the photographs in the videos are merely
4	conta	aining naked children; is that correct?
5	Α	Sometimes, yes.
6	Q	And some of the images of videos contain sex acts
7	with	children; is that correct?
8	Α	Correct.
9	Q	As an experienced investigator, you also come across
10	many	videos and photographs of oral sex acts with
11	chil	dren, haven't you?
12	Α	I have.
13	Q	Would you say you come across quite a bit of it in
14	your	experience?
15	Α	Yes.
16	Q	Unfortunately?
17	Α	Unfortunately.
18	Q	And this is certainly not the first time you have
19	come	across that; is that right?
20	Α	Right.
21	Q	And in reviewing these photos and videos of child
22	porn	ography, they have included unfortunately objects
23	duri	ng the sex acts, yes?
24	Α	Yes.
25	Q	And sometimes the objects include toys, right?

		Forrestal-Cross/LaPinta
1	Α	Yes.
2	Q	Sometimes the objects include adult sex toys, right?
3	Α	Yes.
4	Q	Sometimes the objects include common things people
5	use,	such as hairbrushes, correct?
6	Α	Right.
7	Q	And some of the video that you come across as an
8	inve	stigator unfortunately also has included many times
9	oral	sex on children; is that correct?
10	Α	Correct.
11	Q	This is not the first time you have seen child
12	porn	ography in the setting of a shower; is that correct?
13	Α	True.
14	Q	You have seen that many times before as well; is that
15	corr	ect?
16	Α	I have.
17	Q	So as far as the content of this child pornography in
18	this	case, you have seen it happening over and over again
19	on o	ther unrelated cases; is that correct?
20	Α	I have viewed child pornography various times.
21	Q	Right. Unfortunately viewed quite a bit of it; is
22	that	correct?
23	Α	Yes.
24	Q	And a lot of this stuff you have viewed in the past
25	besi	des this case; is that correct?

		Forrestal-Cross/LaPinta
1	Α	Yes. 847
2	Q	And let's talk about the scope of your investigation
3	as a	computer forensic expert.
4		You would agree that there are a number of
5	diff	erent databases out there for you to conduct an
6	inve	stigation, aren't there?
7	Α	Type of?
8	Q	Well, there are email databases, right?
9	Α	There is public record aggregators, yes.
10	Q	Like Cablevision is a database you can access?
11	Α	They have records I can subpoena, yes.
12	Q	And there are also social media databases that you
13	can	also investigate; is that right?
14	Α	That's right.
15	Q	And in the course of your experience, you have used
16	info	rmation from social media sources, have you?
17	Α	I have.
18	Q	And what are some of the social media sources that
19	you	use?
20	Α	Facebook, Instagram.
21	Q	What else?
22	Α	As far as social media sites?
23	Q	Yes.
24	Α	I have pretty much touched every one that is out
25	ther	e.

		Forrestal-Cross/LaPinta
1	Q	848 Have you ever looked at the Skype database?
2	Α	I have conducted investigations in Skype, yes.
3	Q	Well, let's take Facebook.
4		Did you conduct any investigation into the
5	data	abase of Facebook relating to Olena Kalichenko in this
6	case	e?
7	Α	I did not.
8	Q	By the way, you are aware that Facebook is accessible
9	thro	oughout the world, aren't you?
10	Α	Yes.
11	Q	The United States in addition to overseas; is that
12	righ	nt?
13	Α	Yes.
14	Q	In addition to the Ukraine; is that correct?
15	Α	It is worldwide.
16	Q	Now, Instagram is the same thing, accessible in the
17	Unit	ted States as well as overseas?
18	Α	Yes.
19	Q	As well as Skype, right?
20	Α	Yes.
21	Q	And did you now come to learn in the course of this
22	inve	estigation that Helena Kalichenko used a Skype account?
23	Α	Yes.
24	Q	Did you employ any investigative measures to obtain
25	info	ormation about Helena Kalichenko's Skype account?

		TOTTEStat-GLOSS/Larinta
1	Α	No, not me. That is not my position.
2	Q	And would you agree with me that if Skype were used
3	in t	his case, the database would include relevant
4	info	rmation regarding this investigation, correct?
5	Α	Depending on the type of information sought, perhaps.
6	Q	Helena Kalichenko used predominantly one by the
7	way,	did you know her to have a Facebook account?
8	Α	Pardon me?
9	Q	Did you know Helena Kalichenko or Olena Kalichenko to
10	have	a Facebook account?
11	Α	I don't know.
12	Q	Did you look into it?
13	Α	No.
14	Q	So she could, but you don't know if she does?
15	Α	I didn't look into it.
16	Q	Regarding the majority of emails sent by Olena
17	Kali	chenko, you are aware of that email address?
18	Α	Yes.
19	Q	What is it?
20	Α	I couldn't spell it out specifically in front of me.
21	It i	s a dot RU.
22	Q	And the dot RU indicates an email server database in
23	the	Ukraine?
24	Α	It is actually Russia.
25	Q	Russia?

		TOTTEStat-Cross/Larinta
1	Α	Yes. 850
2	Q	And you didn't obtain, for whatever reasons, you
3	didn	't obtain any information from that RU database, email
4	datal	base, right?
5	Α	No.
6	Q	Did you also come to learn in the course of your
7	inve	stigation that Olena Kalichenko used a second email
8	addre	ess? Yes or no?
9	Α	No.
10	Q	Would today, just right now, be the first time that
11	you	learned that Olena Kalichenko also used the address
12	Brigh	ht, B-R-I-G-H-T, Helena, H-E-L-E-N-A, 68@gmail.com?
13	Α	This is the first time.
14	Q	Were you given any documents that Agent Angelini
15	rece ⁻	ived from Olena Kalichenko?
16	Α	No.
17	Q	Did you inquire of your co-investigators, Agent
18	Troy	d, Agent Messineo, Agent Angelini, whether Olena
19	Kalio	chenko used other emails besides the RU email?
20	Α	I did not.
21	Q	Would you agree with me that if a second email was
22	used	by Helena at or around the same time of this
23	inve	stigation, that it would contain essentially useful
24	info	rmation for you?
25	Α	It would depend.

	I OI I ES LA I - OI OSS/ LAF III LA
1	851 Q Well, it would depend on whether she used it, right?
2	A Yes.
3	Q It would depend upon whether you knew she would be
4	using that email, right?
5	A It would depend if it was recovered in the case.
6	Q Well, let me show you this document. Just look at
7	it.
8	(Handed to the witness.)
9	Q I will show you two documents. Take a look at them
10	and do not comment on it.
11	(Handed to the witness.)
12	(Counsel confer.)
13	Q Look up when you are finished.
14	Your prosecutors made reference to the fact that
15	these exhibits were introduced in evidence.
16	Is this the first time you have come to learn
17	that Olena Kalichenko used the email address
18	brighthelena68@gmail.com?
19	A That I recall, yes.
20	Q And you could have come cross that?
21	A I don't remember, no.
22	Q And just like you subpoenaed the Cablevision records
23	of Joseph Valerio, you could have subpoenaed the Gmail
24	records of Olena Kalichenko; is that correct?
25	A As the forensic person in this case I wouldn't be

ı	101100101 01000/ 20111110
1	doing subpoenas.
2	Q The team that you are working with, okay? Somebody
3	subpoenaed these records, right?
4	A Yes.
5	Q Weren't you involved in this decision making as to
6	where this investigation goes?
7	A I was not the lead investigator in this case.
8	Q I'm not asking you if you were.
9	Were you involved in decision making as to where
10	this investigation goes? Yes or no?
11	A No.
12	Q And no one told you about this Gmail account; is that
13	right?
14	A Not that I recall.
15	Q All right.
16	Would you agree with me that Gmail is a United
17	States company, right?
18	A Gmail?
19	Q Gmail.
20	A Yes.
21	Q And it is data that data from Gmail is obtained
22	initially by a subpoena; is that correct?
23	A Correct.
24	Q Just like you retrieved emails containing child
25	pornography on an email account, a Gmail account could
J	

	TOTTEStat-Closs/Larinta
1	853 also contain child pornography?
2	A Yes.
3	Q And an email account of Olena Kalichenko may even
4	contain the same images of child pornography; is that
5	right?
6	A It may or may not.
7	Q And the dates that those emails could have been sent
8	would have been relevant to you, wouldn't they?
9	A Yes.
10	Q And would you agree with me that if those videos that
11	you retrieved from this Cablevision account were
12	previously sent to other people in the Gmail account, that
13	that is a big fact in this case? Agreed
14	A It could be.
15	Q If those emails were sent out with attachments of
16	child pornography even before Olena Kalichenko knew
17	Mr. Valerio, it would be important information; is that
18	correct?
19	A Yes.
20	Q And it would be because those emails were made before
21	even meeting Joe? Yes or no.
22	A Repeat the question.
23	Q Those videos, if they're attachments to the emails,
24	could have been made or sent before she even met Joe; is
25	that right?

,	101100141 010007241 11114
1	\$854\$ A $$ Based on the age of the child I viewed, and the email
2	dates that I saw, I don't believe so.
3	Q Okay.
4	So the age of the child could not have been a
5	factor in her sending child pornography with respect to
6	that email account?
7	A No, that is not what I said. Not what I said.
8	Q So the point is she could have sent child pornography
9	with that child previous to even meeting Joseph Valerio;
10	is that correct? Yes or no?
11	A Yes.
12	Q That data, if you would have subpoenaed the account,
13	could have identified other people that potentially were
14	sent child pornography; is that correct?
15	A Again, counselor, it is not my position to
16	subpoena
17	Q You could have obtained that information if it
18	existed; is that correct?
19	A Under the hypothetical, yes.
20	Q Now, did you come across information that Olena
21	Kalichenko had admitted she sent child pornography to
22	other men?
23	A I'm aware of that, yes.
24	Let me backtrack on that. Not to other men, to
25	Joseph Valerio.

		TOTTEStat-Closs/Lar IIIta
1	Q	855 Besides well, other men means other people aside
2	from	Joseph Valerio; other men?
3	Α	No. I misheard.
4		I am aware she said she sent child pornography
5	to J	oseph Valerio.
6	Q	Were you aware from Agent Troyd that child
7	porn	ography was sent by Helena Kalichenko to a man by the
8	name	of Daniel Ditmeyer, yes or no?
9	Α	No.
10	Q	You did not know that?
11	Α	No.
12	Q	This is the first time you heard that name Daniel
13	Ditm	eyer, yes?
14	Α	Yes.
15	Q	So you conducted no investigation of a Daniel
16	Ditm	eyer; is that fair?
17	Α	Not specifically, no.
18	Q	No email account verification of a Daniel Ditmeyer?
19	Α	Not in the data I recovered.
20	Q	Or any search of any home or electronics of his; is
21	that	correct?
22	Α	Correct.
23	Q	So you are unable to tell us whether Olena Kalichenko
24	sent	emails of a child to a Daniel Ditmeyer?
25	Α	I'm not able to tell you if Olena Kalichenko sent any

	Torrestar-Reurrect/Rabi awara
1	856 child pornography to anyone but the defendant.
2	MR. LaPINTA: Thank you, detective. Nothing
3	further.
4	THE COURT: Redirect?
5	MR. KABRAWALA: Yes, your Honor.
6	
7	REDIRECT EXAMINATION
8	BY MR. KABRAWALA:
9	Q Detective, you were questioned about whether you
10	reviewed emails that were obtained from Kalichenko by
11	Special Agent Angelini.
12	Do you recall that line of questioning?
13	A Yes.
14	Q I'm showing you the email one of the emails that
15	counsel was referring to.
16	(At this time a document was exhibited on the
17	courtroom screen.)
18	MR. KABRAWALA: This is Government's Exhibit 2.
19	Q Do you see that?
20	MR. KABRAWALA: All of these emails are in
21	evidence.
22	A I do.
23	Q Who is it from?
24	A This is from from this point here?
25	Q Right here.

	Torrestar Rearrest/Rabi awara
1	857 A It is from Helena Bright.
2	Q I'm sorry.
3	Right before below where it says forwarded
4	message.
5	A Yes.
6	Q Who is the email from?
7	A Joeval5@optonline.net.
8	Q Take a look at the email. I will try to lay it flat.
9	Why don't you read it.
10	(Whereupon, at this time there was a pause in
11	the proceedings.)
12	MR. KABRAWALA: I will read it. I will read
13	from right here.
14	Let me know if I get it wrong.
15	This is from joeval5@optonline.net. It is dated
16	July 6, 2013.
17	To Helena Bright. It is
18	brighthelena68@gmail.com.
19	I wanted to ask you if you would also help me
20	with an adoption of a child from your country. Can you
21	help me? Just by saying we are a couple looking to adopt?
22	I will give you a solid commission for your help, that you
23	know.
24	My son now is off to college upstate. My
25	daughter is in South Africa, whom I seldom see, which I

i	
1	858 want to challenge because I can afford to bring her up in
2	her life. Etcetera, etcetera.
3	If our meeting is not possible, can you help me
4	with an adoption, Helena?
5	Does this appear to be about what does this
6	email appear to be about?
7	A It is
8	MR. LATO: Objection.
9	THE COURT: Sustained.
10	Q Is it fair to say that nothing in this email refers
11	to sending images of child pornography back and forth?
12	A No, it doesn't.
13	Q I'm showing you now what is another portion of
14	Government's Exhibit 2.
15	(At this time a document was exhibited on
16	courtroom screen.)
17	Q This is from joeval5@optonline.net, dated July 8th,
18	2013. The subject is re, adoption process, to Helena
19	Bright, at brighthelena68@gmail.com.
20	I will just read it and you tell me I miss a
21	word or anything.
22	Thanks for the feedback. Like I mentioned, I
23	presently have no children in my life now to enjoy at my
24	age. I have the means, the home and the comforts for me
25	to raise a child. I'm a great father and it seems now

1	that I'm just a provider, that's all.
2	I want to be able to teach my new daughter all
3	the talents I have passed on to my son and daughter.
4	There will be an au pair with me as well to tend to a
5	little girl's needs.
6	Do you know what an au pair is?
7	A Yes.
8	Q What is an au pair?
9	A It is a live-in
10	MR. LATO: Objection.
11	MR. LaPINTA: Objection.
12	THE COURT: Sustained.
13	Q I have a girl here now that's qualified. If not her,
14	later on there will be some other qualified helper or
15	woman with me. The won't (sic) only be for me to enjoy
16	and raise. When I plan an action, I think it through.
17	MR. LaPINTA: Objection.
18	Beyond the scope of the purpose that this email
19	was used to impeach.
20	THE COURT: Why don't you approach.
21	
22	(Whereupon, at this time the following took
23	place at the sidebar.)
24	THE COURT: I don't think it is beyond the scope
25	in the sense that you suggested that there is some

,	Torrostar Roarrost/Rabrawara
1	$$860\ \mbox{evidentiary value to that account.}$ So I think it is fair
2	for the government to do that.
3	I don't think you need to read the whole email.
4	At some point this is argument you can do in summation.
5	You can go through one e-mail. I don't want to waste time
6	going through all these emails.
7	MR. KABRAWALA: Yes.
8	MR. LaPINTA: Thank you.
9	THE COURT: Let's move on.
10	
11	(Whereupon, at this time the following took
12	place in open court.)
13	Q Is it fair to say that this email that I just read
14	aloud doesn't concern the exchange of child pornographic
15	videos or emails?
16	A Correct.
17	Q And you testified on direct about a number of child
18	pornography emails or videos recovered from the
19	defendant's computer, and those were sent by a person
20	named Olena Kalichenko. Do you recall that?
21	A Yes.
22	Q And they were sent in an email address that ended in
23	dot RU?
24	A Yes.
25	Q Do you recall that?

	101100tal Roall 00t/Rabi awata			
1	861 A Yes.			
2	Q And did you find any emails on the defendant's			
3	computer of child pornography that were sent from a Gmail			
4	account?			
5	A No.			
6	Q You were asked on cross-examination about a number of			
7	electronic devices seized from the defendant's house. Do			
8	you recall that?			
9	A Yes.			
10	Q And one with an Apple laptop computer?			
11	A Yes.			
12	Q And there was no child pornography found on that			
13	device; correct?			
14	A Yes.			
15	Q And there was no child pornography found on certain			
16	other devices; is that correct?			
17	A Correct.			
18	MR. KABRAWALA: I am publishing what is admitted			
19	as Government's Exhibit 555, and directing your attention			
20	to page to line 18.			
21	This appears to be a Viber text message from			
22	December 7th, 2013.			
23	Please read aloud the contents of the message.			
24	A Referring to the 6:45:18?			
25	Q Yes.			

1	862 A Okay Joseph, I am fed up with you. I am sending all
2	the videos I made for you with to the FBI. That's
3	the only piece needed to get a court order to arrest you.
4	No more mercy for you.
5	Q I will go to the next page and I will be drawing your
6	attention to line 32.
7	A message from December 11th, 2013.
8	Would you please read out loud the message right
9	here at 9:22:31.
10	A Joseph, I now have eight different videos I made for
11	you not counting the one I sent through DHL. FBI is
12	asking me every single day either I am sending additional
13	evidence to them. I don't think you really understand how
14	serious the matter is. I am asking you for the last time
15	would you like me to provide to the police everything I
16	have or would you like to negotiate?
17	Q Is it fair to say that based upon those two text
18	messages, that the defendant had approximately eight
19	weeks' notice that the FBI was coming for him?
20	A Yes.
21	MR. LATO: Objection.
22	THE COURT: Sustained.
23	The jury is to disregard it.
24	Q Is December 6th and December 11th, are those dates
25	approximately seven to eight weeks before January 28th,

ı	Torrestar Rearrest/Rasiawara			
1	2014? 863			
2	A Approximately, yes.			
3	Q And you also testified there wasn't computer			
4	information showing the defendant viewed any child			
5	pornography videos that were found on his computer; do you			
6	recall that?			
7	A On that computer.			
8	Q Other than the videos itself, do you recall that			
9	testimony?			
10	A I do.			
11	Q And I will just show you Government's Exhibit 559-A,			
12	as in Apple.			
13	(At this time a document was exhibited on			
14	courtroom screen.)			
15	Q Was this an email recovered from the defendant's			
16	computer?			
17	A Yes.			
18	Q And reading the highlighted portion, it says: I see			
19	you are bonding very well with .			
20	Do you see that?			
21	A Yes.			
22	Q And the image I will now show you			
23	Government's Exhibit 303-A.			
24	(At this time a document was exhibited on			
25	courtroom screen.)			

ı	Torrostar Roarrost/Rabrawara
1	Q I'm publishing what is admitted as 303 Alpha.
2	It says: The videos you sent by cell phone
3	camera are perfect and there is no need for the expense of
4	another camera when you have done a terrific job with the
5	cell phone camera.
6	MR. LaPINTA: Objection.
7	MR. KABRAWALA: I'm sorry, with the cell phone
8	camera.
9	THE COURT: What is the objection?
10	MR. LaPINTA: The objection is the relevance of
11	this evidence coming in on redirect when it wasn't the
12	subject of cross.
13	THE COURT: Overruled.
14	Again, it is for a very limited reason and I
15	will allow it.
16	MR. KABRAWALA: That is the reading, and I will
17	read the next sentence.
18	I have a new cell phone which allows me to
19	transfer the video to my email and the screen is bigger to
20	view.
21	Q Did I read that correctly?
22	A Yes.
23	Q Does it appear from this email that in fact the
24	defendant viewed the video sent to him?
25	A Yes.

	Torrestar Rearrest/Rabi awara
1	865 Q You were asked about a couple of typos found in your
2	report; do you recall that?
3	A Yes.
4	Q And you were asked whether the file name HDV,
5	underscore 00043, had a typo in it. Do you recall that?
6	A Yes.
7	Q And do you recall that you identified that file name
8	with one less zero?
9	A Yes.
10	Q Do you recall that?
11	A Yes.
12	Q Was the image was that image found on the Samsung
13	memory card in the defendant's house?
14	A It was.
15	Q And was it a fact that your report left out a zero,
16	and does it change the fact that a young girl was depicted
17	in there?
18	A No.
19	Q Does it change the fact
20	MR. LaPINTA: Objection.
21	THE COURT: Sustained.
22	Q What if any impact does a typo leaving off one zero
23	on the file name have on the approximate 30 videos found
24	on the defendant's computer?
25	MR. LaPINTA: Objection.

1	Torroctal Roarroct/Rabrawara
1	THE COURT: Sustained as to form.
2	Q Now, you were asked about the camcorder in evidence,
3	Government's Exhibit 404.
4	You were asked if you did any fingerprint
5	analysis on that device.
6	A Yes.
7	Q And you were asked if any did you conduct a
8	physical examination of that camcorder?
9	A I did.
10	Q And what did you note about the physical condition of
11	that camcorder, if anything?
12	A It is of reasonable good shape and it had black tape
13	put over the front lens of it.
14	Q Above the lens area?
15	A Yes.
16	MR. KABRAWALA: Your Honor
17	MR. LaPINTA: Objection to the series of
18	questions regarding anything outside of fingerprints that
19	I cross-examined on.
20	THE COURT: Why don't you approach now.
21	
22	
23	
24	
25	

	867
1	(Whereupon, at this time the following took
2	place at the sidebar.)
3	THE COURT: Where are you going with this?
4	MR. KABRAWALA: I want to show the jury that
5	there is a piece of tape on it, and there was a physical
6	examination done.
7	MR. LaPINTA: Forensic examination.
8	MR. BODE: Completeness of the investigation.
9	MR. KABRAWALA: Completeness of the
10	investigation as to whether or not fingerprints were taken
11	off of it. I want to know show there is tape on the
12	device.
13	MR. BODE: It is blacked out as well.
14	THE COURT: I will sustain the objection.
15	This witness, I understand, and certainly some
16	of this was done on cross-examination. But these are
17	arguments you can make to the jury.
18	MR. BODE: The only thing, we can't make the
19	argument now. The tape covers the spot. We need the
20	detective to talk to us about pulling off the tape and he
21	saw the LED tape was blacked out with a Sharpie and tape
22	placed over it. We can't make that argument without the
23	testimony.
24	THE COURT: He can describe what the camera is.
25	But you can't ask his conclusions or opinion about that.

	0.60
1	That is argument.
2	MR. BODE: We can ask about the condition and
3	that is what it is?
4	THE COURT: Yes.
5	MR. KABRAWALA: Can we have him stand up and
6	show the jury?
7	THE COURT: Yes.
8	MR. KABRAWALA: Thank you.
9	
10	(Whereupon, at this time the following takes
11	place in open court.)
12	Q You testified you conducted a physical examination of
13	the camcorder that is in front of you?
14	A Yes.
15	Q And that there is a piece of black tape on it?
16	A Yes.
17	Q Did you ever lift up the black tape?
18	A I did.
19	Q What if anything did you find?
20	A There is an LED light on the camera.
21	MR. KABRAWALA: Your Honor, with the Court's
22	permission, can I have the witness step off the witness
23	stand and to stand in front of the jury box to show it to
24	the jury?
25	THE COURT: Yes.

		960
1	What exhibit number is that?	869
2	THE WITNESS: Sorry, sir?	
3	THE COURT: What is the exhibit number?	
4	THE WITNESS: This exhibit number is 404.	
5	Q You can go ahead and lift off the tape.	
6	A It is a little hard to see because it is dark on	
7	dark.	
8	Q Why is it dark on dark?	
9	A It looks like it has been written over with maybe	
10	magic marker.	
11	MR. LaPINTA: Objection.	
12	THE COURT: Sustained, sustained.	
13	MR. LaPINTA: Let the record reflect that the	
14	witness is showing the camcorder to the members of the	
15	jury.	
16	THE COURT: Yes.	
17	THE WITNESS: Do you see that?	
18	THE COURT: Don't say anything. Just show it	to
19	the jury.	
20	(Whereupon, at this time there was a pause in	
21	the proceedings.)	
22	Q You may step back on the witness stand.	
23	(Witness resumes the witness stand.)	
24	Q Two more questions.	
25	You said that the black tape was covering an L	ED

Forrestal-Redirect/Kabrawala

	870
1	light?
2	A Yes.
3	Q Did you conduct an investigation into what that LED
4	light does, and if so, what did it reveal?
5	A It revealed that it lights off it shows when the
6	recording is taking place.
7	MR. KABRAWALA: Nothing further.
8	THE COURT: Recross?
9	MR. LaPINTA: No, thank you.
10	THE COURT: All right. You may step down.
11	THE WITNESS: Thank you.
12	(Whereupon, the witness leaves the witness
13	stand.)
14	MR. KABRAWALA: Your Honor, the government
15	rests.
16	THE COURT: Members of the jury, you heard that
17	the government has rested its case. And that means they
18	have completed their presentation of the evidence.
19	As I said in the beginning, I want to remind you
20	that the burden of proof is on the government at all
21	times. The defendant does not have to call any witnesses
22	or put on any evidence whatsoever. Obviously he has the
23	right to do so if he wishes. And defense counsel
24	indicated they intend to present evidence to you. So we
25	will take a break now and then begin that. Okay?

871 1 Do not discuss the case. 2 (Whereupon, at this time the jury leaves the 3 courtroom.) 4 THE COURT: Please be seated. 5 Is there a motion by the defense? 6 MR. LATO: Yes, your Honor. 7 Your Honor, Rule 29, I'm making a general motion 8 for a judgment of acquittal based on the government's 9 failure to make out a case that would convince a 10 reasonable jury that the defendant is guilty of the crimes 11 charged in the indictment. 12 Specifically, though, I want to address some of 13 the other counts, and this has to do with the attempt 14 counts. 15 Counts 9 through 13 charge the attempted 16 exploitation of a child. However, those attempt counts in 17 terms of the dates also fall within count two, which is 18 the actual sexual exploitation of the same child. 19 Count two lists a beginning date and a start 20 It does not break out count two to an individual 21 date or individual acts of exploitation of a child. 22 However, what happened in counts 9 through 13, 23 it appears that what the government has done is that it is 24 arguing to the jury that count two, the actual 25 exploitation, occurred between April 1st, 2012 and

872 1 November 1st of 2012. And then with respect to counts 9 2 through 13, cherry picking individual dates within that 3 same period as to four attempts. It seems to me if it is unclear as to whether it 4 5 is an attempt and/or a complete count, the attempt should 6 caret the subsequent count. 7 Beyond that, counts six through eight, also the 8 attempt count with respect to the same child that fall 9 outside the date or the period alleged in count two. 10 This is what it really comes down to with 11 respect to an attempt. There is a distinction between an 12 attempt and an overt act in furtherance of the conspiracy. 13 By all accounts it would seem that everything 14 that would qualify as an attempt would also qualify as an 15 overt act. But not everything that qualifies as an overt 16 act would qualify as an attempt. 17 To be an attempt, your Honor, it has to have the 18 mens rea to complete the crime by the defendant, and a 19 substantial step to complete the crime. 20 With respect to the attempt counts, all of them, 21 is there a substantial step each time to commit the same 22 crime? By way of an example, I think it is clear that many videos were in fact made. And the defense really 23

comes down to, is it really Joseph Valerio who had them

24

25

made?

873 1 By way of analogy, a person wants another person 2 to commit a bank robbery and sends the person to a bank on 3 five separate occasions, and for whatever reason the 4 person goes to the bank and doesn't do a robbery that day. 5 And each time the person goes to the bank it is certainly 6 an overt act in terms of the actual bank robbery. 7 the end when the person commits a bank robbery, it would 8 seem unfair to categorize the five trips to the bank as 9 five separate attempts. It is better to say attempt to a 10 bank robbery and leave it to the jury as to whether it was 11 one attempt or one completion of a crime. And that 12 completes my presentation, your Honor. 13 MR. BODE: Does your Honor wish to hear from us? 14 THE COURT: Yes. 15 MR. BODE: Your Honor, the defense argument is 16 insufficient for Rule 29. 17 The defense has clearly been hinting at arguing 18 that some of these images were pre-made by Ms. Kalichenko 19 prior to the defendant coming in contact with her, and as 20 such he could not have committed the crime of exploitation 21 because they were already made at that point. 22 Clearly, however, where he sends an email, each

one of those attempts count to a particular email that is

in evidence where he asks that specific acts be done to

the child. He even calls it a script in one of the

23

24

25

874 1 emails, clearly providing a script for the child to be 2 used and asking the child to be abused would constitute as 3 an attempt at child pornography. 4 Moreover, here it is even stronger because he 5 receives videos and acknowledges in the emails he got them 6 and asks for more videos. 7 So clearly there is a substantial attempt. 8 email is a substantial step in an attempt, your Honor. 9 Bank robbery is a poor example, with due respect 10 to Mr. Lato. If we wanted to use a bank robbery as an 11 example, because he obtained it over a period of time and 12 sent the emails over a period of time, it is more that he 13 robbed the bank on one day and got a thousand dollars, and 14 comes back a week later the for another thousand dollars 15 and a week later another. I don't think that example 16 works in this case. 17 For all those reasons and the light most 18 favorable to the government, we believe the Rule 29 motion 19 should be denied. 20 MR. LATO: Can I have the last word since it is 21 my motion, your Honor? 22 THE COURT: Sure. This is your reply. 23 MR. LaPINTA: Because according to the 24 government's case, Mr. Valerio is going through an 25 intermediary, Ms. Kalichenko, who was the actual principal

875 1 doing the child pornography and Mr. Valerio sharing the 2 same mens rea, aiding and abetting and by supplying the 3 money and ordering it, and for Mr. Valerio to be guilty of 4 an attempt, I believe Ms. Kalichenko as an intermediary 5 must have the mens rea to complete the substantive crime. 6 There is no question that there is evidence here 7 that Ms. Kalichenko did intend to make videos. Μv 8 objection is breaking everything up into individual 9 attempts. 10 Because if Ms. Kalichenko cannot be guilty of 11 individual attempts, I don't know that Mr. Valerio can 12 either. 13 THE COURT: All right. 14 I will reserve decision and place the decision 15 on the record later. I just want to get through your 16 witness today. And I wanted to get that done. 17 Let's take a break and then get started. A11 18 right? 19 20 (Whereupon, a recess was taken.) 21 22 23 24 25

876 1 THE COURT: Let's get the jury. 2 MR. BODE: The defense disclosed to us, your 3 Honor, just a few moments ago, that their expert witness, 4 Mr. Gibbs, has they believe a 2000 adjournment in 5 contemplation of dismissal in a domestic violence case. 6 In 2006 he was charged with a felony regarding cocaine and 7 he pled it down to a misdemeanor possession. 8 We are just learning about it now. I sent the 9 agent to get the rap sheet. We are not in a position to 10 argue it yet. But clearly the cocaine conviction is 11 relevant in terms of Mr. Gibbs. But we have not had a 12 chance to formulate an argument yet. It was literally as 13 your Honor was coming out, a couple of minutes before 14 that. 15 THE COURT: When was the cocaine conviction? 16 MR. BODE: 2006. 17 THE COURT: And it was pled down to a possession 18 of cocaine? 19 MR. BODE: Yes, charged with a felony and pled 20 down to a possession. Obviously drug cases can mean 21 different things. It could be use. Or it could be 22 perception. Or if he was selling --23 THE COURT: Do you know any details of the 24 conviction or not? 25 MR. LATO: I can answer that, because I actually

877 1 spoke to the witness about it. 2 THE COURT: You can be seated. 3 MR. LATO: In 2005 it was a traffic stop and he 4 had cocaine in the car and it was pled down. He didn't 5 indicate if it was a sale or with intent to distribute or 6 not. But it was pled down to a misdemeanor conviction for 7 possession of cocaine. That is just it. 8 Now, I'm ready to make the argument if your 9 Honor is ready why it should not come in. 10 THE COURT: No. Based on what I was told it 11 would not come in. But I want the government to have the 12 ability to look through it. 13 The government is precluded from making 14 reference to it at this point. 15 given the hour, we can always have MR. BODE: 16 him back on Wednesday. 17 THE COURT: If you were to come up with 18 something that is relevant, I will allow you to recall him 19 to impeach him. 20 MR. BODE: I can't believe the defense just came 21 up with this five minutes ago. If they learned about it 22 at lunch, we should have been told then to have a chance 23 to address this. 24 MR. LaPINTA: I'm not aware of any obligation to 25 tell him this. They have the guy's name or his CV.

1	878 not obliged to tell them about my witness' convictions.
2	THE COURT: I made my ruling. Let's bring the
3	witness in at this point.
4	(Whereupon, the jury at this time entered the
5	courtroom.)
6	THE COURT: Everyone be seated, please.
7	Members of the jury, as I indicated before the
8	break, the government rested. The government has the
9	burden of proof at all times. And there is no obligation
10	on a defendant to present any evidence. They have a right
11	to do so. Counsel has indicated they wish to present
12	evidence, and I will ask they do so now.
13	MR. LaPINTA: The defendant calls Scott Gibbs.
14	
15	SCOTT GIBBS,
16	called as a witness, having been first
17	duly sworn, was examined and testified
18	as follows:
19	THE CLERK: State and spell your name for the
20	record.
21	THE WITNESS: Scott Gibbs, S-C-O-T-T, G-I-B-B-S.
22	THE COURT: Be seated, Mr. Gibbs. You have to
23	be close to the microphone to keep your voice up.
24	Thank you.
25	MR. LaPINTA: Thank you, your Honor.

6	Go ahead, Mr. LaPinta.	
7	MR. LaPINTA: Thank you.	
8	BY MR. LaPINTA:	
9	Q Mr. Gibbs, did there come a time you were hired on

2	evalı	uation of certain items of technology regarding this
3	inves	stigation?
4	Α	Yes.
5	Q	Did you begin an evaluation of a desktop computer of
6	the	letters did there come a time when you evaluated,
7	investigated, reviewed a computer desktop of the brand	
8	VVTV?	
9	Α	I analyzed a hard drive.
10	Q	And so you were not given access to the actual
11	comp	uter; is that right?
12	Α	No, I was not.
13	Q	You were given access to a copy of the hard drive of
14	that	computer; is that right?
15	Α	Yes.
16	Q	Do you know what size of the hard drive that was?
17	Α	It was a 2.5 inch, it looked like an internal laptop
18	hard	drive.
19	Q	Do you know how many gigabit the hard drive is?
20	Α	The hard drive was approximately 20 gigabits.
21	Q	What is a gigabit?
22	Α	It is 1,024 megabit.
23	Q	How is that relevant when evaluating a computer?
24	Α	It would determine how much data can be stored on
25	that	particular piece of media.

,		31333 B11 3327 E413
1	Q	887 Did you have an occasion to discover what kind of
2	oper	rating system was in that computer?
3	Α	Yes. They had a Windows operating system.
4	Q	What is an operating system?
5	Α	It is software that allows the computer or the mother
6	boar	rd to interface with or to be used by a user.
7	Q	It is basically the manner in which a computer
8	oper	rates; is that right?
9	Α	Yes.
10	Q	What is that program once again?
11	Α	Windows, Microsoft Windows.
12	Q	How old of an operating program was it?
13	Α	It was fairly old. I would say at least 14 years,
14	give	e or take.
15	Q	You said 14 years old?
16	Α	Yes. Give or take, yes.
17	Q	And the operating system that you reviewed, would you
18	say	that that is an outdated system?
19	Α	Yes.
20	Q	That it is an antiquated system?
21	Α	Yes.
22	Q	And that in the past 14 years technology regarding
23	comp	outers has advanced significantly?
24	Α	Yes.
25	Q	You used the forensic software to evaluate this

		GIDDS-DITECT/Lato
1	comp	outer, right?
2	Α	Yes.
3	Q	And that system that you used is called EnCase?
4	Α	Yes.
5	Q	By the way, are you a certified EnCase technician?
6	Α	Yes.
7	Q	Have you been recertified after being initially
8	cert	tified?
9	Α	I am in the process of being recertified now.
10	Q	Is it a process you go through every few years?
11	Α	Yes, there are training requirements.
12	Q	Do you pay for that yourself?
13	Α	Yes, I have.
14	Q	And did you have an occasion to search the hard drive
15	of t	that tower computer we were speaking of?
16	Α	Yes.
17	Q	Did there come a time when you found videos in the
18	inbo	ox of that computer?
19	Α	Yes.
20	Q	What is an inbox?
21	Α	It is a location where email data is stored.
22	Q	Is it fair to say that the emails that were in that
23	inbo	ox were received by email; is that correct?
24	Α	Yes.
25	Q	Were those videos containing contraband or child

1	pornography?	39
2	A Yes.	
3	Q Were they found anywhere else on that hard drive	
4	besides that inbox?	
5	A No. Not anywhere on the hard drive other than that	
6	location.	
7	Q What is the significance of having email videos only	
8	contained in an inbox of a computer?	
9	A It would suggest that the data was not saved or	
10	downloaded to the machine saved outside of the inbox.	
11	Q Does it also indicate that the videos contained in	
12	the inbox were not opened on that computer?	
13	A Yes. It would suggest it was not opened.	
14	Q When I use the word "opened," would you also adopt	
15	the word "viewed"?	
16	A Yes.	
17	Q If those videos were opened in that computer, would	
18	they be contained anywhere else on the hard drive besides	
19	the inbox?	
20	A Yes.	
21	Windows makes a copy of windows or data that ar	е
22	attachments in a temporary storage location.	
23	Q What does the word "artifacts" mean in terms of	
24	computer verification?	
25	A It means some kind of evidence or some type of	

i	0.1330 0.11 000, 200
1	890 digital fingerprint, digital data.
2	Q If videos found in an inbox were viewed or opened on
3	that computer, would there be artifacts of that video
4	contained elsewhere on that hard drive?
5	A Yes.
6	Q Did you find any other artifacts of those videos
7	contained anywhere else in that inbox?
8	A I did not.
9	Q Would you, therefore, conclude from your experience
10	and evaluation and training as a forensic computer
11	evaluator that the videos contained in that inbox, the
12	child pornography videos, were not viewed or opened in
13	that computer or not?
14	A No. I would say they were not viewed or saved to
15	that computer.
16	Q Did your investigation turn after you completed the
17	computer evaluation, did your evaluation then turn to a
18	Samsung four gigabit SD storage card?
19	A Yes.
20	Q Did you use forensic software that you were trained
21	with to evaluate that storage card?
22	A Yes.
23	Q Did you find any child pornography/contraband files
24	on that Samsung storage card?
25	A Yes.

3		Do you recall seeing that file in your
4	eval	uation of this storage card?
5	Α	Yes.
6	Q	I will hereafter refer to that file as the JPG file,
7	okay	??
8	Α	Yes.
9	Q	Did that JPG file contain child pornography?
10	Α	Yes.
11	Q	Were you able to retrieve data or information
12	rega	arding that JPG file from the card?
13	Α	Yes.
14	Q	Did that data include a date that that the card had
15	as w	when the data when the file, the JPG file, was made?
16	Α	Yes, it had created a date.
17	Q	All right.
18		Do you know what that date is?
19	Α	I do not recall.
20	Q	Do you have your report handy?
21	Α	I have my report.
22	Q	Would that refresh your recollection, the report?
23	Α	No. I don't have the date on that for that
24	part	cicular file, no.
25	Q	There were other files aside from the JPG file you

	0.000 0.000, 2000
1	found on that card?
2	A Yes.
3	Q Were there three MP 4 files as well?
4	A Yes.
5	Q What is an MP 4 file?
6	A It is a video file, a compressed video format.
7	Q And they also contain contraband child pornography;
8	is that right?
9	A Yes.
10	Q Were there dates and times regarding those particular
11	files?
12	A Yes.
13	Q Now, regarding the accuracy of those dates and times,
14	do you have any experience in terms of understanding how
15	dates and times are made part of a storage card?
16	A Yes.
17	Q Explain how you know that. How do you obtain dates
18	and times from a storage card?
19	A A device's operating system typically writes
20	metadata, which is data to the file system on a particular
21	piece of media, whether a hard drive or SD card.
22	Q Okay.
23	The date and time on these particular files,
24	could you testify as to the dates and times on that media
25	as to whether they are accurate dates or times?

Ī	0.1300 0.11 000. 2000
1	A I cannot, because metadata can be manipulated.
2	Q What do you mean by the word "manipulated"? Changed?
3	A I mean if someone changes the date and time of a
4	system that is used to create that metadata, then the
5	dates and times reported to the media could be manipulated
6	or falsified.
7	Q Is it fair to say whatever date and time was on that
8	video camcorder, as set there, is what was imbedded on
9	that storage device; is that correct?
10	A Yes.
11	Q Do you have any way of determining at the time the
12	video was created that the date and time were the correct
13	date and time?
14	A I could not.
15	Q Do you have any information from that card that you
16	evaluated whether the date and time on that camcorder was
17	changed after those files were recorded?
18	A I could not; without a log I could not.
19	Q Does that card contain a log to show when dates and
20	times are changed on that camcorder?
21	A No.
22	Q So if I understand you correctly, the evaluation of
23	the metadata on that card cannot indicate whether the date
24	and time, at the time of the recording, was actually
25	accurate; is that right?

	GIBBS-DIT 6CL/Lato
1	894 A That is correct.
2	Q Did you come to learn in the course of your
3	evaluation of that data card whether those images were in
4	fact deleted from that card?
5	A Yes.
6	Q Were you able to determine that there were remnants
7	or pieces of that video that were in fact extracted from
8	that card?
9	A Yes.
10	Q Does the data on that card indicate when those images
11	were deleted?
12	A It does not.
13	Q Does it contain any information regarding date and/or
14	time when they were deleted?
15	A It does not.
16	MR. LaPINTA: That's all I have.
17	THE COURT: Cross-examination?
18	MR. KABRAWALA: Yes, your Honor.
19	May I approach the witness?
20	THE COURT: Yes.

1	CROSS-EXAMINATION 895
2	BY MR. KABRAWALA:
3	Q I would like to see what you were referring to during
4	your testimony, please.
5	A Yes.
6	MR. KABRAWALA: Your Honor, can we have a quick
7	recess, please?
8	THE COURT: Yes.
9	We will take a few minute break.
10	Just go back to the jury room for a few minutes,
11	please.
12	(Whereupon, at this time the jury leaves the
13	courtroom.)
14	MR. BODE: Your Honor, can I ask Mr. Gibbs to
15	be excused?
16	Can I ask his social security number on the
17	record it doesn't have to be on the record, but if he
18	can provide it to counsel, we need to check some things.
19	THE COURT: All right.
20	You don't have to do it on the record, but
21	provide that information to defense counsel.
22	MR. BODE: Thank you, your Honor.
23	
24	(Whereupon, a recess was taken.)
25	

i	
1	896 THE COURT: I understand the government is
2	asking for a social security number, which Mr. Lato is
3	providing.
4	MR. BODE: I would like to have his home
5	address, not for the record, but I would like to compare
6	if we are talking about the same person or not.
7	THE COURT: All right.
8	Mr. Gibbs, would you just step outside for a
9	minute, please. Thank you.
10	(The witness steps out.)
11	THE COURT: What is the issue?
12	MR. BODE: Your Honor, it is hard to read on the
13	Blackberry, but it appears he may have had an arrest as
14	recently as July of this year. We are trying to figure
15	out what it is. He clearly didn't report it to the
16	defense. The picture matches, and it looks like the
17	social is the same social security number. He didn't
18	disclose it and I would like to look into it.
19	THE COURT: Do you have any knowledge of any
20	arrests this year?
21	MR. LATO: No, but I will look into that right
22	now.
23	THE COURT: Okay.
24	(Whereupon, at this time there was a pause in
25	the proceedings.)

897 1 MR. LATO: Your Honor, it is the same person. 2 He did not disclose this to us. I asked him 3 why. 4 In any event, he thought it was only priors. 5 I will tell you what he just told me. 6 He was arrested for driving under the influence 7 of alcohol. It was an intoxicated charge in Manhattan. 8 He said that the case has been lowered to an 9 impaired, which is a violation. He said the reason he 10 didn't tell us, because he said it is not a crime. It is 11 a violation, and it is ongoing. That is where we are. 12 Obviously, your Honor, alcohol use, MR. BODE: 13 and especially very recently, there is a perception issue. 14 What I would ask your Honor is that he come back 15 on Wednesday and give us a chance to look at the law in 16 this area. We didn't get this --17 THE COURT: You had 20 minutes. To go through 18 his background is 10 minutes. 19 You can correct me if I'm wrong, Mr. Bode, but 20 everything he testified to, your expert said the exact 21 same thing. 22 MR. BODE: He did opine -- the difference is him 23 opining that this wasn't open, viewed or looked at. That 24 is what he has indicated as to his opinion testimony. 25 THE COURT: Your expert said he could verify

898 1 that it was opened and viewed on that computer? I don't 2 remember him saying that. 3 Obviously if you look at this -- if you do 4 research with regard to this expert, and there is 5 something you believe admissible, I will have the defense 6 call him back on Wednesday. But I'm skeptical as to 7 whether it is necessary. 8 MR. BODE: There are two areas of 9 cross-examination, one is his perception issues relating 10 to alcohol abuse. He has a prior drug case and an alcohol 11 case of this year. 12 And, two -- three, actually. 13 Two is his bias toward law enforcement. 14 Three, the fact that he didn't disclose it and 15 he is trying to pass this up is quite disturbing. 16 THE COURT: My ruling is that they are not 17 matters you can go into on cross-examination. 18 We have 15 minutes to get this done. 19 MR. BODE: We will get the cross done. And we 20 are asking that he be brought back on Wednesday morning so 21 if necessary we can take it up with him at that time. 22 THE COURT: We will discuss that at 4:30. 23 MR. BODE: Okay. 24 (Whereupon, the jury at this time entered the 25 courtroom.)

ĺ		
1		THE COURT: Will everyone be seated.
2		Mr. Kabrawala, go ahead.
3		MR. KABRAWALA: Thank you, your Honor.

17	the	hard drive?
18	Α	Yes.
19	Q	A Microsoft Outlook Express data file?
20	Α	Yes.
21	Q	And that is an email program, Microsoft Outlook
22	Expr	ress; is that correct?
23	Α	Yes.
24	Q	And the email program was on the hard drive; is that
25	corr	rect?

		902
1	Α	Yes.
2	Q	You found some emails as well, didn't you?
3	Α	Yes.
4	Q	Did you review those emails?
5	Α	I reviewed yes, I reviewed the emails.
6		MR. KABRAWALA: One moment.
7		(Government counsel confer.)
8	Q	You examined a Samsung SD memory card; is that fair
9	to	say?
10	Α	Yes.
11	Q	And you found images of a young girl depicted on that

20	Α	Metadata, yes.
21	Q	And you also found metadata with respect to the
22	crea	ation date of those images?
23	Α	Yes.
24	Q	Some of the metadata indicates the date on which the
25	chi	ld pornography images were created?

	C122C C1 CCC/ Nazi awa ia		
1	903 A I cannot say if it was exactly the case. It is a		
2	possibility that the metadata can be manipulated.		
3	(Government counsel confer.)		
4	Q Mr. Gibbs, I will show you what is marked as		
5	Government's Exhibit 509, 510, 515, 516 and 517.		
6	(Handed to the witness.)		
7	Q Take a look at those images, please.		
8	They are redacted copies of images.

22	Q Those two dates that you testified to, those are the		
23	dates that appeared as the creation date of the images; is		
24	that correct?		
25	A That is the date on the papers, yes.		

i			
1	904 Q And let me show you an exhibit that you created,		
2	Government's Exhibit 102 for Identification.		
3	(Handed to the witness.)		
4	Q This is a document you created. I highlighted it.		
5	According to that exhibit, the images that you		
6	are looking at in front of you, what were the dates of		
7	that creation, their creation?		
8	MR. LaPINTA: Objection.		
9	THE COURT: Ground?		
10	MR. LaPINTA: Foundation.		
11	THE COURT: I thought this is something he		
12	created.		
13	Q Did you create Government Exhibit 102?		
14	A This is this appears to be a printout of a file		
15	listing that I generated in the case.

7	Q	You never confirmed the date on the camera, correct?	
8	Α	I was not presented with this camera.	
9	Q	But it was available to you?	
10		MR. LATO: Objection.	
11		MR. LaPINTA: Objection.	
12		THE COURT: Sustained.	
13	Q	Are you aware that the camera was available to the	
14	defense for the last six months?		
15		MR. LATO: Objection.	
16		THE COURT: Please move on.	
17	Q	You never looked at the date on this camera?	
18	Α	I have not.	
19	Q	You are just saying that it could be possible that	
20	the d	date could be different; is that fair to say?	
21	Α	Umm, sir, could you rephrase that?	
22	Q	Sure.	
23		You are just saying in your direct testimony	
24	that	it could be possible that the date is unreliable?	
25	Α	Yes. It is possible that the date is unreliable.	

1	906 Q But you never turned this camera on to see what the
2	date is on the camera?
3	A I was never presented
4	MR. LATO: Objection.
5	THE COURT: You can answer it, sir. What were
6	you saying?
7	THE WITNESS: I was never presented with that
8	camera.
9	Q So your testimony that the date could be unreliable
10	is really just a theory; is that correct?
11	A No. It is a fact that it could be unreliable.
12	Q It is a fact that it could be reliable or unreliable
13	is a theory?
14	MR. LaPINTA: Objection.
15	THE COURT: Sustained.
16	I think we can move on.
17	Q You are being paid to testify here today; is that
18	correct?
19	A Yes.
20	Q \$750 an hour?
21	A My company is getting paid \$750 an hour.
22	Q You are an owner of the company, part owner; is that
23	right?
24	A I'm not part owner.
25	Q You get a percentage, don't you?

	G1DDS-Cross/Nabrawa1a
1	907 A I get a percentage.
2	Q You are getting paid approximately \$10,000 for this
3	
	case; is that correct?
4	A No. It is a little bit less.
5	Q You are getting paid more than that?
6	A I said it is less.
7	Q You are getting paid a little less than \$10,000?
8	A Yes.
9	Q How much are you getting paid?
10	A Approximately \$9,000 for all the analysis that was
11	performed.
12	Q So \$9,000 for all the analysis, and \$750 an hour for
13	testimony?
14	A No. \$9,000 includes all the analysis that I have
15	done, plus the testimony.
16	Q Your company is being paid over \$30,000 in relation
17	to this case?
18	A Yes.
19	Q The defense paid you to write a report in this case;
20	is that correct?
21	A The defense paid to have the analysis done. The
22	report is part of the services.
23	Q I just want to show you what is marked as I will
24	show you what is marked as Government's Exhibit 1,000 for
25	identification.

,		GIDDS-CIOSS/ Nabi awa ia
1		908 Is that a copy of your report?
2		(Handed to the witness.)
3	Α	Yes.
4	Q	It is a printed copy of your report; is that correct?
5	Α	Yes.
6	Q	The original was a PDF?
7	Α	Yes.
8	Q	And you provided this report in PDF to the defense;
9	is t	that correct?
10	Α	Yes.
11	Q	Knowing that it would go to the government; is that
12	corr	rect?
13	Α	Yes.
14	Q	And PDF is a standard kind of digital file that
15	peop	ole commonly use to send and receive electronic
16	docu	uments?
17	Α	Yes.
18	Q	PDF, like other digital formats, store data?
19	Α	Yes.
20	Q	And PDFs could contain spyware or malware; is that
21	corr	rect?
22		MR. LaPINTA: Objection to the relevance of his
23	opir	nion that was solicited on direct examination.
24		THE COURT: We can have a sidebar.
25

1	909 (Whereupon, at this time the following took
2	place at the sidebar.)
3	THE COURT: What is the relevance?
4	MR. KABRAWALA: Your Honor, the witness
5	implanted spyware in the PDF himself to send him
6	notifications every time the report was opened, who opened
7	it, what their IP address is. This was all sent to a
8	government computer.
9	MR. LaPINTA: No, it is my computer, and I sent
10	it to you.
11	MR. KABRAWALA: Knowing it was coming to the
12	government.
13	MR. BODE: He sent spyware.
14	MR. KABRAWALA: He said he is conducting it in
15	an ethical manner
16	MR. LATO: If I understand correctly, the
17	relevance under 401 is to show that he is attempting to
18	show a corrupt file or plant a virus on the government's
19	computer?
20	MR. KABRAWALA: No, get information, unaccessed
21	information on the government's computer.
22	MR. LATO: He is attempting to spy on the
23	government?
24	MR. KABRAWALA: Yes.
25	MR. LATO: Under 403, I believe this is out.

LATO: Yes, your Honor. 14 THE COURT: All right. 15 16 (Whereupon, at this time the following takes 17 place in open court.) 18 THE COURT: Ladies and gentlemen, the defense 19 has advised me they have some additional evidence to 20 present on Wednesday morning. I don't think it will take 21 longer than a small portion of the morning. 22 We will then proceed at that point to the 23 summations, and then depending on how long that takes, you 24 will get next my instructions on the law. And I don't 25 know how long that takes.

914 1 You may or may not start your deliberations on 2 Wednesday. 3 Sometimes jurors ask if the schedule changes 4 during deliberation, and the schedule is exactly the same, 9:30 to 4:30. So that is the schedule we will be 5 6 following once you start your deliberations. And we will 7 see where we stand. 8 I need to speak to the lawyers about my 9 instructions on the law on Wednesday morning. So why 10 don't you get here at 9:45 so you are not just sitting 11 back there. And we will continue at that point. 12 We will not sit tomorrow. I will see you 9:45 13 Wednesday morning. 14 Do not discuss the case. 15 (Whereupon, at this time the jury leaves the 16 courtroom.) 17 THE COURT: With respect to this witness, I will 18 not order the defense to have him here Wednesday morning. 19 If the government comes up with anything between now and 20 Wednesday morning, you can submit a letter to me. And the 21 defense should obviously watch the ECF over the next day 22 or so, and I will give you a chance to respond to anything 23 submitted. But it is not at this point necessary to have 24 him available Wednesday morning. My ruling is that this 25 is not sufficiently probative of his credibility to

warrant cross-examination under 403.

First of all, I don't think it goes to credibility. Unless government details anything with regard to the conviction -- the current one is not even a conviction; it is simply a pending charge.

So unless the government finds something that goes directly to credibility, my ruling will be the same.

I will also again note that his testimony, I don't think -- if I compare it in my head to what he said to what Mr. LaPinta crossed Detective Forrestal on, I don't see any material difference between what they said.

So my ruling is under 403, that the cross-examination that the government is proposing is substantially outweighed by the danger of unfair prejudice with respect to the collateral issue of this witness' background.

The issue of the spyware, again, under 403, whatever it could be with respect to that, I believe it is substantially outweighed by the danger of unfair prejudice getting into whatever spyware existed in the PDF, as to whether it was intentional or not, in the way of trying to obtain information from the government through that method. And in light of the witness' testimony under 403, it is not warranted.

MR. BODE: If I may, your Honor, and I'm not

916 1 arguing with the Court, but I want the record to be clear, 2 and I know defense counsel wouldn't do this. 3 The program the witness inserted in the PDF is 4 called We Notify. So he actually gets email notifications 5 when the government opens the file. If we forward it to 6 someone else, he knows who we forward it to. It violates 7 the ethics of the organization he says he is certified by. 8 I am just wanting to put it on the record, because that 9 behavior --10 THE COURT: I don't want you to think by my 11 ruling I'm not troubled by the fact -- it is obviously 12 troubling that he coded the PDF. I am troubled by it. 13 But I have to weigh it against Mr. Valerio on trial here. 14 MR. BODE: We accept your ruling, I just wanted 15 it on the record. 16 THE COURT: Who is your next witness? 17 MR. LATO: Frances Valerio. 18 THE COURT: Any issue here? 19 MR. BODE: I asked for an offer of proof from 20 the defense. We requested reciprocal discovery or witness 21 statement with respect to her. 22 And going back to the time of the bail hearing, 23 Mr. LaPinta said at that time he had -- she had mental difficulties, his words, not mine. 24 25 I want an affirmation from the defense that they

917 1 believe she is swearable, or some offer of proof, and no 2 notes or anything whatsoever. 3 THE COURT: What is the subject matter of 4 testimony? 5 MR. LATO: She will overcome those difficulties and testify that Olena Kalichenko was in the house, and 6 7 that -- we will try to show the jury the possibility that it was Olena Kalichenko who took the pictures of 8 9 That she was actually there and saw her. 10 THE COURT: Okay. 11 Obviously the government is going to cross her 12 on whatever mental difficulties she may or may not have. 13 MR. LaPINTA: Sure. 14 MR. LATO: Yes. 15 Consistent with your Honor's ruling, we expect 16 the government may elicit or in fact we may elicit that 17 she posted bail for her son. 18 THE COURT: Any other issues in light of the 19 offer of proof that you anticipate? 20 MR. BODE: No. 21 We don't have an objection to her testimony. 22 THE COURT: Not just an objection, but I'm 23 trying to minimize sidebars. Any areas with regard to 24 impeachment or bias? MR. BODE: If that is the limit of her 25

ı	
1	918 testimony, no problem. But if she goes further than that,
2	the doors may be opened.
3	Also, Mr. LaPinta and I were speaking at the
4	lunch break with regard to the defendant's testimony. And
5	I wanted to have it on the record.
6	THE COURT: It is my practice for the defendant
7	to allocute with respect to his decision. And you can do
8	that now or Wednesday morning.
9	MR. LATO: We will best do it Wednesday morning.
10	And in light of today's testimony, we would like to
11	address it one more time in light of your Honor's inquiry.
12	THE COURT: All right. That will be addressed
13	Wednesday morning.
14	In terms of when everybody gets here, I think
15	9:15 should be sufficient to have the charge conference by
16	9:45.
17	MR. LaPINTA: Yes, sir.
18	MR. BODE: Will we have a proposed charge in
19	advance of that, your Honor?
20	THE COURT: Yes. We will probably post it
21	tonight. If not tonight, then tomorrow morning.
22	MR. BODE: Fine.
23	THE COURT: I didn't see a verdict sheet, I can
24	make it up, but I would prefer you draft one.
25	MR. BODE: We will draft one.

919 1 THE COURT: And block out trial 14, in order to 2 avoid the substantial prejudice, you should return what is 3 blocked out as one through 15, your Honor. 4 MR. BODE: That is simple. We can give a Word 5 version. And we will take care of that. THE COURT: Also eliminate any references of the 6 7 forfeiture statutes that are often in there on the front 8 page. 9 MR. BODE: You want that out of both places, out 10 of the end and out of the caption on the caption page? 11 THE COURT: Right. 12 MR. BODE: We will do that, your Honor. 13 I know the Court is already thinking about it, 14 obviously, but then we won't obviously since the jury 15 doesn't know, but knock on wood, the verdict comes back, 16 we will keep the jury, or release them. And I think the 17 parties agreed that the evidence with respect to 18 forfeiture would be in and it is a matter of doing 19 forfeiture summation. 20 THE COURT: If there is a conviction, you want 21 it before the jury or whatever? 22 MR. LATO: We agreed there will be no additional 23 evidence, and we would want it before the jury. 24 THE COURT: All right. 25 Are there instructions on it?

1	920 MR. BODE: I believe they were filed already by
2	Mr. Kabrawala.
3	MR. KABRAWALA: Yes. I had sent them to
4	chambers.
5	THE COURT: On ECF?
6	MR. KABRAWALA: On ECF and a Word version with
7	chambers.
8	MR. LaPINTA: Do you know when they were sent?
9	MR. KABRAWALA: I copied you on the email.
10	(Counsel confer.)
11	THE COURT: Anything else that we need to
12	discuss today?
13	The proposed charge will be posted probably in
14	an hour or so. It is pretty much similar to the
15	government's charge, which I checked against Sand. There
16	are some differences there between Judge Sand, and you
17	will see it, how I did it. Have a good night.
18	MR. BODE: Thank you.
19	THE COURT: See you Wednesday at 9:15.
20	I will place the ruling on Wednesday in terms
21	of the Rule 29 motion, I want to go back to the emails
22	with regard to the attempt. And I need to go back and
23	look at them.
24	(Case on trial adjourned until 9:15 clock,

THE COURT: All right. So let's move to the instruction. First, let's do it by part. Part one, a series of standard instructions from pages 1 through 31. Any objections or issues from the Government? MR. BODE: No, your Honor. THE COURT: Defense? MR. LATO: No, your Honor. THE COURT: Moving to part two, the elements of the charges, pages 32 to 76. Any objections or issues from the Government? MR. LATO: No, your Honor. THE COURT: Maybe I shouldn't have given them 15 minutes. The verdict sheet I don't think the Government	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	respect to the Government with respect to the special verdict form or forfeiture? MR. BODE: No, your Honor. THE COURT: Defense? MR. LATO: No, your Honor. THE COURT: There is no reference. They will not receive the forfeiture instructions or the verdict form. They will not be told it is an issue until they have reached a verdict with respect to the counts of the indictment, to see whether or not that becomes applicable with respect to the conviction. Then the Government has provided another redacted superseding indictment. Just so I know I'll not compare it, but basically you took out the count. MR. BODE: Took out 14 and renumbered 15 to the end, and took out the forfeiture language from the end of the indictment and the caption. THE COURT: Any objection to the redacted superseding indictment? MR. LATO: No, your Honor. THE COURT: To be clear in terms of what my practice is, the jury will go back simply with the verdict form and the superseding indictment. Nothing else. As we said in our opening remarks, this case is about those two young girls that were sexually exploited. That's what this trial has been about.

Now the law requires the Government to establish the defendant's guilt beyond a reasonable doubt, and this

indicator light, that this camera made those pictures.

You remember where this camera was found? It was found hiding in the basement ceiling, the dropped ceiling. The FBI literally had to take the ceiling down to find this camera.

1 Government's Exhibit 20 is a travel record for 2 Olena Kalichenko. And you heard the customs and border 3 protection officer testify about this. It's a record of 4 anyone coming in and anyone leaving the United States. 5 What does it say? It says: Arrival date,

Where does she stay? She stays at his address. 3 High Great Drive, Smithtown, New York. She spends over a month with him, and she leaves on October 26, 2011. She is at his house presumably from September 22, 2011, for a little over a month. This is the fall of 2011.

When were the pictures of taken? At this point they were taken in September of 2010. This is almost a year later that she comes to his house.

Now, you see the e-mail. She has visited him, 18 Kalichenko has visited the defendant, December 2, 2011. This is Government's Exhibit 561. I feel as well 19 20 baby age is good too, so we are past the torturous waking

. And he says, I'm a great father and man who is very protective with love to my loved ones. Not to 2 3 the point of control, no.

4 In the same e-mail -- this is December of 5 2011 -- what does he say at the end? Sure would like to 6 see some pictures.

They start talking about pictures.

Now, by the next month the defendant takes things in a very different direction.

after of the e-mail we just saw, Government's Exhibit 557. 12 You can read this. I don't need to read this again. He's 13 directing her to do very specific things with her daughter, telling her where the daughter should place the kid's toys. He's telling her if he doesn't see this stuff, I'm going to drop you in the streets. That's how

January 22, 2012, right? That's about a month

That is January.

he's talking to this woman.

The very next day, the defendant sent another e-mail January 23rd. It says: I have plans for you over here, seeing how sexually charged you are in those videos He says: The videos are getting more creative by you with and how you incorporate the toys.

> Then again he spells out exactly what he wants Owen M. Wicker, RPR Official Court Reporter

to see. He says, I'll send out some money.

2 Now, ladies and gentlemen, this e-mail,

3 Government's Exhibit 558, January 23, 2013, is one of

4 eight attempt charges that the defendant is charged with. 5

The Judge will instruct you what an attempt is, 6 and the Judge's instructions control, as the Judge said.

7 Nothing I say should lead you to think otherwise. I'm

simply offering some general explanation. I'll simply

9 offer some general explanation on the law.

With respect to the attempted sexual exploitation of a child charge, eight of them, that simply means that the defendant took some substantial steps to sexually exploit the child. And we submit that the substantial step was the e-mail where he scripts out exactly what he wants to see.

Now the payment of money is not required as a substantial step, but we submit that it is evidence that he was serious about his intention. He says, give me the videos, and I'll send you some money (indicating), right? That's a substantial step.

There are eight attempt charges in addition to many other charges, and we'll talk about those later. But I wanted to flag that for you now because we'll be discussing the attempt charges as we go through the e-mails.

Now, he says he'll send some money. Of course, 2 January 24th, the same day, you see money go out from 3 Joseph Valerio to Kalichenko in Sevastopol, Ukraine, \$150. 4 Government's Exhibit 559, January 24th, this is 5 just the same day now.

This is one of the particularly graphic e-mails, right? Again, he's scripting out what he wants to see,

8 but in this one he says: It is me you see; it's me you

9 hear. It's me who touches you through

10 Then he goes on. He says how he wants her to 11 film it, as if he's a director, right? He wants sort of 12 point-of-view images. He says: Film her from many 13 angles. Let her explore. Make it count. 14

Then he says -- this is the MTCN number. We know what that is. You heard that from the Western Union representative. Charlie Johnson, a unique tracking number associated with each wire transfer done through Western Union.

January 24th, again, another e-mail, all recovered from the defendant's computer. Try to resend those videos from yesterday.

22 And he has movie file names. And you heard from 23 Detective Forrestal that MOV is a movie file. He says, 24 very nice one's with you and

Mr. Valerio is given a fair trial. Those two -- three 1 2 people are the essence of your consideration here and that

3 require your fair understanding and deliberation of these 4 facts.

5 Judge Bianco will soon instruct you on the law 6 that is involved in this case and the rules that will 7 govern your deliberations. You must, must follow those

rules, even if you don't agree with them. The rules he will give you are the cornerstones of our criminal justice

system. They are rules that are indispensable, unavoidable, rules that you must adopt and follow.

The first rule is a rule that Mr. Valerio is presumed an innocent man. And just because he is sitting there at that defense table doesn't mean that he is guilty of anything. He has been merely charged. He has been merely accused.

And while you may have an instinct that because he is seated there at that table he must be guilty of these offenses, you must rid yourself of that instinct because there is no place for that instinct in this courtroom. He is presumed innocent until the prosecutor proves his guilt to you.

23 The government, Mr. Kabrawala, has the burden of 24 proof in this case. And it is only the government that 25 has the obligation and responsibility of proving facts to

> HARRY RAPAPORT. CERTIFIED REALTIME REPORTER Official Court Reporter

1 against him in any way.

2 So if you feel that because Mr. Valerio has not 3 testified in this case and that he must be guilty because 4 he didn't testify, you must also cleanse yourself of that 5 feeling and those instincts. There is no room for that 6 here in this trial.

And lastly, Mr. Valerio as an accused has a right to a fair trial, a fair process, a due process right to a fair trial. He has the right for the uninfluenced disciplined review of his evidence that has been offered against him, that is guided only by the laws and rules that Judge Bianco will give you.

Fairness is not being influenced by theatrics. Fairness is not being influenced by loud comments at counsel table that you heard or may have heard, and by lawyers that point to people in this courtroom. Fairness is also not being influenced or dictated by your emotions.

18 You must set aside your strong emotions in this 19 case. I know you have strong emotions about this case. 20 Everybody has strong emotions about this case in this courtroom. I watched you very closely when you first 22 became involved in this case two weeks ago as prospective 23 jurors. I watched very closely. Because when you were 24 told that this case involves child pornography, your 25 non-verbal cues, your appearances, spoke a lot to me.

> HARRY RAPAPORT. CERTIFIED REALTIME REPORTER Official Court Reporter

Summation/LaPinta

you in this courtroom. An accused -- a defendant or his lawyers -- do not have to prove anything. We don't have to prove that he is innocent.

Mr. Valerio and the defense are not required to prove or disprove a thing.

If you feel anyway that we should have to prove his innocence, you must also rid yourself of those feelings and instincts. They have no room in this courtroom.

Mr. Kabrawala, the government, not only has the burden of proving evidence and guilt, but he must prove that evidence to you beyond a reasonable doubt -- a very high standard that Judge Bianco will instruct you on. He will tell you what reasonable doubt is. He will tell you the quantum of proof or the quality of proof that you need to satisfy yourself of whether that burden has been proven or not proven.

I submit to you that reasonable arguments here will create reasonable doubt.

Also, one of these indispensable important rules is that an accused need not testify on his behalf at this trial. And that is because he has no burden of proving anything. It is his right and his decision not to testify. And his failure to testify, or his decision to testify or not testify, I should say, should not be held

Many of you looked down when you heard this was a child 2 pornography case. Many of you looked away and frowned and 3 grimaced. You bowed your head. 4

I again watched you in this courtroom when those videos were shown. And once again your non-verbal cues spoke very loudly to me, your gestures, your facial expressions, which were very clear. Some of you looked away and some of you even started to cry.

You must please put your emotions aside and consider the evidence in this case objectively and fairly. Emotions are poison to this process. They will destroy and shatter those four important rules that I just briefly explained and that Judge Bianco will instruct you on very shortly.

Look at it this way: Be the type of juror that you would want on your case if you were charged with a serious crime, an emotional crime. Be the type of juror that you would want your father to have if he unfortunately was charged with a serious offense, or your brother, or your son. Be as fair as you possibly can here to be objective and not tainted by instincts or emotion.

Let me now take you through a careful, unemotional review of the evidence in this case. Let me explain to you why I believe the government has failed to meet its burden of proving Mr. Valerio guilty of the

HARRY RAPAPORT, CERTIFIED REALTIME REPORTER Official Court Reporter

1 crimes that he has been charged with.

2 Reasonable doubt follows reasonable arguments.

We started off the evidence in this case by
hearing from an Agent Angelini, a very good looking, tall
agent. He attempted to set a stage for this trial by

6 explaining how he came to know Helena Kalichenko.

However, the stage that he tried to set was not set too sturdily. You first learned when you heard of Ms. Kalichenko of the number of names that she goes by.

The name Helena, the name Olena, the name Elaina, and the name Helena Bright and Helena Kalichenko.

All that should be the first red flag to you that there is something up with this woman. Because it is not common for truthful people, people that don't deceive, people that don't take advantage of others, people that don't extort others, to use more than one name.

Aside from her very names, and her picture that you were shown by the government, you weren't told of much else by Mr. Kabrawala. And that was not on accident. They purposely did not tell you much about Olena Kalichenko because they wanted to shield her of the type of person she really is.

Let's make no mistake about this person, okay?
She is vile. She is evil. She is not worthy of any
credibility.

HARRY RAPAPORT, CERTIFIED REALTIME REPORTER
Official Court Reporter

Summation/LaPinta

But during cross-examination the defense pointed out a number of things about her, about how cold she is, about how calculating she is, how depraved of an opportunist and an extortionist she is.

I'm sure each and every one of you would agree with me that Helena Kalichenko, or any of the other names that she uses, is certainly not worthy of and not deserving of holding the cherished title of mother. As such you should be careful in evaluating what she has said in emails, why she has said what she said in emails, what are her motives for saying what she said, and what are her past actions.

Ladies and gentlemen, she is a scourge on our society stemming across the world, from eastern Europe to Smithtown, New York, and everywhere else she has been in-between. And we will get to where she has been in-between.

Agent Angelini told you that Helena shared with you certain emails in a CD, a CD containing child pornography, and certain emails exchanged between she and the email address joeval5@optonline.net.

Another red flag for you should have been that when she is using two different emails, there is probably good reason for it. You know of two mails she used.

Kalichenkoes@mail.ru, a Russian email service, and a

HARRY RAPAPORT, CERTIFIED REALTIME REPORTER

domestic United States service, brighthelena68@gmail.com.

Besides that, you know nothing else. You know
nothing else about those two accounts. You know nothing
else of who she communicated with in those two accounts.
You know nothing else as far as if or when or how she
transported child pornography to other people on those
accounts, to other people that may have been given child

pornography before she even met Mr. Valerio.

But we do know something about her. We know her goal was to destroy Joseph Valerio.

Now, Agent Angelini was asked by Mr. Lato on cross-examination, what steps did he take in this investigation besides meeting with Olena Kalichenko. And he plainly, flatly told you, not much more.

For whatever reason they will have you say that it was because Olena Kalichenko was a target, and they had plans on arresting her and they didn't want to tip her off.

I will suggest to you something, okay? This is not a dumb woman. She may have done dumb things, but she is not a dumb woman.

She knows that walking into the United States
Embassy in the Ukraine and showing them child pornography
involving her, she knows she is a target. She knows that
the United States of America and the Federal Bureau of

HARRY RAPAPORT, CERTIFIED REALTIME REPORTER

Investigation would want her badly because of what is in

those videos. But she was hiding under this cloak ofdiplomacy and immunity. And we know that because some of

4 the messages that you have heard and seen say that.

So to say that we didn't want to disturb her because we didn't want to tip her off, not good enough for me, especially when there came a time that you learned that Mr. Lato -- he is over there -- told you that she was arrested in July at JFK Airport.

So for whatever reasons, good, bad, stupid, moronic, she made her way here to the United States and she was apprehended.

Where is Helena? Who is Helena?

Now, what is really important here in terms of an investigation -- and he will have you understand and believe that this was a really thorough investigation.

Ladies and gentlemen, this wasn't a thorough investigation at all. There were a lot of things here that were not done that should have been done. There was no evaluation, no attempt being made by reaching the authorities in the Ukraine or anywhere else to find out about that email account. They know, they know that it contained child pornography.

What else is on that email account? What other children are on that email account? When, if there is

other child pornography, was that pornography sent out? 2 And if it was previously sent out before she met Joseph 3 Valerio, was it the same videos that you saw here in this 4 courtroom?

And I will get to that in a bit because there is a lot to say about those videos.

But you may have been told by comment or question about a civil war going on in the United States -- in the Ukraine, and maybe that thwarted their abilities to do any research or investigation. But they know of a second email account that is not impacted by any war, that is not impacted by any civil right dispute going on in the Ukraine.

They have a G-mail account that that woman used to contact an FBI agent directly. And they didn't even bother to issue a judicial subpoena to find out anything about that email account, the G-mail account.

Brighthelena68@gmail.com. It is there for their grabbing. It is there for their evaluation, just as easily as they found out and issued a subpoena about the Cablevision email account, they could have done so that easily with a G-mail account.

They had her sitting inside the FBI office in the United States Embassy in the Ukraine, and they didn't find out where she lived, who she lived with. They didn't conduct any search of any of her premises, abode, apartment house, wherever the hell she lives. Who knows what evidence is in those areas, those houses, whatever they are? 2 Because as I will get to in a second, there is not one

3 bit, not one bit of forensic evidence in this case for you 4

to come to the conclusion that those horrible videos that 5 you saw here were produced as a result of the emails that

6 were sent to her from an optonline account.

They didn't search anything, her property, her electronic devices, any cameras that she had, any cell phones that she had, any computers that she had.

Now that you have heard the evidence in this case -- and by virtue of two expert witnesses that you have seen up there, computer forensic witnesses, you know what metadata is. And you know how powerful the evidence is that involves metadata. Okay?

There are things that touch on the reliability of the metadata, and I will get to that later. But metadata is a tremendous resource for a child pornography investigator. Because the metadata on any kind of electronic device would show when that video was recorded. the month, the day, the time, the year. Because as you saw, unfortunately, on those videos, there is nothing on those videos when you watch them to know when they were recorded, nothing.

The email was sent through attachments. And as you know from your personal experience with computers, and if not, from the two experts, that when an email is attached -- sent with attachments, there is an IP address and a whole slew of other things, letters, dashes, dots. But the attachments does not mean that it is made, created the same day that the email is sent.

To the contrary, Detective Forrestal was asked the very question, and he answered, we don't know when an attachment was made, whether a document attachment or a video attachment. You could attach a video that was made a year ago, a day ago, two years ago, two days ago, three years ago, and so on. There is not one bit of proof in

There were no other electronic devices in that house. They got everything that was there. And none of those electronic devices show that those videos were opened or viewed.

Now, if you think back closely to his direct examination, questions that Mr. Kabrawala asked him, he didn't tell you that. He just said that the emails were on the computer -- the videos were on the computer. Okay?

And I suggest to you that that is misleading. Because it wasn't until I asked him the pointed questions on cross-examination that he then told you that, right, it doesn't mean that they were opened. It doesn't mean that they were viewed on that computer.

So I suggest to you that the testimony that you heard from Detective Forrestal is not exactly thorough, complete and open regarding facts that hurt their case. The fact that they are in the inbox is only a small, small piece of what this case is about.

In fact, all of the emails that are involved in this case from that joeval5@optonline.net account, is a small piece to this case. Okay? It is one dimension to this case. And the other dimensions have to do with -- as

HARRY RAPAPORT, CERTIFIED REALTIME REPORTER

I certainly agree that it is a young child,

2 obviously. But nobody has seen that child.

You may ask why is it relevant that no one hasseen this child? And I will answer it.

Because we don't know how old is now.for all we know could be six, seven or eight years

7 old. I don't know. Because if somebody saw her when8 Helena came forward, and the dating of the emails reflect

9 that those videos were sent maybe nine months, twelve

months, a year, a year and three months beforehand, then

11 maybe that child would be three and a half at the time.

12 But we don't know that. And that is really important

here. Because we don't know that, we don't know thatthose videos were made when they were sent, or as a

product of when they were sent, or upon the emails beingreceived from Olena Kalichenko.

We don't know the age of this child right now, because there was no investigation of that child. That child is someplace in the Ukraine, I would think. And even though Agent Angelini was here to testify, I assure

Regardless of what Forrestal thinks they are about the reliability, he can't tell you, nor could anybody, not even my expert, whether the date/time stamp programmed on that Samsung camcorder was an accurate date/time stamp when it was recorded. That is the key. Okay? We don't know.

Because if it wasn't accurate, if it was off a few months or a few years, whatever it is, then that time stamp is worthless to us. And because nobody has the ability to know what that time stamp was when that recording was made, we are never going to know whether that time stamp is accurate or not. But the metadata revealed two dates, September 10th, 2010, at 3:39 to 3:42 p.m.

But what we do know is that those times are not even accurate. Because Detective Forrestal on cross-examination, and he didn't ask him on direct because he didn't want to bring out the fact that the time was wrong. I brought that out to you on cross-examination. Because in fact, ladies and gentlemen, the time stamp was wrong. It was wrong and off for an hour and 12 minutes.

So why then can't it be that maybe the date was off as well, or the year was off as well? I don't know.

And it is for both dates, for the September 10, 2010 date 2 and the January 19, 2011 date.

3 The computer experts agreed. However, Forrestal 4 says, very reliable.

My expert says, I don't know if it's reliable. And because I have uncertainty about it, it can't be reliable because I don't know what it was programmed when it was recorded.

Now, the significance of all this is that we know, again undisputed, that Olena Kalichenko has been here in the United States. In fact, we know -- excuse 12 me -- that not only has she flown to the United States, 13 but she had flown to Germany, Turkey, France. And within the United States we know she has flown to JFK. Texas and Cincinnati. The poverty stricken Olena Kalichenko is flying around the world.

And their witness, Agent Deep Chopra told you that. He told you that he knows from the itinerary, the records of the Office of Custom and Border Patrol, that she arrived in the United States September 5, 2011 and stayed until December 2, 2011.

21 22 He also knows that she arrived again 23 February 23, 2011 -- excuse me, February 23, 2010 and left 24 March 14th, 2010, where Cincinnati, Ohio was involved. 25 And once again she arrived on June 4th, 2011 and left on HARRY RAPAPORT, CERTIFIED REALTIME REPORTER

here. Because there is no arrival date that corresponds 6 7 with a departure date that they know about.

The testimony of Mr. Chopra is available for you to review. It is clear. It is there, and it is unquestioned.

Now, why am I so troubled about the Border and Custom Patrol not having the ability to account for her travels? Because in our post 9/11 era, that is a problem. It is a big problem. And it is especially a big problem when you are dealing with a woman who is traveling a lot around this world that is involved in child pornography.

So what you are dealing with here, ladies and gentlemen, regarding the itinerary, the flights in and out of this country, they are not just red flags that the FBI should have picked up. But they are red flags that are slapping them in the face. Something is up here. This woman is evading Customs and Border Patrol when she travels. It is actually shocking, shocking, that there is an incomplete record of her travels in and out of this country.

I suggest to you that if they were lying, they could have lied a lot better because Bernadette was very honest in telling you she couldn't tell you the dates she saw Olena Kalichenko at the Smithtown residence, nor could the mother, Frances.

When you are in a federal courthouse, facing exploitation of a child, you better make sure if you are an investigator that the time you are writing down on the report, the file you are putting down on the report is accurately written, because if it is not accurate it could be a different file.

It is cases like this one, involving children -not our children, but they are our children -- every child in our society should be considered our children. These are our children.

When we deal with innocent helpless children, we want to protect them. We want to do the right thing for our children.

As I told you earlier in my summation, that it is okay to want to do the right thing for a child. It is actually the right thing to do. We should all do the right thing for our children. But we also have to do the

possession counts that are involved in this indictment.

And when you consider the various attempt charges, two words are going to be very relevant in that statute. Whether the acts of Mr. Valerio in requesting pornography of a child were substantial steps that were taken -- substantial steps.

And I argue to you that an email request of anything -- an email request of anything -- could be an insubstantial or a non-substantial step in producing child pornography. Because it is going to come back to the real question -- really the big one -- whether those videos have been proven to you beyond a reasonable doubt to have been produced because of the emails that were sent to her.

I will offer you the following conclusions: Olena Kalichenko is an evil opportunist that has been extorting Mr. Valerio and may be extorting men around the world. Because there may be proof in the fact that she is flying everywhere, that this woman really has a lot of money. I don't know. Neither do they.

She may very well have many different videos that we do not know about that were previously produced. For all we know she may have a library of child pornography in her home, in her apartment, or wherever she is, on her computers or tablets or phone. We don't know.

If anyone is going to point the finger 9 here, the finger should be pointed to this table because 10 they are the ones that have the burden of proof here. 11 They are the ones that have to prove these elements of 12 these federal crimes to you beyond a reasonable doubt.

We have gone through this. It is somebody from a local tri-state IP address. You can see who is using the account because he is talking about things that happened in New York.

Kalichenko didn't hack into it. She didn't just -- let's go with this for a second. If Kalichenko hacked into his email account, so she sent herself dozen of emails specifically directing child pornography to be produced, and made the emails and emailed them to the 22 defendant, and somehow hacked into his computer, and put them on his computer, and then asked him for money, right? Let's go with this. She asked him for money, and he sent her money via Western Union. And she picked it up in

Why would she come up 4 with an elaborate scheme that lasted two years that she 5 had to produce child pornography as a result of it, or she 6 is paid to, I should say?

7 She is not a saint. She is a horrible person. 8 That is what she is. She exploited her child for money. 9 and that the defendant had paid her.

Let's talk about another hypothetical.

She left October 26th, 2011.

She is not in the country. You saw the first email between them, hey, how are you doing? Do you want to get to know each other? What do you do? Where do you live? Do you want to go out?

That is in the summer of 2011. She is not even here. She gets here and visits him months after that email.

Let's entertain the hypothetical possibility that Kalichenko, the super hacker that she is, somehow HARRY RAPAPORT. CERTIFIED REALTIME REPORTER Official Court Reporter

came to the defendant's house before they even met, a year

before she was even in the country at this time, staying

5 pictures of her naked. And somehow set the date of the

video camera to be two different years, right? A few

7 months apart. And she built this contraption with the

tool belt she was carrying and her power drill. By the

9 way, this is all while everyone is eating upstairs, having

10 dinner, and she is building this thing that weighs a lot 11 and there is a secret camera in it.

12 After she is done building that, she dresses the 13 kids up, several costume changes.

14 And then she takes the camcorder and puts black 15 tape over it to hide the indicator light. She hides this 16 expensive camera in the ceiling. Nobody notices it for 17 three or four years that it is hidden in the ceiling.

Then she -- I guess what she must have done then is, she goes back home to the Ukraine, gets a time machine, and she goes back in time and resets the time on the video camera to make it today's date.

Even if you were to believe that, and even if that were somehow possible within the realm of reality, what is the financial incentive? Why would she make videos, child pornography images of

The defendant begins the trial here with a clean slate. This presumption of innocence alone is sufficient to acquit a defendant unless you as jurors are unanimously convinced beyond a reasonable doubt of his guilt after a careful and impartial consideration of all of the evidence in this case. If the government fails to sustain its burden, you must find the defendant not guilty.

This presumption was with the defendant when the trial began and remains with him even now as I speak to you and will continue with the defendant into your deliberations unless and until you are convinced that the government has proven his guilt beyond a reasonable doubt.

I will now give you instruction regarding proof beyond a reasonable doubt.

I have said that the government must prove the defendant quilty beyond a reasonable doubt. The question

> Stephanie Picozzi, CRR, RPR Official Court Reporter

CHARGE OF THE COURT

1049

- naturally is what is a reasonable doubt? The words almost
- 2 define themselves. It is a doubt based upon reason and
- 3 common sense. It is a doubt that a reasonable person has
- 4 after carefully weighing all of the evidence. It is a
- 5 doubt which would cause a reasonable person to hesitate to
- 6 act in a matter of importance in his or her personal life.
- 7 Proof beyond a reasonable doubt must, therefore, be proof
- 8 of such a convincing character that a reasonable person
- 9 would not hesitate to rely and act upon it in the most
- 10 important of his own affairs. A reasonable doubt is not a
- 11 caprice or whim. It is not a speculation or suspicion.
- 12 It is not an excuse to avoid the performance of an 13 unpleasant duty and it is not sympathy.

In a criminal case, the burden is at all times upon the government to prove guilt beyond a reasonable doubt. The law does not require that the government prove guilt beyond all possible doubt. Proof beyond a reasonable doubt is sufficient to convict. This burden never shifts to the defendant which means that it is

19 always the government's burden to prove each of the 20 21 elements of the crimes charged beyond a reasonable doubt.

If, after fair and impartial consideration of all of the evidence you have a reasonable doubt, it is your duty to acquit the defendant. On the other hand, if after a fair and impartial consideration of all of the

> Stephanie Picozzi, CRR, RPR Official Court Reporter

evidence you are satisfied of the defendant's guilt beyond a reasonable doubt, you should vote to convict.

3 I wish to instruct you now as to what is 4 evidence and how you should consider it.

5 The evidence upon which you are to decide what 6 the facts are comes in several forms:

- 7 1, sworn testimony of witnesses, both on direct 8 and cross-examination:
- 9 2, exhibits that have been received in evidence 10 by the Court;

And 3, facts or testimony to which the lawyers have agreed or stipulated.

What is not evidence.

Certain things are not evidence and are to be disregarded by you in deciding what the facts are. I will list them for you now.

17 These things are not evidence:

- 18 1, the contents of the indictment are not 19 evidence.
- 20 2, arguments or statements by lawyers are not 21 evidence.
- 22 3, questions put to the witnesses are not 23 evidence.
- 24 4, objections to the questions or to offered 25 exhibits are not evidence.

Stephanie Picozzi, CRR, RPR Official Court Reporter

CHARGE OF THE COURT

- 5 sustained, ignore the question. If the objection was

- 9 you are to disregard the testimony.
- 10 5, what I say in these instructions is not 11 evidence.
- 12 6, if evidence has been received for a limited purpose, you must consider that evidence for that limited 13 14 purpose only.
 - 7, obviously, anything you may have seen or heard outside the courtroom is not evidence.

17 Your verdict must be based solely upon the 18 evidence developed at trial or the lack of evidence.

19 It would be improper for you to consider in 20 reaching your decision as to whether the government 21 sustained its burden of proof any personal feelings you may have about the defendant's race, religion, national 22

2 In addition, it would be equally improper for 3 you to allow any feelings you might have about the nature

4 of the crimes charged to interfere with your

5 decision-making process. To repeat, your verdict must be

6 based exclusively upon the evidence or lack of evidence in 7 the case.

I told you that evidence comes in various forms such as the sworn testimony of witnesses, exhibits and stipulations. There are in addition different kinds of evidence, direct and circumstantial.

Direct evidence is the communication of a fact by a witness who testifies to the knowledge of that fact as having been obtained through one of the five senses. So for example, a witness who testifies to knowledge of a fact because he saw it, heard it, smelled it, tasted it or touched it is giving evidence which is direct. What remains is your responsibility to pass upon the credibility of that witness.

Circumstantial evidence is evidence which tends to prove a fact in issue by proof of other facts from which the fact in issue may be inferred.

The word "infer" or the expression "to draw an inference" means to find that a fact exists from proof of another fact. For example, if a fact in issue is whether

- it is raining at the moment, neither of us can testify
- 2 directly to that fact sitting as we are in this windowless
- 3 courtroom. Assume, however, that as we are sitting here,
- 4 a person walks into the courtroom wearing a raincoat that
- 5 is soaking wet and carrying an umbrella dripping water, we
- 6 may infer that it is raining outside. In other words, the
- 7 fact of rain is an inference that could be drawn from the
- 8 wet raincoat and the dripping umbrella. An inference is
- 9 to be drawn only if it is logical and reasonable to do so.
- 10 In deciding whether to draw an inference, you must look at
- 11 and consider all of the facts in the light of reason,
- 12 common sense and experience. Whether a given inference is
- 13 or is not to be drawn is entirely a matter for you, the
- 14 jury, to decide. Please bear in mind, however, that an

15 inference is not to be drawn by guesswork or speculation.

I remind you once again that you may not convict the defendant unless you are satisfied of his guilt beyond a reasonable doubt, whether based on direct evidence, circumstantial evidence or the logical inferences to be drawn from such evidence.

Circumstantial evidence does not necessarily prove less than direct evidence nor does it necessarily prove more. You are to consider all the evidence in the case, direct and circumstantial, in determining what the facts are and in arriving at your verdict.

> Stephanie Picozzi, CRR, RPR Official Court Reporter

The fact one party called more witnesses and

1 2 introduced more evidence than the other does not mean that

3 you should necessarily find the facts in favor of the side

4 offering the most witnesses. By the same token, you do

5 not have to accept the testimony of any witness who has

not been contradicted or impeached if you find the witness 6

7 not to be credible. You also have to decide which

8 witnesses to believe and which facts are true. To do this

9 you must look at all the evidence drawing upon your own

10 common sense and personal experience. After examining all

11 the evidence, you may decide that the party calling the

12 most witnesses has not persuaded you because you do not

13 believe its witnesses or because you do believe the fewer

14 witnesses called by the other side. 15

In a moment I will discuss the criteria for evaluating credibility. For the moment, however, you should keep in mind that the burden of proof is always on the government and the defendant is not required to call any witnesses or offer any evidence since he is presumed to be innocent.

My next instruction relates to the rulings and statements that I made during the course of this trial. Please do not concern yourself with my reasons for making the rulings that I made. These are purely legal matters and must not affect your deliberation on the factual matters in this case. Nor are you to draw any inferences for or against a party because that party raised objections during the course of the case. It is the duty of the attorneys on each side of the case to object when the other side offers testimony or other evidence which the attorney believes is not properly admissible. You should not hold against an attorney or the defendant either because the attorney has made objections or because some of those objections may

CHARGE OF THE COURT

1057

1 Remember that in making your determination as to 2 the facts, you should rely upon your own recollection of 3 the evidence. What I said from time to time during the 4 course of the trial or what I say in the charge that I am now giving you should not be taken in place of your own 5 6 recollection of the evidence in this case.

I will now give you an instruction regarding

witness credibility. You have had an opportunity to observe all of the witnesses. It is now your job to decide how believable each witness was in his or her testimony. You are the sole judges of the credibility of each witness and of the importance of his or her testimony. It must be clear to you by now that you are being called upon to resolve various factual issues under the counts of the indictment in the face of the very different pictures painted by the government and the defense which cannot be reconciled. You will now have to decide where the truth lies, and an important part of that decision will involve making judgments about the testimony of the witnesses you have listened to and observed. In making those judgments,

21 22 you should carefully scrutinize all of the testimony of

23 each witness, the circumstances under which each witness

24 testified and any other matters in evidence which may help

25 you to decide the truth and the importance of each

Official Court Reporter

witness' testimony.

2 Your decision whether or not to believe a 3 witness may depend on how that witness impressed you. Was

4 the witness candid, frank and forthright? Or did the

5 witness seem as if he or she was hiding something, being

6 evasive or suspect in some way? How did the way the

7 witness testified on direct examination compare with how

8 the witness testified on cross-examination? Was the 9 witness consistent in his or her testimony or did he or

10 she contradict himself or herself? Did the witness appear

11 to know what he or she was talking about and did the

12 witness strike you as someone who was trying to report his

13 or her knowledge accurately?

> How much you choose to believe a witness may be influenced by the witness' bias. Does the witness have a relationship with the government or the defendant which may affect how he or she testified? Does the witness have some incentive, loyalty or motive that might cause him or her to shade the truth or does the witness have some bias. prejudice or hostility that may have caused the witness consciously or not to give you something other than a completely accurate account of the facts he or she testified to?

Even if the witness was impartial, you should consider whether the witness had an opportunity to observe

- the facts he or she testified about and you should also
- 2 consider the witness' ability to express himself or
- 3 herself. Ask yourselves whether the witness' recollection
- 4 of the facts stands up in light of all other evidence.
- 5 In other words, what you must try to do in deciding
- 6 credibility is to size a person up in light of his or her
- 7 demeanor, the explanations given and in light of all the
- 8 other evidence in the case, just as you would in any
- 9 important matter where you are trying to decide if a

10 person is truthful, straightforward and accurate in his or 11 her recollection.

12

accept it with great care.

In deciding the question of credibility, remember that you should use your common sense, your good judgment and your experience.

In evaluating credibility of the witnesses, you should take into account any evidence that the witness who testified may benefit in some way from the outcome of this case. Such an interest in the outcome creates a motive to testify falsely and may sway the witness to testify in a way that advances his or her own interests. Therefore, if you find that any witness whose testimony you are considering may have an interest in the outcome of this trial, then you should bear that factor in mind when evaluating the credibility of his or her testimony and

This is not to suggest that every witness who 2 has an interest in the outcome of a case will testify 3 falsely. It is for you to decide to what extent, if at 4 all, the witness' interest has affected or colored his or 5 her testimony.

6 You have heard evidence that a witness made a 7 statement on an earlier occasion which counsel argues is 8 inconsistent with the witness' trial testimony. Evidence 9 of the prior inconsistent statement was placed before you 10 for the limited purpose of helping you decide whether to 11 believe the trial testimony of the witness who 12 contradicted himself. If you find that the witness made 13 an earlier statement that conflicts with this trial 14 testimony, you may consider that fact in deciding how much 15 of his trial testimony, if any, to believe.

In making this determination, you may consider whether the witness purposely made a false statement or whether it was an innocent mistake, whether the inconsistency concerns an important factor, whether it had to do with a small detail, whether the witness had an explanation for the inconsistency, and whether that explanation appealed to your common sense.

It is exclusively your duty, based upon all the evidence and your own good judgment, to determine whether the prior statement was inconsistent and if so how much.

> Stephanie Picozzi, CRR, RPR Official Court Reporter

CHARGE OF THE COURT

1061

if any, weight to be given to the inconsistent statement 2 in determining whether to believe all or part or none of 3 the witness' testimony.

4 I gave you instruction regarding expert 5 testimony during the trial. I will repeat that to you 6 now.

You have heard during the course of this trial the testimony of individuals referred to as experts in their fields. If scientific, technical or other specialized knowledge will assist the jury to understand the evidence or to decide a disputed fact, a witness with a particular knowledge, skill, experience, training or education may be called to testify about such evidence or facts in issue in the form of an opinion.

The rules of evidence ordinarily do not permit witnesses to testify to opinions or conclusions. An exception to this rule exists for those we call expert witnesses who may state their opinions and who may also state the reasons for their opinion.

You should consider the witness' opinion received in this case and give it such weight as you may 22 think it deserves. If you should decide that the opinion of the witness is not based upon sufficient education and experience, or that the reasons given in support of the opinion are not sound or that the opinion is outweighed by

Stephanie Picozzi, CRR, RPR Official Court Reporter

1 other evidence, you may disregard the opinion entirely. 2 In sum, the expert witness is in all other 3 respects the same as any other witness. You should 4 consider his or her qualifications, his or her experience, 5 his or her interest in the outcome of the case, if any, 6 his or her demeanor and all the other factors you have 7 been instructed to consider in assessing the credibility 8 of other witnesses.

You have heard testimony of witnesses who work for law enforcement and the government. The fact that a witness may work for law enforcement or the government does not mean that his or her testimony is necessarily deserving of more or less consideration or greater or lesser weight than that of an ordinary witness.

At the same time, it is quite legitimate for defense counsel to try to attack the credibility of a law enforcement or a government employee witness on the grounds that his or her testimony may be colored by a personal or professional interest in the outcome of the case.

It is your decision, after reviewing all the evidence, whether to accept the testimony of the law enforcement and the government employee witnesses and to give to that testimony whatever weight, if any, you find it deserves.

> Stephanie Picozzi, CRR, RPR Official Court Reporter

CHARGE OF THE COURT

1063

1 I will now give you an instruction regarding 2 defendant's right not to testify.

The defendant did not testify in this case. Under our Constitution, a defendant has no obligation to testify or to present any evidence because it is the government's burden to prove the defendant's guilt beyond a reasonable doubt. That burden remains with the government throughout the entire trial and never shifts to a defendant. A defendant is never required to prove that he or she is innocent.

You may not attach any significance to the fact that the defendant did not testify. No adverse inference against him may be drawn by you because he did not take the witness stand. You may not consider this against the defendant in any way in your deliberations in the jury room.

You have heard testimony about evidence seized from the defendant during searches at the defendant's house. Evidence obtained from these searches was properly admitted in this case and may be considered by you. Whether you approve or disapprove of how it was obtained should not enter into your deliberations because I now instruct you that the government's use of this evidence is entirely lawful.

You must, therefore, regardless of your personal Stephanie Picozzi, CRR, RPR Official Court Reporter

There has been evidence that the defendant made certain statements in which the government claims he admitted certain facts charged in the indictment.

In deciding what weight to give the defendant's statements, you should first examine with great care whether each statement was made and whether in fact it was voluntarily and understandingly made. I instruct you that you are to give the statements such weight as you feel they deserve in light of all the evidence. However, if you find that the statement was either involuntary or not knowingly made, you may not consider it in any way.

The law does not require any party to call as witnesses all persons who may have been present at any time or place involved in the case or who may appear to have some knowledge of the matter in issue at this trial. Nor does the law require any party to produce as exhibits all papers and things mentioned during the course of the trial.

There is no legal requirement that the government prove its case through any particular means. While you are to carefully consider the evidence adduced

CHARGE OF THE COURT

- by the government, you not to speculate as to why agents
- 2 used the techniques they did or why they did not use other
- 3 techniques. The government is not on trial. Law
- 4 enforcement techniques are not your concern. Your concern
- 5 is to determine whether or not, on the evidence or lack of 6
- evidence, the defendant's guilt has been proved beyond a 7 reasonable doubt.

In alleging dates, the indictment charges "on or about" certain dates. The proof need not establish with certainty the exact date of an alleged offense. The law only requires the evidence establish beyond a reasonable doubt that the dates alleged in the indictment and the dates established by the testimony or exhibits are

13 14 substantially similar. 15 You have heard evidence about the involvement of 16

another person in some of the events referred to in the indictment. You may not draw any inference favorable or unfavorable towards the government or the defendant from the fact that certain persons are not on trial before you or are not named as defendants in this particular case. That this individual is not on trial before you or is not

22 named as the defendant in this case is not your concern.

23 You should neither speculate as to the reason people are 24 not on trial before you nor allow their absence as parties

25 to influence in any way your deliberation in this case.

> Stephanie Picozzi, CRR, RPR Official Court Reporter

During the course of the trial, you may have

1 2 heard testimony that attorneys interviewed witnesses when

3 preparing for and during this trial. You must not draw

4 any unfavorable inference from that fact. On the contrary

5 attorneys are obliged to prepare their case as thoroughly

as possible and in the discharge of that responsibility 6

7 interview witnesses in preparation for the trial and from 8 time to time as may be required during the course of the

9 trial.

The attorneys for the United States and the attorneys for the defendant have entered into stipulations concerning certain facts that are relevant to this case. A stipulation of fact is simply an agreement among the

13 14 parties that a certain fact is true. You should regard

15 such agreed facts as true. However, what weight to give

16 those facts is entirely up to you. You are the sole

First, with respect to the motion, the standard is well settled for Rule 29 the Court should grant the motion if it concludes that no rational trier of fact will find the defendant quilt beyond a reasonable doubt based

- 4 based on circumstantial evidence; United States v.
- 5 D'Amato, 39 F.3d, 1249, at page 1256, Second Circuit 1954.

- 7 witnesses with the jury rather than the Court to
- 8 determine; United States v. Strauss, 999, F.2d 692, page

10 That is the standard the Court has applied here and concludes that for each of the counts of the 12 indictment, there is more than sufficient evidence for the 13 jury, if the government's evidence is credited and all

14 reasonable inferences are drawn in favor of the government

15 from that evidence, to rationally convict the defendant on

16 each and every count of the indictment.

I won't go through all the details of the evidence. In summary, the two searches of the defendant's home, including the SD card in the computer hard drive, the Western Union records, the e-mails and defendant's statements to law enforcement in terms of the major

- 22 categories of proof that the government offered are
- 23 sufficient if the jury credits that evidence for the jury
- 24 to rationally find that the defendant possessed child
- 25 pornography on his computer and on the SD card and that

Stephanie Picozzi, CRR, RPR

Official Court Reporter

- they were his. They could rationally find e-mails were
- 2 sent to him, to Ms. Kalichenko and that the child
- 3 pornography involving was received by him. They
- 4 could similarly conclude based upon that evidence that as
- 5 was noted by the government in the summation, specific
- 6 e-mail conspiracy issues, that there is an agreement
- between Kalichenko and the defendant that she would 7
- 8 exploit, sexually exploit, in videotapes sent to
 - the defendant in exchange for money.

10 The jury can also rationally find based on 11 e-mails and other evidence in the case that by paying for 12 the videos and providing the script for the videos that he

- aided and abetted the exploitation of 13
- 14 Ukraine outside the United States. The issue obviously
- 15 that was raised by the defense with respect to whether or
- 16 not the videos were preexisting, again, if the evidence is
- 17 construed most favorably to the government in terms of
- 18 what was being requested in the e-mails, what was received
- 19 back in those e-mails in therms of the videos, the timing
- 20 of the videos, all the evidence, the circumstantial
- 21 evidence viewed most favorably to the government can
- 22 support a rational finding those videos were not
- 23 preexisting but were made only after the defendant made
- 24 the request for the videos to be produced.

25 In terms of the charge involving the Stephanie Picozzi, CRR, RPR Official Court Reporter

- 1 jury could rationally find based upon the location of the
- 2 images and the control over the house, the camera and the
- 3 other circumstantial evidence presented with respect to
- 4 that, the circumstance surrounding the image, the
- 5 testimony of the sister, not the images themselves but
- 6 defendant's involvement for filming the daughter for
- 7 modeling purposes, if all that circumstantial evidence is
- 8 taken together, the jury viewed those favorably to the
- 9 government, the jury can certainly rationally find Mr.
- 10 Valerio sexually exploited his and produced the
- 11 images found on the SD card and adduced the
- 12 engage in sexually-explicit conduct and can rationally
- 13 find in the government's favor on that count as well.

I want to focus more particular on Mr. Lato's specific argument as relates to whether or not there is sufficient proof for each of the attempt counts constituting an attempt and whether or not those counts are multiplicitous of a sexual exploitation count which I

MR. LATO: Yes, your Honor.

understand is your argument.

THE COURT: First I want to focus on whether or not there is sufficient proof of attempt, sufficient proof on each charge for there to be attempt as that is defined under the law.

- each e-mail that is the subject of a separate count to
- 2 review it, to see whether or not a jury could rationally
- 3 conclude that each e-mail constituted a separate attempt
- 4 to commit the crime. And my conclusion is that they
- 5 could.

6

7

Just with respect to the standard for attempt, I read the instruction to the jury and, obviously, that is

- 8 the law but let me state there are two cases that I
- 9 reviewed in particular on this issue that set out what the
- 10 law requires in the Second Circuit for attempt. One is
- 11 United States v. Desposito, 704, F.3d 221, Second Circuit,
- 12 2013. In summary, the government has to show that the
- 13 defendant took a substantial step toward committing the
- 14 crime that was strongly corroborative, firmness of the
- 15 defendant's criminal intent. And that case cites to
- 16 another case, a terrorism case. United States v. Farhane.
- 17 634, F.3d 127, Second Circuit 2011, which is a very long
- 18 discussion about the substantial step requirement for
- 19 attempt.

21

22

25

Again, I will not repeat it here. I want the record clear I have reviewed that standard in applying it to the evidence presented before me.

23 I also note there are a number of cases out

24 there that discuss, not in this circuit, but informative

on this issue of whether or not a solicitation to commit a

Stephanie Picozzi, CRR, RPR Official Court Reporter

substantial step could be found by the jury with respect

- to each one of these e-mails to assist in the exploitation
- 3 of the child in the Ukraine, sexual exploitation of the
- 4 child in the Ukraine and the e-mails are strongly
- 5 corroborative of criminal intent based on the details of
- 6 what is to be done and the discussion of money and other
- 7 things that will be provided or not be provided depending

8 on whether the instructions are followed.

9 I want to make clear also this is not multiple 10 discussions about one video being produced and there is

multiple discussions about directions regarding that 12 video. If the evidence is construed most favorably to the

13 government, the jury could find certainly that a number of

14 videos are being created as a result of the direction and

15 then more directions being given for additional videos to

16 be done. And there are numerous references in the videos

17 to having received the videos, wanting more videos. And

18 as I will go through tomorrow, there are a couple of

19 instances that I looked at very carefully because the

20 e-mails were in one instance a day apart, in another

21 instance six or seven days apart. I wanted to ensure that

22 the two e-mails didn't relate to the same request for some

23 type of exploitation to be done. And I think, again, when

24 those e-mails are construed most favorably to the

25 government, the jury could find even in one of those is Stephanie Picozzi, CRR, RPR

- crime itself can be an attempt. There are two cases that 1
- 2 discuss this and conclude that it can -- don't conclude
- always an attempt but they certainly conclude that a 3
- 4 solicitation under certain circumstances can itself
- 5 constitute an attempt. One is United States v. American
- 6 Airlines, Inc. which was an anti-trust case, 743 F.2d
- 7 1114, Fifth Circuit, 1984, and United States v. Rovetuso,
- 8 768, F.2d 809, Seventh Circuit, 1985, which discusses the
- 9 fact a solicitation depending upon the circumstances can 10 constitute in and of itself an attempt.

11 Here, I want to make clear although I cited the 12 case of the e-mails that I reviewed in connection with 13 each of those counts, it's more than just a solicitation

14 where, for example, an e-mail said could you send me child

15 pornography, as the government pointed out during

16 summations or trial. Each of those e-mails give specific

17 direction. One e-mail refers to a script. So it's a

18 solicitation combined with specific directions on how it

19 is to be carried out, often when it should be carried out

and in many instances providing money in the form of MTCN 20

21 number references, money that is provided, has been

22 provided, will be provided. So many of these also include

an element of payment or promise of payment.

I conclude that each one of these e-mails separately could constitute an attempt because a Stephanie Picozzi, CRR, RPR

miles away, even the ones close together the defendant was

seeking additional new videos of . not one that he

3 previously requested in a prior e-mail that's the subject 4 of a separate count.

I will briefly go through that tomorrow and I will deal with the multiplicity issue, if there are convictions on each count; that can be dealt with at

6 7 8 sentencing. 9 Why don't we stop for now it's 4:30 and we will

10 get started at 9:30. I did want to mention a couple of 11 objections during the summation. One I sustained because

12 the government made reference to Ms. Kalichenko not being

13 able to testify. I sustained that objection because I

14 don't think that's something that the jury should

speculate about or should be commented on by the 16 government. The other two I overruled. One Mr. LaPinta

17 made early on to the government referring to e-mails,

18 that's an attempt charge. There was an objection I

19 overruled. The government can argue whether an e-mail

20 constitutes an attempt. And one in the rebuttal the

21 government suggested to -- I believe what the defense said

22 you have to believe the agents -- law enforcement

23 witnesses were lying. It is true that certainly Mr.

24 LaPinta focused on aspects if you believe what was said

25 suggests other things -- claim other things they had done

I think, obviously, I told the jury it's all argument whether or not the evidence would support that or whether or not that was	I-N-D-E-X W-I-T-N-E-S-S-E-S FRANCES VALERIO DIRECT EXAMINATION BY MR. I believe the lawyers on both sides did an excellent job for their clients, very civilized in dealing with the Court trying to make the trial run smoothly. I appreciate that. MR. substantive counts, the attempts occur within the same 2 time frame would have to be merged at sentencing. No 3 reason to go into that. THE COURT: The theory would be if he was 4 5 convicted of the substantive count and the attempt counts, 6 I would not be sentencing on attempts, just the 7 substantive. There is actually -- I have to look at it more carefully. I didn't mean to deal with it yesterday. 9 Some Courts suggest vacating attempt convictions. Some 10 say as long as you don't sentence, you don't have to 11 vacate. 12 MR. LATO: They talk about merging. There is no 13 merge mechanism. What it means, I assume, to vacate some 14 of the counts but the reality is if there is conviction on 15 the substantive counts, the attempts in the same time 16 period are superfluous and the government I guess won't 17 object at that point because if the Second Circuit were to 18 reverse with respect to the substantive, they could

THE COURT: I agree but we will address that ifwe need to.

Have a good night.

THE COURT: Good morning. All right. All the jurors are here. So are we ready to proceed with the instructions.

6 MR. KABRAWALA: Yes, Judge. 7

MR. LAPINTA: Yes, your Honor. THE COURT: Let's bring them in.

My practice with the alternates is to tell them to go home and continue with their lives and not to discuss the case with anyone and not read anything about the case.

13 MR. KABRAWALA: That is acceptable to us, your 14 Honor.

15 MR. LATO: That is acceptable to us, your Honor. 16 (Whereupon, the jury at this time enters the 17 courtroom.)

THE COURT: Good morning, members of the jury. We, as you know will now continue with my instructions to you on the law and then you will begin your deliberations.

As you will recall I gave you part one. I'm now going go to part two. As I said yesterday even though I divided it up yesterday in two parts, obviously you are to consider it as a whole together. I'm estimating it will take an hour-and-a-half. If you need a break at any point

Jury Charge

1081

1 I'll stop and I'll give everybody a break. Maybe I'll give the court reporter a break if I think it is going on too long.

Part two. The legal elements of the charged crimes.

I will now turn to the second part of this charge, and I will as I indicated at the outset, and instruct you as to the legal elements of the crimes charged in the indictment. That is to say I will now instruct you as to the specific elements of the crimes charged, each of which the Government must prove beyond a reasonable doubt to warrant a finding of guilt.

In order to place my instructions in context, I will start by giving you a summary of the crimes charged. They are stated in the indictment. The indictment is not evidence; rather, it is simply the instrument by which the charges are brought. It is an accusation. It may not be considered by you as any evidence of the guilt of the defendant. To the contrary, the defendant is presumed innocent until proven guilty beyond a reasonable doubt. I am permitting you to have the indictment solely as a reference during your deliberations.

After summarizing the charges, I will instruct you in detail as to the law for you to apply to each charge in the indictment. And finally I will tell you

some further rules with respect to your deliberations.

2 First, the summary of the indictment. The 3 indictment in this case contains 15 counts, or separate 4 charges or offenses.

5 Count 1 carriages the defendant with conspiracy 6 to sexually exploit a child, namely, Jane Doe #1, who has 7 been identified during this trial as having the initials 8 SK.

Counts Two and Three charge the defendant with sexual exploitation of a child, namely, Jane Doe #1.

11 Count Four charges the defendant with 12 transportation of child pornography, namely, images 13 depicting Jane Doe #1.

Count Five charges the defendant with receipt of child pornography, namely, images depicting Jane Doe #1.

16 Count Six through Thirteen charge the defendant 17 with attempted sexual exploitation of a child, namely, 18 Jane Doe #1, on specific dates in 2012.

Count Fourteen charges the defendant with sexual exploitation of a child, namely, Jane Doe #2, who has been identified in this trial as having the initials SI.

22 Count Fifteen charges the defendant with 23 possession of child pornography.

You must consider each count separately and return a verdict based only upon the evidence as it

Jury Charge

1083

1082

relates to that specific count. Whether you find the 2 defendant not guilty or guilty as to one offense should 3 not affect your verdict as to any other offense charged.

4 Your verdict as to each count must be unanimous.

I have summarized the counts in the indictment simply to give you an overview of the charges. In your deliberations as to each count you should refer to the exact text of the indictment bearing in mind at all times the indictment is merely an accusation and not evidence against the defendant.

I will now explain to you the law that applies to each of the counts in the indictment, beginning with Counts Two and Fourteen, and then addressing the other charges in the indictment.

As you will hear in a moment, I will discuss certain counts together, because certain counts charge the defendant with violations of the same statute, but allege the violation occurred on different dates, or, with respect to Count Fourteen, with respect to different victims. However, I caution you that you must consider each count separately.

22 So I will start with Counts Two and Fourteen: 23 Sexual exploitation of a child.

Counts Two and Fourteen of the indictment charge the defendant with sexual exploitation of a child.

On or about and between September 10, 2010 and January 19, 2011, both dates being approximate and inclusive, within the Eastern District of New York and elsewhere, the defendant Joseph Valerio did knowingly and intentionally employ, use, persuade, induce, entice and coerce a minor, to wit, Jane Doe #2, an individual whose identity is known to the grand jury, to engage in sexually explicit conduct, for the purpose of producing one or more visual depictions of such conduct which visual depictions were produced and transmitted using materials that had been mailed, shipped and transported in and affecting interstate and foreign commerce by any means, to with: One or more digital cameras, memory cards and computer equipment, and such visual depictions were actually transported and transmitted using a means and facility of interstate and foreign commerce and which were in and affecting interstate and foreign commerce.

Counts Two and Fourteen of the indictment charge the defendant with violating section 2251(a) of Title 18 of the United States Code. That section provides in relevant part, now quoting from the statute, any person would employs, uses, persuades, induces, entices or coerces any minor to engage in any sexually explicit conduct for the purpose of producing any visual depiction of such conduct or for the purpose of transmitting a live

I'll move to the elements of the offense.

In order to prove the defendant guilty of sexually exploiting a child the Government must prove each of the following three elements beyond a reasonable doubt.

First: That the individual with the initials SK who is identified as Jane Doe #1 in Count Two of the indictment and the individual with the initials SI who is identified as Jane Doe #2 in Count 14 of the indictment. were under the age of 18 when the visual depictions were made:

Second: That the defendant used or employed or persuaded or induced or enticed or coerced SK and SI to take part in sexually explicit conduct for the purpose of producing or transmitting a visual depiction of that conduct, and.

As I will explain in greater detail in a few moments, the Government can meet its burden of proof on Count 2 by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to sexually exploit SK.

As to Count 14 the Government must prove beyond a reasonable doubt that the defendant used or employed or persuaded or induced or enticed or coerced SI to take part in sexually explicit conduct for the purpose of producing or transmitting a visual depiction of that conduct.

The words "used" and "employed" are words of common usage, and I instruct you to interpret these words by using your common sense. The words persuade, induce and entice are in effect synonyms, which convey the idea of leading or moving another by persuasion or influence, as to some action, state of mind, etc., or to bring about, produce or cause.

The word "induce" also means to stimulate the occurrence of or cause.

The word "coerce" means to compel by force. intimidation or authority, without regard for individual desire or volition.

The word "producing" in this context means

Jury Charge

1089

producing, directing, manufacturing, issuing, publishing, or advertising.

A "visual depiction" includes any photograph, film, video or picture, including undeveloped film and videotape, and data stored on computer disk or by electronic means which is capable of conversion into a visual image.

A "visual depiction" includes videos and images transmitted via live web cam even where such images are not stored permanently.

You may consider all of the evidence concerning the defendant's conduct when deciding whether the Government has proven that the defendant acted for the purpose of producing or transmitting a visual depiction of the sexually explicit conduct, or aiding and abetting another person to do so, as the case may be for Count 2.

Definition of sexually explicit.

Sexual explicit conduct means actual or simulated sexual intercourse, including genital-genital, oral-genital, digital-genital, anal-genital, or oral-anal, whether between persons of the same or opposite sex; bestiality; masturbation; sadistic; or masochistic abuse or lascivious exhibition or the genitals or pubic area of any person.

The term "lascivious exhibition" means a

depiction which displays or brings to view to attract

2 notice to the genitals or pubic area of children in order

3 to excite lustfulness or sexual stimulation in the viewer.

4 Not every exposure of the genital or pubic area

5 constitutes a lascivious exhibition. You should consider

6 the following questions:

> A. Whether the focal point of the visual depiction is on the child's genitals or pubic area or whether there is some other focal area;

B. Whether the setting of the visual depiction makes it appears to be sexually suggestive, for example, in a place or pose generally associated with sexual activity;

C. Whether the child is displayed in an unnatural pose, or in inappropriate attire, considering the age of the child;

D. Whether the child is fully or partially clothed, or nude, although nudity is not in and of itself lascivious;

E. Whether the visual depiction suggests sexual coyness or a willingness to engage in sexual activity.

F. Whether the visual depiction is intended or designed to elicit a sexual response in the viewer.

Of course in order for a visual depiction to be lascivious all six factors need to the to be present and

Jury Charge

1091

1090

the list of factors is not mandatory, exclusive or

2 exhaustive. Instead, you must determine whether the

3 visual depiction is lascivious based on its overall

4 content, taking into account the age of the minor. It is

5 for you to decide the weight or lack of weight to be given

6 to these or any other factors you find relevant.

In deciding whether the Government has proven that the defendant acted for the purpose of producing or transmitting a visual depiction of the sexually explicit conduct, you may consider all of the evidence concerning his conduct. While the Government must prove that he 12 acted with the purpose of producing a visual depiction of sexually explicit conduct, it is not required that the Government prove that the visual depiction of that conduct was actually produced.

The third element of sexual exploitation of a child: Effect on interstate commerce.

The third element of sexual exploitation of a child that the Government must prove beyond a reasonable doubt is that the visual depiction was transported or transmitted in or affecting interstate or foreign commerce 22 or using a facility of interstate and foreign commerce or that the defendant knew or had reason to know that the visual depiction would be mailed or transported in or affecting interstate or foreign commerce, or that the

Simply stated, the phrase "transported or transmitted in or affecting interstate or foreign commerce" means that the materials used to produce the visual depiction had previously moved from one state to another or between the United States and another country.

I instruct you that transmissions of photographs or video by means of the internet constitutes transportation in interstate commerce. However, you must find beyond a reasonable doubt that the specific depiction in question was actually transmitted by means of the internet, or that the defendant knew or had reason to know that the visual depiction would be transmitted by the internet.

Additionally, if a visual depiction of sexually explicit conduct as I have defined that term, is stored on a digital camera, other type of recording device or digital media disk, and the camera, recording device or digital media disk crosses from one state to another, that is sufficient to satisfy the interstate commerce element.

Furthermore, it is sufficient to satisfy the interstate or foreign commerce element if the visual depiction of sexually explicit conduct is recorded or

Jury Charge

1093

stored on a device that was made either outside of the State of New York or in a foreign country.

I'm now moving to Count 3. Sexual exploitation of a child outside the United States.

Count 3 of the indictment charges the defendant with sexual exploitation of a child, namely Jane Doe #1, occurring outside of the United States.

Count 3 of the indictment reads as follows.

Reading from the indictment.

On or about and between April 1, 2012, and November 1, 2012, both dates being approximate and 12 inclusive, within the Eastern District of it New York and 13 elsewhere, the defendant Joseph Valerio together with 14 others, did knowingly and intentionally employ, use, 15 persuade, induce, entice, and coerce a minor, to wit, Jane 16 Doe #1 to engage in sexually explicit conduct outside of 17 the United States, its territories and possessions, for 18 the purpose of producing one or more visual depictions of 19 such conduct intending that such visual depictions would 20 be transmitted and transmitted to the United States, its 21 territories and possessions, using a means and facility of 22 interstate and foreign commerce and mail, and which visual 23 depictions were actually transported and transmitted to 24 the United States, its territories and possessions, using

a means and facility of interstate and foreign commerce

1 and mail.

2 Count 3 of the indictment charges the defendant 3 with violating section 2251(c) of Title 18 of the United 4 States Code. That section provides in relevant part, 5 quoting the statute.

6 Any persons who employs, uses, persuades, 7 induces, entices or coerces any minor to engage in or who 8 has a minor assist any other person to engage in, any 9 sexually explicit conduct outside the United States, its 10 territories or possessions for the purpose of producing 11 any visual depiction of such conduct, intending such 12 visual depiction to be transported to the United States, 13 its territories or possessions, by any means, including by 14 using any means or facility of interstate or foreign 15 commerce or mail, or transporting such visual depiction to 16 the United States, its territories or possessions, by any means, including by using any means or facility of 18 interstate or foreign commerce or mail shall be guilty of 19 a crime.

In order to prove the defendant guilty of sexually exploiting a child, the Government must prove each of the follow four elements beyond a reasonable doubt.

First that the individual with the initials SK who was identified in the indictment as Jane Doe #1 was

Jury Charge

1095

1094

under the age of 18 years at the time of the acts alleged 2 in the indictment.

Second, that the defendant, together with other person, either employed, used, persuaded, induced, enticed, or coerced S.K. to engage in sexually explicit conduct outside the United States, its territories or possessions as I've already defined those materials to you, or (b), had S.K. assist another person or persons to engage in sexually explicit conduct outside the United States, its territories, or possessions;

Third, that the defendant did so for the purpose of producing a visual depiction of such conduct, as I have already defined the term "visual depiction" and;

Fourth, that the defendant, (a) intended such visual depiction to be transported to the United States, its territories, or possessions by any means, including by using mail or by any means or facility of interstate or foreign commerce or (b) the defendant did transport or aided and abetted another person in transporting such visual depiction to the United States, its territories or possessions by any means, including by using mail or any means of facility of interstate or foreign commerce, as I have already defined those terms for you.

As I mentioned earlier and as I will explain in greater detail momentarily, the Government can meet its

burden of proof on Count 3 by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to carry out such acts.

If you find from your consideration of all the evidence that the Government as proved each of these elements beyond a reasonable doubt as to Count 3, then you should find the defendant guilty of that charge.

If, on the other hand, you find from your consideration of all the evidence that the Government has failed to prove any one of these elements beyond a reasonable doubt as to Count 3, then you should find the defendant not guilty of that charge.

 $\label{eq:interpolation} I \mbox{ will now give you an instruction regarding aiding and abetting.}$

With respect to certain counts in the indictment, I instruct you that the Government can meet its burden of proof either by proving that the defendant did the acts charged himself or by proving that he aided and abetted another person in carrying out the acts charged: those counts are Counts 2 and 3, charging the defendant with sexual exploitation of a child; Count 4, charging the defendant with transportation of child pornography; and Count 5, charging the defendant with receipt of child pornography.

I have already instructed you on Counts 2 and 3

Jury Charge

and I will instruct you on Counts 4 and 5 in a moment.

Let me now take time now to explain to you the

law concerning aiding and abetting.

The Government is relying on aiding and abetting under section 2(a) of Title 18 of the United States Code which provides that, reading from the statute, whoever commits an offense against the United States or aids, abets, counsels, commands, induces or procures its

commission, is punishable as a principal, end of quote.

Accordingly, even if the defendant did not personally do every act constituting an offense you may find that he committed that offense if the Government proves beyond a reasonable doubt that he aided and abetted the offense. This means that if you find that the defendant knowingly and willfully aided and abetted another person in the commission of a crime, he is as guilt as if he personally committed it.

Under the aiding and abetting statute, it is not necessary for the Government to show that a defendant himself physically committed the crime with which he is charged in order for the Government to sustain its burden of proof.

A person who aids or abets another to commit an offense is just as guilty of that offense as if he committed it himself. The essence of aiding and abetting

1 is the intentionally and knowing participation in the2 unlawful act by furthering it in some way.

Before you can convict a defendant on the ground
that he aided and abetted the commission of the crimes
charged, you must first find beyond a reasonable doubt
that another person committed that crime.

In order to aid or abet another to commit a crime, it is necessary that the defendant willfully and knowingly associate himself in some way with the criminal venture, that he participate in it out of a desire to make the crime succeed, that is, a defendant must have the specific intent of furthering the criminal offense through some action on his part.

The mere presence of a defendant where a crime is being committed, even coupled with knowledge that a crime is being committed or the mere acquiescence by the defendant in the criminal conduct of others, even with guilty knowledge, is not sufficient to establish aiding and abetting. An aider and abetter must have some interest in the criminal venture. That interest need not be a financial one, but you may consider the presence or absence of a financial interest in making your determination.

In other words, if one, fully aware of what he is doing, plays a significant role in facilitating a

Jury Charge

transaction prohibited by law, he is equally guilty withthe person who directly performs the illegal acts, even

3 though the latter played a much greater or major part in

the preparation of the crime.

To determine whether the defendant aided and
abetted the commission of the crime charged, ask
yourselves these questions.

8 Did he participate in the crime charged as9 something he wished to bring about?

10 Did he associate himself with the criminal11 venture knowingly and willfully?

Did he seek by his actions to make the criminal venture succeed?

If your answer to each of these questions is "yes" then the defendant is an aider and abettor and therefore guilty of the crime charged just as if he himself had actually committed it.

If on the other hand your answer as to any of these questions is "no," then the defendant is not an aider and abettor under 18 USC section 2(a), and you must find him guilty of the crime under consideration as an aider and abettor under section 2(a).

I'm now moving to Counts 6, 7, 8, 9, 10, 11, 12, and 13: Attempted sexual exploitation of a child.

I will now explain to you the law that applies

Counts 7 through 13 are identical to Count 6, except each count charges the defendant with attempted sexual exploitation of a child on a separate date. So I'll not read the language for each of those counts. I'll tell you what each count corresponds to, the date, I'll give you the count and the approximate date as alleged in the indictment with respect to the sexual exploitation of a child.

10 Count 7, January 24, 2012. 11 Count 8, March 28, 2012. 12 Count 9, April 4, 2012. 13 Count 10, July 16, 2012.

14 Count 11, July 22, 2012.

15 Count 12, September 6, 2012.

16 Count 13, September 27, 2012.

Counts 6 through 13 of the indictment charge the defendant with violating section 2251(e) of Title 18 of the United States Code. That section provides, in relevant part: Any individual who attempts to violate 18 U.S.C. Section 2251(a) which makes it a crime to sexually exploit a minor shall be guilty of a crime, end of quote.

In order to prove that the defendant attempted to exploit a child, the Government must prove beyond a reasonable doubt the following two elements:

First: That the defendant intended to commit 2 the crime of sexual exploitation of a child, namely, the 3 individual identified as Jane Doe #1.

I have already instructed you on the elements of the offense of sexual exploitation of a child and those instructions apply equally here to these counts.

Second: That the defendant willfully took some action that was a substantial step in an effort to bring about or accomplish the crime.

Mere intention to commit a specific crime does not amount to an attempt. In order to convict the defendant of an attempt, you must find beyond a reasonable doubt that the defendant intended to commit the crime charged and that he took some action which was a substantial step toward the commission of crime.

In determining whether a defendant's actions amounted to a substantial step toward the commission of the crime, it is necessary to distinguish between mere preparation on the one hand and the actual doing of the criminal deed on the other.

Mere preparation which may consist of planning the offense or of devising, obtaining, or arranging a means for its commission is not an attempt, although some preparations may amount to an attempt. The acts of a person who intends to commit a crime will constitute an

Jury Charge

1103

1102

attempt where the acts themselves clearly indicate an 2 intent to willfully commit the crime, and where the acts 3 are a substantial step in a course of conduct planned to 4 culminate in the commission of the crime.

Factual or legal impossibility is not a defense to a charge of attempting to commit a crime if the crime could have been committed, had the relevant factual or legal circumstances been as the defendant believed them to be.

In other words, a person is guilty of an attempt to commit a crime if, acting with the kind of culpability otherwise required for the commission of the crime, he intentionally engages in conduct which would constitute the crime if the relevant factual and legal circumstances were as he believed them to be.

To prove that the defendant attempted to sexually exploit a child, the Government does not need to prove that a visual depiction of sexually explicit conduct, terms I've already defined for you was actually produced or transmitted.

Nor does the Government have to prove that the visual depiction was actually transported or transmitted in or affecting interstate commerce. It is sufficient for the Government to prove that the defendant intended that the visual depiction would be transported or transmitted

I'm now moving to Count 1, conspiracy to sexually exploit a child.

Count 1 of the indictment charges the defendant with conspiracy to sexually exploit a child, namely, Jane Doe #1. Count 1 of the indictment reads as follows. Quoting from the indictment.

On or about and between April 1, 2012 and November 1, 2012, both dates being approximate and inclusive, within the Eastern District of New York and elsewhere, the defendant Joseph Valerio together with others, did knowingly and intentionally conspire to employ, use, persuade, induce, entice and coerce a minor, to wit, Jane Doe #1, an individual whose identity is known to the grand jury, to engage in sexually explicit conduct

7 were produced and transmitted using materials that had

8 been mailed, shipped and transported in and affecting

9 interstate and foreign commerce by any means, to wit: One

10 or more mobile telephones, digital cameras and digital

11 media disks, and such visual depictions were actually

12 transported and transmitted using a means and facility of

13 interstate and foreign commerce and which were in and

14 affecting interstate and foreign commerce, contrary to

Title 18, United States Code, Section 2251(a), end quote.

Count 1 of the indictment charges the defendant

with violating section 2251(e) of Title 18 of the United

18 States Code, that section provides in relevant part:

19 Quoting the statute. Any individual who conspires to

20 violate this section, 18 U.S.C. 2251(a), which makes it a

crime to sexually exploit a minor shall be guilty of a

> I have already instructed you on the elements of the offense of sexual exploitation of a child and those instructions equally apply here even though I will not

repeat them now. 1

> The essence of the charge of conspiracy is an understanding or agreement between or among two or more persons that they will act together to accomplish a common objective that they know is unlawful.

6 You should understand that a conspiracy is an 7 offense separate from the commission of any offense that 8 may have been committed pursuant to the conspiracy. That 9 is because the formation of a conspiracy, of a partnership 10 for criminal purposes, is in and of itself a crime. Thus, 11 if a conspiracy exists, even if it should fail in 12 achieving its purpose, it is still punishable as a crime. 13 Also, you may find the defendant guilty of the crime of 14 conspiracy even if the substantive crime that was the 15 object of that conspiracy -- here, sexual exploitation

There are two elements of the crime of conspiracy and the Government must prove each of the following two elements beyond a reasonable doubt.

of a child -- was not actually committed.

First: That two or more persons entered the unlawful agreement charged in the indictment -- in this case, the sexual exploitation of a child.

Second: That the defendant became a member of the conspiracy with knowledge of its criminal goal or goals and with the intent to help the conspiracy achieve

Jury Charge

1107

1106

its criminal goals by his own actions.

2 Let me start with the first element. A 3 conspiracy is a combination or agreement of two or more 4 persons to accomplish an unlawful purpose.

In order for the Government to satisfy this element, you need not find that the alleged members of the conspiracy met together and entered into any express or formal agreement to sexually exploit a child. Similarly you need not find that the alleged conspirators stated in words or writing what the scheme was, its object or purpose, or every precise detail of the crime or the means by which its object or purpose was to be accomplished. In addition, the Government need not prove that the defendant actually committed sexual exploitation of a child.

The Government must, however, prove that there was a mutual understanding either spoken or unspoken between two or more people to cooperate with each other to accomplish an unlawful act, specifically sexual exploitation of a child.

Since conspiracy is by its nature characterized by secrecy, direct proof may not be available. You may, therefore, infer the existence of the conspiracy from the circumstances of this case and in the conduct of the parties involved. In a very real sense, then, in the context of conspiracy cases, actions often speak louder

than words. In this regard, you may, in determining whether an agreement existed here, consider the actions and statements of all those who are found to be participants as proof that a common design existed on the part of the persons charged to act together to accomplish an unlawful purpose.

The second element the Government must prove beyond a reasonable doubt is that a defendant became a member of the charged conspiracy with knowledge of its goal or goals and intended by his actions to help it succeed. The key question is whether the defendant joined the conspiracy with an awareness of at least some of the basic aims and purposes of the unlawful agreement. Whether the defendant acted knowingly and willfully may be proven by the defendant's conduct and by all of the facts and circumstances surrounding the case.

You may ask yourselves whether the defendant participated in the conspiracy with knowledge of its unlawful purpose and with the specific intent of furthering its objective. In that regard it has been said for a defendant to be deemed a participant in a conspiracy he must have had some stake in the outcome. It is important for you to note that a defendant's participation in the conspiracy may be established by independent evidence of his or her own acts or statements, as well as

Jury Charge

those of other alleged co-conspirators, and the reasonable inferences which may be drawn from them.

The defendant's knowledge is a matter of inference from the facts proved. In that connection, I instruct you that to become a member of the conspiracy, the defendant need not have known the identities of each and every other member of the conspiracy, nor need he have been apprised of all of their activities. Moreover, the defendant does not need to have been informed of all the details or the scope of the conspiracy in order to justify an inference of knowledge on his part.

Furthermore, the defendant need not have joined in all of the conspiracy's unlawful objectives.

The extent or duration of the defendant's participation has no bearing on the issue of the defendant's guilt. Indeed, each member may perform separate and distinct acts and may perform them at different times. Some conspirators play major roles, while others play minor parts in the scheme. An equal role is not what the law requires. In fact, even a single act may be sufficient to draw the defendant within the ambit of the conspiracy. If you find that the conspiracy existed and if you further find that the defendant participated in it knowingly and willfully, the extent or degree of his participation is not material. Moreover, it

is not required that a person be a member of the conspiracy from its very start.

I want to caution you that the defendant's mere presence at the scene of an alleged crime does not by itself make him a member of the conspiracy.

Similarly, mere association with one or more members of the conspiracy does not automatically make the defendant a member. A person may know or be friendly with a criminal without being a criminal himself or herself.

I also want to caution you that mere knowledge or acquiescence without participation in the unlawful plan is not sufficient. The fact that the acts of a defendant without knowledge merely happened to further the purpose or objectives of the conspiracy does not make the defendant a member of the conspiracy. More is required under the law. What what is necessary is that the defendant must have participated with knowledge of at least some of the purposes or objectives of the conspiracy, and with the intention of aiding in the accomplishment of those unlawful ends.

In sum, a defendant with an understanding of the unlawful character of the conspiracy must have intentionally engaged, advised or assisted in it for the purpose of furthering the illegal undertaking. He thereby becomes a knowing and willing participant in the unlawful

Jury Charge

agreement -- that is to say, a conspirator.

If you find that the government has proven each of the two elements of the crime alleged in Count 1 -- conspiracy to exploit a child -- beyond a reasonable doubt, you should find the defendant guilty on Count 1. If the Government fails to prove any one element, you must find the defendant not guilty as to Count 1.

I have admitted into evidence against the defendant the acts and statements of others because these acts and statements were committed by persons who the government charges were also confederates or co-conspirators of the defendant in the conspiracy charged in Count 1.

The reason for allowing this evidence to be received against the defendant has to do with nature of the crime of conspiracy. A conspiracy is often referred to as a partnership in crime. Thus, as in other types of partnerships, when people enter into a conspiracy to accomplish an unlawful end, each and every member becomes an agent for the other co-conspirators in carrying out the conspiracy.

Accordingly, the reasonably foreseeable acts, declarations, statements, and omissions of any member of the conspiracy and in furtherance of the common purpose of the conspiracy are deemed, under the law, to be the acts

Case 2:14-cr-00094-JMA Document 148-1 Filed 06/16/17 Page 600 of 667 PageID #: 1665
Jury Charge

of all of the members, and all of the members of the conspiracy are deemed responsible for such acts, declarations, statements, and omissions.

If you find beyond a reasonable doubt that the defendant was a member of a conspiracy charged in the indictment then any reasonably foreseeable acts done or statements made in furtherance of the conspiracy by persons also found by you to have been members of that conspiracy, may be considered against the defendant.

This is so even if such acts were done and such statements were made in the defendant's absence and without his knowledge. However, before you may find that the statements or acts of a co-conspirator should be considered as tending to show the defendant's guilt you must first determine that the acts and statements were made during the existence and in furtherance of the conspiracy.

Let me give you an instruction regarding "consent not a defense to sexual exploitation of a child."

Whether or not the minor consented to engaging in sexually explicit conduct is irrelevant, as as the consent or voluntary participation of the minor is not a defense to the charge.

Moving to Count 4, transportation of child pornography.

Jury Charge

Count 4 of the indictment charges the defendant with transportation of child pornography, namely, images depicting Jane Doe #1. Count 4 of the indictment reads as follows:

"On or about and between April 1, 2012 and November 1, 2012, both dates being approximate and inclusive, within the Eastern District of New York and elsewhere, the defendant Joseph Valerio together with others did knowingly and intentionally transport and ship, using a means and facility of interstate and foreign commerce, and in and affecting interstate and foreign commerce, one or more visual depictions, to wit, images depicting Jane Doe #1 engaged in sexually explicit conduct, the production of such visual depictions having involved the use of a minor engaging in sexually explicit conduct, and such visual depictions were of such conduct.

conduct, and such visual depictions were of such conduct.

Count 4 of the indictment charges the defendant with violating section 2252(a)(1) of Title 18 of the United States Code. That section provides in relevant part. Reading from the statute: Any person who knowingly transports or ships using any means other facility of interstate or foreign commerce or in or affecting interstate or foreign commerce by any means including by computer or mails, any visual depiction, if, (A), the producing of such visual depiction involves the use of a

minor engaging in sexually explicit conduct, and, (B),
 such visual depiction is of such conduct, shall be guilty
 of a crime end of quote.

In order to prove the defendant guilty of transporting child pornography, the Government must prove each of the following elements beyond a reasonable doubt.

First, that the defendant together with others, knowingly transported a visual depiction. You have already been instructed on the meaning of the term "visual depiction" and those instructions apply equally here.

Second, that the visual depiction was transported in interstate or foreign commerce or the visual depiction was produced using materials that had been transported in interstate or foreign commerce or that the offense was committed in the special maritime and territorial jurisdiction of the United States.

I have already instructed you what it means for a visual depiction to be actually transported in interstate or foreign commerce and they apply equally here.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, as I've already explained that term to you and portrays that minor engaged in that conduct.

Fourth, that the defendant knew that the

Jury Charge

production of that visual depiction involved the use of a
 minor engaging in sexually explicit conduct and portrayed
 a minor engaged in that conduct.

As I will explain to you in just a moment, an act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason.

In this case, the term "knowingly" refers to an awareness of the sexually explicit nature of the material and to the knowledge that the visual depictions were in fact of an actual minor engaged in that sexually explicit conduct.

The Government must show that the defendant had knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge as to the identity or actually age of the minor depicted, but the defendant must have knowledge -- excuse me, but the defendant must have knowledge other an awareness that the material contained a visual depiction of a minor engaging in sexually explicit conduct. Such knowledge may be shown by direct or circumstantial evidence or both.

Eyewitness testimony of the defendant's viewing of the material is not necessary to prove her awareness of its contents, his or her awareness of its contents; the circumstances may warrant an inference that he was aware

I just want to emphasize, although I've given you this instruction regarding this count, this definition of "knowingly" that I've given you applies to all counts as that term is used.

I remind you that the Government can meet its burden of proof on Count 4 by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to transport child pornography.

Count 5, receipt of child pornography.

Count 5 of the indictment charges the defendant with receipt of child pornography, namely, images depicting Jane Doe #1.

Count 5 of the indictment reads as follows: Quoting. On or about and between April 1, 2012, and November 1, 2012, both dates being approximate and inclusive, within the Eastern District of New York and elsewhere, the defendant Joseph Valerio, together with others, did knowingly and intentionally receive one or more visual depictions, to wit, images depicting Jane Doe #1 engaged in sexually explicit conduct using a means and facility of interstate and foreign commerce and which visual depictions had been mailed and shipped and

Jury Charge

1117

1 transported in and affecting interstate and foreign commerce, the, the production of such visual depictions having involved the use of one or more minors engaging in sexually explicit conduct and such visual depictions were of such conduct, end quote.

Count 5 of the indictment charges the defendant with violating section 2252(a)(2) of Title 18 of the United States Code. That section provides in relevant part. Quoting from the statute.

Any person who knowingly receives, or 11 distributes any visual depiction, using any means or 12 facility of interstate or foreign commerce or that has 13 been mailed or has been shipped or transported in or 14 affecting interstate or foreign commerce or which contains 15 materials which have been mailed or so shipped or 16 transported by any means including by computer, or 17 knowingly reproduces any visual depiction for distrubution 18 using any means or facility of interstate or foreign 19 commerce or in or affecting interstate or foreign commerce 20 or through the mails, if (A) the producing of such visual depiction involved the use of a minor engaging in sexually explicit conduct and (B) such visual depiction is of such conduct, shall be guilty of a crime.

1 In order to prove the defendant guilty of 2 receiving child pornography, the government must prove 3 each of the following four elements beyond a reasonable 4 doubt:

First, that the defendant received a visual depiction, which term I have already defined for you and applies equally here.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, and portrayed that minor engaged in that conduct.

Fourth, that the defendant knew that the production of the visual depiction involved the use of a minor engaged in sexually explicit conduct, and portrayed a minor engaged in that conduct.

I remind you that the government can meet its burden of proof of count five by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to receive child pornography.

The first element of receipt of child pornography, receiving.

Jury Charge

1119

1118

The first element of count five that the government must prove beyond a reasonable doubt that the defendant knowingly received a visual depiction.

You have already been instructed on the meaning of the term visual depiction, and that instruction applies equally here.

To receive a visual depiction means to take possession of it. This includes the knowing acceptance of a depiction previously requested. Receiving includes the downloading of a photograph or video by means of the internet.

The government must prove that the defendant received the depiction knowingly. An act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason.

Second element of receipt of child pornography: In or affecting interstate or foreign commerce.

The second element of count five that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce or was produced using materials that had been transported in or affecting interstate or foreign commerce.

The indictment alleges that the visual depiction

(Continued)

was actually transported in interstate or foreign
 commerce. I have already instructed you on what it means
 for a visual depiction to be actually transported in
 interstate or foreign commerce or produced using materials
 that had been transported in or affecting interstate or
 foreign commerce.

Third element of receipt of child pornography: Visual depiction of sexually explicit conduct.

The third element of count five that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

I have already instructed you that the visual depiction must be a real person under the age of 18 engaging in sexually explicit conduct. I reiterate that the government does not have to prove the identity of the minor or the exact age of the minor. You may consider all the evidence in determining whether the depiction portrayed an actual person under the age of 18 engaging in sexually explicit conduct.

Fourth element of receipt of child pornography: The defendant acted knowingly.

Jury Charge

The fourth element of count five that the

_

government must prove beyond a reasonable doubt is that the defendant knew both that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, and that it portrayed a minor engaged in that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally, and not because of accident, mistake or some other innocent reason.

In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material and to the knowledge that the visual depiction was in fact an act -- of an actual minor engaged in that sexually explicit conduct.

The government must show that the defendant had knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge of the identity or the actual age of the minor depicted, but the defendant must have knowledge or an awareness that the material contained a visual depiction of a minor engaging in sexually explicit conduct. Such knowledge may be shown by direct or circumstantial evidence, or both. Eyewitnesses testimony of the defendant's viewing of the material is not necessary to prove his or her awareness of its contents. The circumstances may warrant an inference

that he or she was aware of the material -- what the
 material depicts. Furthermore, the defendant's belief as
 to the legality or illegality of the material is
 irrelevant.

Before you can find that the defendant acted intentionally, you must be satisfied beyond a reasonable doubt that the defendant acted deliberately and purposefully. That is, that the defendant's acts must have been the product of the defendant's conscious objective rather than the product of a mistake or accident. The intent with which an act is done is more often shown by the act itself or by a series of acts than by statements made long after its occurrence. Frequently the acts of individuals speak their intentions more clearly than do their words. The adage, actions speak louder than words, applies here. Accordingly, knowledge and intent are usually established by surrounding facts and circumstances as of the time the acts in question occurred, or the events took place, and the reasonable inferences to be drawn from them.

Again, the definition of intentional applies to all counts of the indictment in which it is referred to.

Count 15, possession of child pornography.

Count 15 of the indictment charges the defendant with possession of child pornography. Count 15 of the

Jury Charge

1 indictment reads as follows.

From the indictment now.

Quote, on or about January 28, 2014, within the Eastern District of New York, the defendant Joseph Valerio did knowingly and intentionally possess matter containing one or more visual depictions, to wit: images in digital files, in and affecting interstate and foreign commerce, and which visual depictions had been mailed and shipped and transported using a means and facility of interstate and foreign commerce, and which were produced using materials which had been mailed and shipped and transported, the production of such visual depictions having involved the use of one or more minors engaging in sexually explicit conduct, and such visual depictions were of such conduct. End quote.

Count 15.

Count 15 of the indictment charges the defendant with Section 2252(a)(4)(B) of Title 18 of the United States Code. That section provides, in relevant part:

In order to prove that the defendant possessed child pornography, it is necessary that the evidence establish beyond a reasonable doubt -- obviously the government has the burden of proof beyond a reasonable doubt as to each of these elements.

First, that the defendant knowingly possessed a 15 visual depiction, as I have already explained that term to you.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce, or the visual depiction was produced using materials that had been transported in interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and portrays that minor engaged in that conduct.

Jury Charge

1125

And, fourth, that the defendant knew that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and portrayed a minor engaged in that conduct.

The first element that the government must prove beyond a reasonable doubt is that the defendant knowingly and intentionally possessed a visual depiction. I have already defined the terms knowingly, intentionally and visual depiction, and you should apply those definitions and instructions here.

To possess something means to have it within a person's control. This does not necessarily mean that the person must hold it physically, that is, have actual possession of it. As long as the visual depiction was within the defendant's control, he possesses it. If you find that the defendant either had actual possession of the depiction or that he had power and intention to exercise control over it, even though it was not in his physical possession, you may find that the government has proven possession.

The law also recognizes that possession may be sole or joint. If one person alone possesses it, that is sole possession. However, it is possible that more than one person may have the power and intention to exercise control over the visual depiction. This is called joint

1 possession.

2 If you find that the defendant has such power 3 and intention, then he possessed the depiction even if he 4 possessed it jointly with another person.

The second element of count 15 that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce. The indictment alleges that the particular visual depictions were transported in or affecting interstate or foreign commerce, or produced using materials that had been transported in interstate or foreign commerce.

Transmission of photographs or video by means of the internet constitutes transported in or affecting interstate commerce. However, you must find beyond a reasonable doubt that the specific depiction in question was actually transmitted by means of the internet.

The third element of count 15 that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved in the use of an actual minor engaged in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

The visual depiction must be of a real person under the age of 18 engaging in sexually explicit conduct,

Jury Charge

1127

1126

the government does not have to prove the identity of the 2 minor or the exact age of the minor. You may consider all 3 the evidence, including your viewing of the depiction, in 4 determining whether the depiction portrayed an actual 5 person under the age of 18 engaging in sexually explicit 6 conduct. I have already defined the term sexually 7 explicit conduct, you should apply that definition here.

The fourth element of count 15 that the government must prove beyond a reasonable doubt is that the defendant knew both that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and that it portrayed a minor engaged in that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason. In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material, and to the knowledge that the visual depictions were in fact of actual minors engaged in that sexually explicit conduct.

22 The government must show that the defendant had 23 knowledge of the general nature of the contents of the 24 material. The defendant need not have specific knowledge 25 as to the identity or actual age of the underage

performer, but the defendant must have knowledge or an awareness that the material contained a visual depiction of a minor engaging in sexually explicit conduct.

Such knowledge may be shown by direct or circumstantial evidence or both. Eyewitness testimony of the defendant's viewing of the material is not necessary to prove his awareness of its contents; but the circumstances may warrant an inference that he was aware of the -- what the material depicts, furthermore, the defendant's belief as to the legality or illegality of the material is irrelevant.

That ends part two. You will be happy to note part three is shorter. There is about ten minutes to go. Everyone okay?

Part three are my rules regarding deliberations. Finally, a few closing remarks.

Keep in mind that nothing I have said in these instructions is intended to suggest to you in any way what I think your verdict should be. That is entirely for you to decide.

By way of reminder, I charge you once again that it is your responsibility to judge the facts in this case only from the evidence presented during the trial and to apply the law as I have given it to you to the facts as you find them from the evidence.

Jury Charge

I instruct you that the decision you reach as to each element for each charge in the indictment must be unanimous; that is, all 12 of you must agree on every element in every count. I also instruct you to consider each count of the indictment separately. Again, the verdict on each element and each count must be unanimous.

When you retire, it is your duty to discuss the case for the purpose of reaching a verdict. Each of you must decide the case for yourself. But you should only do so after considering all the evidence, listening to the views of your fellow jurors and discussing it fully.

It is important that you reach a verdict, if you can do so conscientiously. You should not hesitate to reconsider your opinions from time to time and to change them if you are convinced that they are wrong.

However, do not surrender an honest conviction as to weight and effect of the evidence simply to arrive at a verdict.

Remember also that your verdict must be based solely on the evidence in the case and the law as the Court has given it to you, not on anything else. Opening statements, closing arguments, or other statements or arguments of counsel are not evidence. If your recollection of the facts differs from the way counsel has stated the facts to be, then your recollection controls.

And, finally, bear in mind that the government has the burden of proof and that you must be convinced of the defendant's guilt beyond a reasonable doubt to return a guilty verdict. If you find that this burden has not been met, you must return a verdict of not guilty

The question of possible punishment of the defendant is of no concern to the jury and should not, in any sense, enter into or influence your deliberations. The duty of imposing sentence rests exclusively upon the Court. Your function is to weigh the evidence in the case and to determine whether or not the defendant is guilty beyond a reasonable doubt, solely upon the basis of such evidence. Under your oath as jurors, you cannot allow a consideration of the punishment which may be imposed upon the defendant if he is convicted to influence your verdict in any way or in any sense enter into your deliberations.

Under your oath as jurors, you are not to be swayed by sympathy for one side or the other. You are to be guided solely by the evidence in this case, and the crucial question that you must ask yourselves as you sift through the evidence is: Has the government proven the guilt of the defendant beyond a reasonable doubt?

It is for you alone to decide whether the government has proven that the defendant is guilty of the crimes charged solely on the basis of the evidence and

Jury Charge

subject to the law as I charge you. It must be clear to
 you that once you let fear, prejudice, bias or sympathy
 interfere with your thinking, there is a risk you will not
 arrive at a true and just verdict.

If you have a reasonable doubt as to the defendant's guilt, you must find a verdict of acquittal. But, on the other hand, if you should find that the government has met its burden of proving the defendant's guilt beyond a reasonable doubt, you should not hesitate because of sympathy or any other reason to render a verdict of guilty.

When you get into the jury room before you begin your deliberations, your first act will be to select one of you to be a foreperson. The foreperson will be responsible for signing all communications to the Court and for handing it to the court security officer during your deliberations. But, of course, his or her vote is entitled to no greater weight than any other juror.

During the trial I permitted the taking of notes by those of you who wished to do so. At that time I pointed out that while you could take notes, there is no need for you doing so because the court reporter takes down everything said in the courtroom. And during deliberations the court reporter will read back to you any portion of the transcript you may ask for.

For those of you who did take notes during the 2 trial, I point out to you and your fellow jurors that your notes are simply an aid to memory for the particular juror who takes the notes. You are instructed that your notes are only a tool to aid your own individual memory and you should not compare your notes with other jurors in your deliberations. Jurors who did not take notes should not be influenced by the fact that other jurors have taken notes. Your notes are not evidence. They may be inaccurate and are by no means a complete recording of the trial testimony. Any difference between a juror's recollection and the other juror's notes should be settled by asking to have the court reporter read back the transcript, for it is the court record rather than any juror's notes upon which the jury must base its

It is very important that you are not to communicate with anyone outside the jury room about your deliberations or about anything touching this case. There is only one exception to this rule.

determination of the facts and its verdict.

If it becomes necessary during the deliberations to communicate with me, you may send a note, through the court security officer, signed by your foreperson or by one or more members of the jury. No member of the jury should ever attempt to communicate with me except by a

Jury Charge

signed writing, and I will never communicate with any

1133

2 member of the jury on any subject touching the merits of the case other than in writing or orally here in open 4 court. If you send any notes to the Court, do not 5 disclose anything about your deliberations. Specifically, do not disclose to anyone, not even to me, how the jury stands numerically or otherwise on the question of the guilt or innocence of the defendant until after you have reached a unanimous verdict or have been discharged.

If during your deliberations you want to see any of the exhibits, they will be sent to you in the jury room upon written request. If you want any of the testimony read back, that can also be done. But please remember that it is not always easy to locate what you might want, so be as specific as you possibly can in requesting exhibits or portions of testimony which you may want. If you request a readback of testimony, please be patient, as it may take some time to locate and agree upon the specific testimony required.

I want to emphasize that point. If you send a note requesting readback of testimony and I don't bring you out immediately, it doesn't mean I didn't get the note. I have to consult with the lawyers and the court reporters as to what it is you are requesting. As soon as the portion is isolated, we will bring you back for the

readback. 1

2 I have prepared a verdict sheet which will be 3 given to you in a moment. The verdict sheet is given to 4 you to record your verdict after you have reached a 5 verdict as to all counts in the indictment.

When you have reached a decision, have the foreperson sign the verdict form and put the date on, and notify the marshal by note that you have reached a verdict.

I reiterate that any verdict you reach must be unanimous.

Your oath sums up your duty, and that is without fear or favor to any person, you will well and truly try the issues in this case according to the evidence given to you in court and the laws of the United States.

This concludes my instructions. I want to thank you for your close and careful attention.

In a moment, members of the jury, you will retire to deliberate after I swear in the marshal. I do ask as your first order of business you elect a foreperson and send me a note dated and timed, identifying that foreperson.

23 So you are going to go back into the jury room 24 with two documents.

The first document we will mark Court Exhibit E,

Jury Charge

1135

as in Edward, is a copy of the superseding indictment.

Again, this is only given to you so you will 3 have a reference when you are going through each count on 4 the verdict sheet. That is the only purpose of this. It 5 is merely an accusation and nothing more.

And I will give you a copy of the verdict form to record your verdict on, which we will mark as Court Exhibit F.

The verdict form is self-explanatory. Again, your verdict on each count must be unanimous and you must consider each count separately.

I will just have my law clerk give those two documents to juror number one.

14 I will now give the oath to the court security officer. 15

16 Please raise your right hand.

17 (Court security officer is sworn to attend to 18 the jury.)

THE COURT: A couple of other things.

First, when you are in the jury room, you can only deliberate when all 12 of you are present.

If someone uses the restroom, and sometimes there are jurors who are smokers and you need to have a smoke break, the court security officer will take those jurors outside and you have to stop until all 12 of you

10 MR. LATO: Your Honor, after further 11 consultation while I was addressing the Court, Mr. LaPinta 12 was speaking to Mr. Valerio, it is now his request, and 13 ours as well, that your Honor just give them the emails.

14 THE COURT: Is that correct, Mr. Valerio? 15 THE DEFENDANT: Yes, your Honor.

request.

That's it. 13 THE COURT: All right.

So the record should reflect that Mr. LaPinta 15 read the exhibits that are in the binder going back to the jury, along with my instructions, which is Court Exhibit D, as in David.

MR. LaPINTA: Thank you.

19 THE COURT: You can all take a lunch break if 20 you wish to go now.

MR. LATO: Before your Honor leaves the bench, I was conferring with Mr. Valerio while everyone was reciting the exhibit numbers, and I would like to confer with Mr. LaPinta so we don't have to come back.

THE COURT: Something to do with these exhibits?

which is a very distinct category of evidence.

2 But it is consistent with what happened during 3 the summation. Mr. Kabrawala during the summations made 4 reference to all the emails, and had a PowerPoint and invited them by showing them a binder and saying the 6 emails are all in here if you wish to review them.

1146

1147

That is why I was confused when the parties suggested a binder containing all the evidence in the case, because I didn't understand the binder to have all the evidence -- evidence in the case when Mr. Kabrawala was holding it. They referred to only emails and that is what they ask for.

Text messages are different from email messages. And I don't think a response as to that, independent as to whether it is devastating to Mr. Valerio, the note is not requesting that. And I will not send back the text messages because it is not responsive to the note. And obviously if they start paging through the emails and see that there are no text messages, they are certainly more than capable to write me another note saying they also wanted a text message or messages.

If memory serves me correctly, they are all contained in one document, the text messages?

MR. BODE: Two documents, there are two different types of texts. And they are in two documents.

1145

1 MR. LATO: Correct.

(Defense counsel confer.)

MR. LATO: Your Honor, it is Mr. Valerio's position, as distinct from the opinion of Mr. LaPinta and myself, that the jury should also get the text messages.

6 Mr. LaPinta and I have explained to Mr. Valerio 7 that the email doesn't ask for text messages.

8 THE COURT: You said the email. You mean the 9 note.

10 MR. LATO: Yes, the note, your Honor, does not 11 refer to text messages.

In addition, Mr. LaPinta and I are in agreement that the text messages have devastating evidence against 14 Mr. Valerio. And unless the jury specifically requests 15 that in a note, it is our position that that note should not be shown -- I'm sorry, it is our position that the text messages should not be given without a specific

19 THE COURT: I agree.

20 I want the record to be perfectly clear at this 21 point that the note refers to the following: The 22 binder -- from the prosecution the binder containing the 23 evidence, paren, in email form.

24 This is one of the situations where not only is 25 the note clear, but they want the evidence in email form, THE COURT: Yes.

It is not responsive to the note to send text messages, especially in response to the government's summation.

All right.

In order to prove the defendant guilty of 2 receiving child pornography, the government must prove each of the following four elements beyond a reasonable doubt:

First, that the defendant received a visual depiction, which term I have already defined for you and applies equally here.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, and portrayed that minor engaged in that conduct.

Fourth, that the defendant knew that the production of the visual depiction involved the use of a minor engaged in sexually explicit conduct, and portrayed a minor engaged in that conduct.

I remind you that the government can meet its burden of proof of count five by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to receive child pornography.

The first element of receipt of child pornography, receiving.

Jury Charge

1149

The first element of count five that the government must prove beyond a reasonable doubt that the defendant knowingly received a visual depiction.

You have already been instructed on the meaning of the term visual depiction, and that instruction applies equally here.

To receive a visual depiction means to take possession of it. This includes the knowing acceptance of a depiction previously requested. Receiving includes the downloading of a photograph or video by means of the internet.

The government must prove that the defendant received the depiction knowingly. An act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason.

Second element of receipt of child pornography: In or affecting interstate or foreign commerce.

The second element of count five that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce or was produced using materials that had been transported in or affecting interstate or foreign commerce.

The indictment alleges that the visual depiction

1 was actually transported in interstate or foreign

2 commerce. I have already instructed you on what it means

3 for a visual depiction to be actually transported in

4 interstate or foreign commerce or produced using materials

5 that had been transported in or affecting interstate or 6

foreign commerce.

Third element of receipt of child pornography: Visual depiction of sexually explicit conduct.

The third element of count five that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

I have already instructed you that the visual depiction must be a real person under the age of 18 engaging in sexually explicit conduct. I reiterate that the government does not have to prove the identity of the minor or the exact age of the minor. You may consider all the evidence in determining whether the depiction portrayed an actual person under the age of 18 engaging in sexually explicit conduct.

Fourth element of receipt of child pornography: 24 The defendant acted knowingly.

The fourth element of count five that the

Jury Charge

1151

1150

government must prove beyond a reasonable doubt is that 2 the defendant knew both that the production of the visual 3 depiction involved the use of a minor engaging in sexually 4 explicit conduct, and that it portrayed a minor engaged in 5 that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally, and not because of accident, mistake or some other innocent reason.

In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material and to the knowledge that the visual depiction was in fact an act -- of an actual minor engaged in that sexually explicit conduct.

14 The government must show that the defendant had 16 knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge of the identity or the actual age of the minor depicted, but the defendant must have knowledge or an awareness that 20 the material contained a visual depiction of a minor engaging in sexually explicit conduct. Such knowledge may 22 be shown by direct or circumstantial evidence, or both. 23 Eyewitnesses testimony of the defendant's viewing of the 24 material is not necessary to prove his or her awareness of its contents. The circumstances may warrant an inference

Before you can find that the defendant acted intentionally, you must be satisfied beyond a reasonable doubt that the defendant acted deliberately and purposefully. That is, that the defendant's acts must have been the product of the defendant's conscious objective rather than the product of a mistake or accident. The intent with which an act is done is more often shown by the act itself or by a series of acts than by statements made long after its occurrence. Frequently the acts of individuals speak their intentions more 15 clearly than do their words. The adage, actions speak louder than words, applies here. Accordingly, knowledge and intent are usually established by surrounding facts and circumstances as of the time the acts in question occurred, or the events took place, and the reasonable inferences to be drawn from them.

Again, the definition of intentional applies to all counts of the indictment in which it is referred to. Count 15, possession of child pornography. Count 15 of the indictment charges the defendant with possession of child pornography. Count 15 of the

Jury Charge

1153

indictment reads as follows.

From the indictment now.

Quote, on or about January 28, 2014, within the Eastern District of New York, the defendant Joseph Valerio did knowingly and intentionally possess matter containing one or more visual depictions, to wit: images in digital files, in and affecting interstate and foreign commerce, and which visual depictions had been mailed and shipped and transported using a means and facility of interstate and foreign commerce, and which were produced using materials which had been mailed and shipped and transported, the production of such visual depictions having involved the use of one or more minors engaging in sexually explicit conduct, and such visual depictions were of such conduct. End quote.

Count 15.

Count 15 of the indictment charges the defendant with Section 2252(a)(4)(B) of Title 18 of the United States Code. That section provides, in relevant part:

Now quoting the statute.

Any person who knowingly possesses or knowingly accesses with intent to view one or more books, magazines, periodicals, films, videotapes or other matter which contain any visual depiction that has been mailed or has been shipped or transported using any means or facility of

1 interstate or foreign commerce, or in or affecting

2 interstate or foreign commerce, or which was produced

3 using materials which have been mailed or so shipped or

4 transported, by any means, including by computer, if, one,

5 the producing of such visual depiction involves the use of

6 a minor engaging in sexually explicit conduct; and, two,

7 such visual depiction is of such conduct shall be guilty

8 of a crime, end of quote.

In order to prove that the defendant possessed child pornography, it is necessary that the evidence establish beyond a reasonable doubt -- obviously the government has the burden of proof beyond a reasonable doubt as to each of these elements.

First, that the defendant knowingly possessed a visual depiction, as I have already explained that term to you.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce, or the visual depiction was produced using materials that had been transported in interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and portrays that minor engaged in that conduct.

Jury Charge

1155

1154

1 And, fourth, that the defendant knew that the 2 production of the visual depiction involved the use of a 3 minor engaging in sexually explicit conduct and portrayed 4 a minor engaged in that conduct.

The first element that the government must prove beyond a reasonable doubt is that the defendant knowingly and intentionally possessed a visual depiction. I have already defined the terms knowingly, intentionally and visual depiction, and you should apply those definitions and instructions here.

To possess something means to have it within a person's control. This does not necessarily mean that the person must hold it physically, that is, have actual possession of it. As long as the visual depiction was within the defendant's control, he possesses it. If you find that the defendant either had actual possession of the depiction or that he had power and intention to exercise control over it, even though it was not in his physical possession, you may find that the government has proven possession.

21 The law also recognizes that possession may be 22 sole or joint. If one person alone possesses it, that is 23 sole possession. However, it is possible that more than 24 one person may have the power and intention to exercise control over the visual depiction. This is called joint 25

possession.

If you find that the defendant has such power and intention, then he possessed the depiction even if he possessed it jointly with another person.

The second element of count 15 that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce. The indictment alleges that the particular visual depictions were transported in or affecting interstate or foreign commerce, or produced using materials that had been transported in interstate or foreign commerce.

Transmission of photographs or video by means of the internet constitutes transported in or affecting interstate commerce. However, you must find beyond a reasonable doubt that the specific depiction in question was actually transmitted by means of the internet.

The third element of count 15 that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved in the use of an actual minor engaged in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

The visual depiction must be of a real person under the age of 18 engaging in sexually explicit conduct,

Jury Charge

the government does not have to prove the identity of the minor or the exact age of the minor. You may consider all the evidence, including your viewing of the depiction, in determining whether the depiction portrayed an actual person under the age of 18 engaging in sexually explicit conduct. I have already defined the term sexually explicit conduct, you should apply that definition here.

The fourth element of count 15 that the government must prove beyond a reasonable doubt is that the defendant knew both that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and that it portrayed a minor engaged in that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason. In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material, and to the knowledge that the visual depictions were in fact of actual minors engaged in that sexually explicit conduct.

The government must show that the defendant had knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge as to the identity or actual age of the underage

performer, but the defendant must have knowledge or an
 awareness that the material contained a visual depiction
 of a minor engaging in sexually explicit conduct.

Such knowledge may be shown by direct or circumstantial evidence or both. Eyewitness testimony of the defendant's viewing of the material is not necessary to prove his awareness of its contents; but the circumstances may warrant an inference that he was aware of the -- what the material depicts, furthermore, the defendant's belief as to the legality or illegality of the material is irrelevant.

That ends part two. You will be happy to note part three is shorter. There is about ten minutes to go. Everyone okay?

Part three are my rules regarding deliberations. Finally, a few closing remarks.

17 Keep in mind that nothing I have said in these
18 instructions is intended to suggest to you in any way what
19 I think your verdict should be. That is entirely for you
20 to decide.

By way of reminder, I charge you once again that it is your responsibility to judge the facts in this case only from the evidence presented during the trial and to apply the law as I have given it to you to the facts as you find them from the evidence.

Jury Charge

I instruct you that the decision you reach as to
each element for each charge in the indictment must be
unanimous; that is, all 12 of you must agree on every
element in every count. I also instruct you to consider
each count of the indictment separately. Again, the
verdict on each element and each count must be unanimous.

When you retire, it is your duty to discuss the case for the purpose of reaching a verdict. Each of you must decide the case for yourself. But you should only do so after considering all the evidence, listening to the views of your fellow jurors and discussing it fully.

It is important that you reach a verdict, if you can do so conscientiously. You should not hesitate to reconsider your opinions from time to time and to change them if you are convinced that they are wrong.

However, do not surrender an honest conviction as to weight and effect of the evidence simply to arrive at a verdict.

Remember also that your verdict must be based solely on the evidence in the case and the law as the Court has given it to you, not on anything else. Opening statements, closing arguments, or other statements or arguments of counsel are not evidence. If your recollection of the facts differs from the way counsel has stated the facts to be, then your recollection controls.

And, finally, bear in mind that the government has the burden of proof and that you must be convinced of the defendant's guilt beyond a reasonable doubt to return a guilty verdict. If you find that this burden has not been met, you must return a verdict of not guilty

The question of possible punishment of the defendant is of no concern to the jury and should not, in any sense, enter into or influence your deliberations. The duty of imposing sentence rests exclusively upon the Court. Your function is to weigh the evidence in the case and to determine whether or not the defendant is guilty beyond a reasonable doubt, solely upon the basis of such evidence. Under your oath as jurors, you cannot allow a consideration of the punishment which may be imposed upon the defendant if he is convicted to influence your verdict in any way or in any sense enter into your deliberations.

Under your oath as jurors, you are not to be swayed by sympathy for one side or the other. You are to be guided solely by the evidence in this case, and the crucial question that you must ask yourselves as you sift through the evidence is: Has the government proven the quilt of the defendant beyond a reasonable doubt?

It is for you alone to decide whether the government has proven that the defendant is guilty of the crimes charged solely on the basis of the evidence and

1 subject to the law as I charge you. It must be clear to you that once you let fear, prejudice, bias or sympathy interfere with your thinking, there is a risk you will not arrive at a true and just verdict.

If you have a reasonable doubt as to the defendant's guilt, you must find a verdict of acquittal. But, on the other hand, if you should find that the government has met its burden of proving the defendant's guilt beyond a reasonable doubt, you should not hesitate because of sympathy or any other reason to render a verdict of guilty.

When you get into the jury room before you begin your deliberations, your first act will be to select one of you to be a foreperson. The foreperson will be responsible for signing all communications to the Court and for handing it to the court security officer during your deliberations. But, of course, his or her vote is entitled to no greater weight than any other juror.

During the trial I permitted the taking of notes by those of you who wished to do so. At that time I pointed out that while you could take notes, there is no need for you doing so because the court reporter takes down everything said in the courtroom. And during deliberations the court reporter will read back to you any portion of the transcript you may ask for.

1 For those of you who did take notes during the 2 trial, I point out to you and your fellow jurors that your 3 notes are simply an aid to memory for the particular juror 4 who takes the notes. You are instructed that your notes 5 are only a tool to aid your own individual memory and you 6 should not compare your notes with other jurors in your 7 deliberations. Jurors who did not take notes should not 8 be influenced by the fact that other jurors have taken 9 notes. Your notes are not evidence. They may be 10 inaccurate and are by no means a complete recording of the 11 trial testimony. Any difference between a juror's 12 recollection and the other juror's notes should be settled 13 by asking to have the court reporter read back the 14 transcript, for it is the court record rather than any 15 juror's notes upon which the jury must base its

determination of the facts and its verdict.

If it becomes necessary during the deliberations to communicate with me, you may send a note, through the court security officer, signed by your foreperson or by one or more members of the jury. No member of the jury should ever attempt to communicate with me except by a

signed writing, and I will never communicate with any 2 member of the jury on any subject touching the merits of 3 the case other than in writing or orally here in open 4 court. If you send any notes to the Court, do not 5 disclose anything about your deliberations. Specifically, 6 do not disclose to anyone, not even to me, how the jury 7 stands numerically or otherwise on the question of the 8 quilt or innocence of the defendant until after you have 9 reached a unanimous verdict or have been discharged.

If during your deliberations you want to see any of the exhibits, they will be sent to you in the jury room upon written request. If you want any of the testimony read back, that can also be done. But please remember that it is not always easy to locate what you might want, so be as specific as you possibly can in requesting exhibits or portions of testimony which you may want. If you request a readback of testimony, please be patient, as it may take some time to locate and agree upon the specific testimony required.

I want to emphasize that point. If you send a note requesting readback of testimony and I don't bring you out immediately, it doesn't mean I didn't get the note. I have to consult with the lawyers and the court reporters as to what it is you are requesting. As soon as the portion is isolated, we will bring you back for the

MR. LaPINTA: Thank you.

19 THE COURT: You can all take a lunch break if

MR. LATO: Before your Honor leaves the bench, I 22 was conferring with Mr. Valerio while everyone was 23 reciting the exhibit numbers, and I would like to confer

But it is consistent with what happened during the summation. Mr. Kabrawala during the summations made reference to all the emails, and had a PowerPoint and invited them by showing them a binder and saying the emails are all in here if you wish to review them.

That is why I was confused when the parties suggested a binder containing all the evidence in the case, because I didn't understand the binder to have all the evidence -- evidence in the case when Mr. Kabrawala was holding it. They referred to only emails and that is what they ask for.

Text messages are different from email messages. And I don't think a response as to that, independent as to whether it is devastating to Mr. Valerio, the note is not requesting that. And I will not send back the text messages because it is not responsive to the note. And obviously if they start paging through the emails and see that there are no text messages, they are certainly more than capable to write me another note saying they also wanted a text message or messages.

If memory serves me correctly, they are all contained in one document, the text messages?

In order to prove the defendant guilty of 2 receiving child pornography, the government must prove 3 each of the following four elements beyond a reasonable 4 doubt:

First, that the defendant received a visual depiction, which term I have already defined for you and applies equally here.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, and portrayed that minor engaged in that conduct.

Fourth, that the defendant knew that the production of the visual depiction involved the use of a minor engaged in sexually explicit conduct, and portrayed a minor engaged in that conduct.

I remind you that the government can meet its burden of proof of count five by proving that the defendant did the acts charged himself, or by proving that he aided and abetted another person to receive child pornography.

The first element of receipt of child pornography, receiving.

1178

1 The first element of count five that the 2 government must prove beyond a reasonable doubt that the 3 defendant knowingly received a visual depiction.

You have already been instructed on the meaning of the term visual depiction, and that instruction applies equally here.

To receive a visual depiction means to take possession of it. This includes the knowing acceptance of a depiction previously requested. Receiving includes the downloading of a photograph or video by means of the internet.

The government must prove that the defendant received the depiction knowingly. An act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason.

Second element of receipt of child pornography: In or affecting interstate or foreign commerce.

The second element of count five that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce or was produced using materials that had been transported in or affecting interstate or foreign commerce.

The indictment alleges that the visual depiction

that had been transported in or affecting interstate or foreign commerce.

Third element of receipt of child pornography: Visual depiction of sexually explicit conduct.

The third element of count five that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

I have already instructed you that the visual depiction must be a real person under the age of 18 engaging in sexually explicit conduct. I reiterate that the government does not have to prove the identity of the minor or the exact age of the minor. You may consider all the evidence in determining whether the depiction portrayed an actual person under the age of 18 engaging in sexually explicit conduct.

Fourth element of receipt of child pornography: The defendant acted knowingly.

The fourth element of count five that the

Jury Charge

1181

government must prove beyond a reasonable doubt is that the defendant knew both that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct, and that it portrayed a minor engaged in that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally, and not because of accident, mistake or some other innocent reason.

In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material and to the knowledge that the visual depiction was in fact an act -- of an actual minor engaged in that sexually explicit conduct.

The government must show that the defendant had knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge of the identity or the actual age of the minor depicted, but the defendant must have knowledge or an awareness that the material contained a visual depiction of a minor engaging in sexually explicit conduct. Such knowledge may 22 be shown by direct or circumstantial evidence, or both. Eyewitnesses testimony of the defendant's viewing of the material is not necessary to prove his or her awareness of

its contents. The circumstances may warrant an inference

that he or she was aware of the material -- what the 1 2 material depicts. Furthermore, the defendant's belief as 3

to the legality or illegality of the material is 4 irrelevant.

5 Before you can find that the defendant acted 6 intentionally, you must be satisfied beyond a reasonable 7 doubt that the defendant acted deliberately and 8 purposefully. That is, that the defendant's acts must 9 have been the product of the defendant's conscious 10 objective rather than the product of a mistake or 11 accident. The intent with which an act is done is more 12 often shown by the act itself or by a series of acts than 13 by statements made long after its occurrence. Frequently 14 the acts of individuals speak their intentions more 15 clearly than do their words. The adage, actions speak 16 louder than words, applies here. Accordingly, knowledge 17 and intent are usually established by surrounding facts 18 and circumstances as of the time the acts in question 19 occurred, or the events took place, and the reasonable

Again, the definition of intentional applies to all counts of the indictment in which it is referred to. Count 15, possession of child pornography. Count 15 of the indictment charges the defendant with possession of child pornography. Count 15 of the

Quote, on or about January 28, 2014, within the Eastern District of New York, the defendant Joseph Valerio did knowingly and intentionally possess matter containing one or more visual depictions, to wit: images in digital files, in and affecting interstate and foreign commerce, and which visual depictions had been mailed and shipped and transported using a means and facility of interstate and foreign commerce, and which were produced using materials which had been mailed and shipped and transported, the production of such visual depictions having involved the use of one or more minors engaging in sexually explicit conduct, and such visual depictions were of such conduct. End quote.

Count 15.

Count 15 of the indictment charges the defendant with Section 2252(a)(4)(B) of Title 18 of the United States Code. That section provides, in relevant part:

In order to prove that the defendant possessed child pornography, it is necessary that the evidence establish beyond a reasonable doubt -- obviously the government has the burden of proof beyond a reasonable doubt as to each of these elements.

First, that the defendant knowingly possessed a 15 visual depiction, as I have already explained that term to you.

Second, that the visual depiction was transported in or affecting interstate or foreign commerce, or the visual depiction was produced using materials that had been transported in interstate or foreign commerce.

Third, that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and portrays that minor engaged in that conduct.

Jury Charge

1185

And, fourth, that the defendant knew that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and portrayed a minor engaged in that conduct.

The first element that the government must prove beyond a reasonable doubt is that the defendant knowingly and intentionally possessed a visual depiction. I have already defined the terms knowingly, intentionally and visual depiction, and you should apply those definitions and instructions here.

To possess something means to have it within a person's control. This does not necessarily mean that the person must hold it physically, that is, have actual possession of it. As long as the visual depiction was within the defendant's control, he possesses it. If you find that the defendant either had actual possession of the depiction or that he had power and intention to exercise control over it, even though it was not in his physical possession, you may find that the government has proven possession.

The law also recognizes that possession may be sole or joint. If one person alone possesses it, that is sole possession. However, it is possible that more than one person may have the power and intention to exercise control over the visual depiction. This is called joint

1 possession.

> If you find that the defendant has such power and intention, then he possessed the depiction even if he possessed it jointly with another person.

The second element of count 15 that the government must prove beyond a reasonable doubt is that the visual depiction was mailed or transported in or affecting interstate or foreign commerce. The indictment alleges that the particular visual depictions were transported in or affecting interstate or foreign commerce, or produced using materials that had been transported in interstate or foreign commerce.

Transmission of photographs or video by means of the internet constitutes transported in or affecting interstate commerce. However, you must find beyond a reasonable doubt that the specific depiction in question was actually transmitted by means of the internet.

The third element of count 15 that the government must prove beyond a reasonable doubt is that the production of the visual depiction involved in the use of an actual minor engaged in sexually explicit conduct, as I have already explained that term to you, and portrays that minor engaged in that conduct.

The visual depiction must be of a real person under the age of 18 engaging in sexually explicit conduct,

Jury Charge

1187

1186

the government does not have to prove the identity of the 2 minor or the exact age of the minor. You may consider all 3 the evidence, including your viewing of the depiction, in 4 determining whether the depiction portrayed an actual 5 person under the age of 18 engaging in sexually explicit 6 conduct. I have already defined the term sexually 7 explicit conduct, you should apply that definition here.

The fourth element of count 15 that the government must prove beyond a reasonable doubt is that the defendant knew both that the production of the visual depiction involved the use of a minor engaging in sexually explicit conduct and that it portrayed a minor engaged in that conduct.

As I stated before, an act is done knowingly when it is done voluntarily and intentionally and not because of accident, mistake or some other innocent reason. In this case, the term knowingly refers to an awareness of the sexually explicit nature of the material, and to the knowledge that the visual depictions were in fact of actual minors engaged in that sexually explicit conduct.

The government must show that the defendant had knowledge of the general nature of the contents of the material. The defendant need not have specific knowledge as to the identity or actual age of the underage

performer, but the defendant must have knowledge or an awareness that the material contained a visual depiction of a minor engaging in sexually explicit conduct.

Such knowledge may be shown by direct or circumstantial evidence or both. Eyewitness testimony of the defendant's viewing of the material is not necessary to prove his awareness of its contents; but the circumstances may warrant an inference that he was aware of the -- what the material depicts, furthermore, the defendant's belief as to the legality or illegality of the material is irrelevant.

That ends part two. You will be happy to note part three is shorter. There is about ten minutes to go. Everyone okay?

Part three are my rules regarding deliberations. Finally, a few closing remarks.

Keep in mind that nothing I have said in these instructions is intended to suggest to you in any way what I think your verdict should be. That is entirely for you to decide.

By way of reminder, I charge you once again that it is your responsibility to judge the facts in this case only from the evidence presented during the trial and to apply the law as I have given it to you to the facts as you find them from the evidence.

Jury Charge

I instruct you that the decision you reach as to each element for each charge in the indictment must be unanimous; that is, all 12 of you must agree on every element in every count. I also instruct you to consider each count of the indictment separately. Again, the verdict on each element and each count must be unanimous.

When you retire, it is your duty to discuss the case for the purpose of reaching a verdict. Each of you must decide the case for yourself. But you should only do so after considering all the evidence, listening to the views of your fellow jurors and discussing it fully.

It is important that you reach a verdict, if you can do so conscientiously. You should not hesitate to reconsider your opinions from time to time and to change them if you are convinced that they are wrong.

However, do not surrender an honest conviction as to weight and effect of the evidence simply to arrive at a verdict.

Remember also that your verdict must be based solely on the evidence in the case and the law as the Court has given it to you, not on anything else. Opening statements, closing arguments, or other statements or arguments of counsel are not evidence. If your recollection of the facts differs from the way counsel has stated the facts to be, then your recollection controls.

And, finally, bear in mind that the government has the burden of proof and that you must be convinced of the defendant's guilt beyond a reasonable doubt to return a guilty verdict. If you find that this burden has not been met, you must return a verdict of not guilty

The question of possible punishment of the defendant is of no concern to the jury and should not, in any sense, enter into or influence your deliberations.

The duty of imposing sentence rests exclusively upon the Court. Your function is to weigh the evidence in the case and to determine whether or not the defendant is guilty beyond a reasonable doubt, solely upon the basis of such evidence. Under your oath as jurors, you cannot allow a consideration of the punishment which may be imposed upon the defendant if he is convicted to influence your verdict in any way or in any sense enter into your deliberations.

Under your oath as jurors, you are not to be swayed by sympathy for one side or the other. You are to be guided solely by the evidence in this case, and the crucial question that you must ask yourselves as you sift through the evidence is: Has the government proven the guilt of the defendant beyond a reasonable doubt?

It is for you alone to decide whether the government has proven that the defendant is guilty of the crimes charged solely on the basis of the evidence and

Jury Charge

subject to the law as I charge you. It must be clear to
 you that once you let fear, prejudice, bias or sympathy
 interfere with your thinking, there is a risk you will not
 arrive at a true and just verdict.

If you have a reasonable doubt as to the defendant's guilt, you must find a verdict of acquittal. But, on the other hand, if you should find that the government has met its burden of proving the defendant's guilt beyond a reasonable doubt, you should not hesitate because of sympathy or any other reason to render a verdict of guilty.

When you get into the jury room before you begin your deliberations, your first act will be to select one of you to be a foreperson. The foreperson will be responsible for signing all communications to the Court and for handing it to the court security officer during your deliberations. But, of course, his or her vote is entitled to no greater weight than any other juror.

During the trial I permitted the taking of notes by those of you who wished to do so. At that time I pointed out that while you could take notes, there is no need for you doing so because the court reporter takes down everything said in the courtroom. And during deliberations the court reporter will read back to you any portion of the transcript you may ask for.

For those of you who did take notes during the 2 trial, I point out to you and your fellow jurors that your notes are simply an aid to memory for the particular juror who takes the notes. You are instructed that your notes are only a tool to aid your own individual memory and you should not compare your notes with other jurors in your deliberations. Jurors who did not take notes should not be influenced by the fact that other jurors have taken notes. Your notes are not evidence. They may be inaccurate and are by no means a complete recording of the trial testimony. Any difference between a juror's 12 recollection and the other juror's notes should be settled 13 by asking to have the court reporter read back the transcript, for it is the court record rather than any 15 juror's notes upon which the jury must base its determination of the facts and its verdict.

It is very important that you are not to communicate with anyone outside the jury room about your deliberations or about anything touching this case. There is only one exception to this rule.

If it becomes necessary during the deliberations to communicate with me, you may send a note, through the court security officer, signed by your foreperson or by one or more members of the jury. No member of the jury should ever attempt to communicate with me except by a

Jury Charge

signed writing, and I will never communicate with any

1193

member of the jury on any subject touching the merits of the case other than in writing or orally here in open court. If you send any notes to the Court, do not disclose anything about your deliberations. Specifically, do not disclose to anyone, not even to me, how the jury stands numerically or otherwise on the question of the guilt or innocence of the defendant until after you have reached a unanimous verdict or have been discharged.

If during your deliberations you want to see any of the exhibits, they will be sent to you in the jury room upon written request. If you want any of the testimony read back, that can also be done. But please remember that it is not always easy to locate what you might want, so be as specific as you possibly can in requesting exhibits or portions of testimony which you may want. If you request a readback of testimony, please be patient, as it may take some time to locate and agree upon the specific testimony required.

I want to emphasize that point. If you send a note requesting readback of testimony and I don't bring you out immediately, it doesn't mean I didn't get the note. I have to consult with the lawyers and the court reporters as to what it is you are requesting. As soon as the portion is isolated, we will bring you back for the

I reiterate that any verdict you reach must be unanimous.

This concludes my instructions. I want to thank you for your close and careful attention.

In a moment, members of the jury, you will retire to deliberate after I swear in the marshal. I do ask as your first order of business you elect a foreperson and send me a note dated and timed, identifying that foreperson.

MR. BODE: If we could, Mr. Lato is going to ask something before I keep pulling things out.

MR. LATO: May we have a moment to confer with Mr. Valerio? He has some comment, and before I speak again let me get his position.

14 THE COURT: Sure.

(Defense counsel confer with the defendant.)

MR. LATO: Your Honor, because in my estimation there are at least some reason to question as to whether the jury wants only the emails, as opposed to the emails and the other things, and because it is Mr. Valerio's position that the jury should see everything, I'm asking your Honor out of an abundance of caution just to ask the jury whether they want only the emails or the other items as well.

24 THE COURT: What is the government's position on 25 that?

1 evidence in the case, which includes emails and all the 2 documents they have submitted.

3 You want me to ask the jury whether they want 4 the binder of all the documentary evidence or just the 5 emails. Do you want me to clarify that? Is that what you 6 want?

Or I can bring them out and say I'm interpreting your note to only requesting the emails. If you want all the documents, then you can let me know.

10 MR. LATO: Your Honor, after further 11 consultation while I was addressing the Court, Mr. LaPinta 12 was speaking to Mr. Valerio, it is now his request, and 13 ours as well, that your Honor just give them the emails.

14 THE COURT: Is that correct, Mr. Valerio? 15 THE DEFENDANT: Yes, your Honor.

16 THE COURT: You don't want me to bring them out? 17 Just send the emails back?

MR. LATO: Yes, your Honor. And if that is not 18 19 sufficient, I assume we will get another note from them.

20 THE COURT: I was willing to do that if it was 21 the defense's request so there is no issue. But I think 22 the note is clear, the binder containing the evidence in 23 email form. That is all they want. So I believe this is 24 the appropriate response.

MR. BODE: In terms of our interpretation,

1201

1 MR. BODE: I think the note is clear, Judge. 2

But I don't have any objection to asking them.

THE COURT: Okay.

What I will say to them is that the binder contains other exhibits aside from the emails. And I want them to send me another note indicating as to whether they want all the exhibits in the binder or just the email exhibits.

9 MR. LATO: Yes, your Honor. Minus the CDs. 10 That they cannot have. They can, of course, listen to it

11 in the courtroom. 12 THE COURT: As I understand it, other than the

13 CDs, is the binder then every document in the case? 14 MR. BODE: Every documentary exhibit, yes, your 15

Honor. And it includes the PowerPoint with the child pornography images, and obviously not the CDs. Also the redacted images as well. All the photographs from the search scene, your Honor.

19 MR. LATO: Yes, your Honor.

20 THE COURT: At least confirm with Mr. Valerio --21 or I will confirm with him.

22 Mr. Valerio, I want to make sure that your 23 lawyers are following your request.

24 The government has a binder of all the 25 documentary evidence that they have submitted into Judge, we are interpreting emails as including their

2 attachments as well, if there is an attachment to the

3 email, but obviously not the child pornography.

4 THE COURT: Yes. It goes to the attachments 5 other than the child pornography.

MR. BODE: Yes.

7 Like, there is an email with Mr. Valerio's 8 picture attached to it, and that is obviously part of the 9 email.

10 THE COURT: Yes.

11 Do you agree that it should include attachments?

MR. LATO: Yes, your Honor.

13 THE COURT: All right.

14 MR. BODE: and headers for emails. I assume

15 that that is part of an email?

16 THE COURT: Yes.

17 (Whereupon, at this time there was a pause in 18 the proceedings.)

19 MR. BODE: We are handing up and we agree 20 this -- these are the correct exhibits, and we can read 21 into the record the exhibit numbers, and this can go to

22 the jury.

23 THE COURT: Agreed? 24 MR. LaPINTA: Yes.

12 That's it.

13 THE COURT: All right.

So the record should reflect that Mr. LaPinta 15 read the exhibits that are in the binder going back to the 16 jury, along with my instructions, which is Court

17 Exhibit D, as in David.

MR. LaPINTA: Thank you.

19 THE COURT: You can all take a lunch break if 20

you wish to go now.

MR. LATO: Before your Honor leaves the bench, I was conferring with Mr. Valerio while everyone was reciting the exhibit numbers, and I would like to confer

24 with Mr. LaPinta so we don't have to come back.

THE COURT: Something to do with these exhibits?

which is a very distinct category of evidence. 1

2 But it is consistent with what happened during 3 the summation. Mr. Kabrawala during the summations made 4 reference to all the emails, and had a PowerPoint and invited them by showing them a binder and saying the 6 emails are all in here if you wish to review them.

That is why I was confused when the parties suggested a binder containing all the evidence in the case, because I didn't understand the binder to have all the evidence -- evidence in the case when Mr. Kabrawala was holding it. They referred to only emails and that is what they ask for.

Text messages are different from email messages. And I don't think a response as to that, independent as to whether it is devastating to Mr. Valerio, the note is not requesting that. And I will not send back the text messages because it is not responsive to the note. And obviously if they start paging through the emails and see that there are no text messages, they are certainly more than capable to write me another note saying they also wanted a text message or messages.

If memory serves me correctly, they are all contained in one document, the text messages?

MR. BODE: Two documents, there are two different types of texts. And they are in two documents.

1205

1 MR. LATO: Correct.

(Defense counsel confer.)

MR. LATO: Your Honor, it is Mr. Valerio's position, as distinct from the opinion of Mr. LaPinta and myself, that the jury should also get the text messages.

6 Mr. LaPinta and I have explained to Mr. Valerio 7 that the email doesn't ask for text messages.

8 THE COURT: You said the email. You mean the

9 note. 10 MR. LATO: Yes, the note, your Honor, does not

11 refer to text messages.

In addition, Mr. LaPinta and I are in agreement that the text messages have devastating evidence against 14 Mr. Valerio. And unless the jury specifically requests 15 that in a note, it is our position that that note should 16 not be shown -- I'm sorry, it is our position that the text messages should not be given without a specific

18 request. 19 THE COURT: I agree.

20 I want the record to be perfectly clear at this 21 point that the note refers to the following: The 22 binder -- from the prosecution the binder containing the 23 evidence, paren, in email form.

24 This is one of the situations where not only is the note clear, but they want the evidence in email form, 1207

1206

1 THE COURT: Yes.

It is not responsive to the note to send text messages, especially in response to the government's summation.

5 All right.

6 Let's take a lunch break.

THE COURT: While the jury is deliberating, the record should reflect the lawyers and Mr. Valerio are present.

I want to complete the Rule 29 ruling and place a couple of other rulings, to supplement other rulings with respect to the cases.

To supplement the Rule 29 ruling, I was discussing why each e-mail constitute a separate attempt in the light most favorable to the Government.

With respect to the solicitation and itself being an attempt, the trial I had a few years ago Abdallah, 528 Fed appx. 79 (2nd Cir. 2013). In that case one of the attempted wire fraud charges was the defendant calling up somebody and placing a buy order with respect to a stock sale and I ruled and the Second Circuit affirmed that that act of calling up and asking someone else to place an order through an intermediary constituted in light of the prior dealings and the circumstances surrounding it a substantial step toward the commission of fraud.

And I think it is analogous to the circumstances that we have here for the reasons already indicated.

I did go through each of the e-mails each and of

Proceedings

1209

themselves could be separate attempts and weren't 2 connected in a way that made them merge. I'll go through 3 the details but very briefly.

Count 6, and I believe it is Exhibit 558, January 23, 2012, a discussion in that e-mail about videos specific sex acts with referenced to sending some money. Today I will send out some money, you will follow these steps.

That certainly would be sufficient.

There's a discussion that popped up in there.

Count 7, January 24, 2012, Exhibit 559, again, references to specific sex acts with , references to picking up money on Wednesday. The MTCN number is provided in that one, and again on this issue of the fact of Count 6 or 7 are one day apart. If you actually look at the e-mails, Count 6 was on Monday, Count 7 was on Tuesday.

On Tuesday there is a reference to Wednesday on the e-mail and the January 23rd e-mail. This is not word-for-word, you only go to the internet place Monday, Wednesday, Friday. When you're there you start with an e-mail to there and when you leave before dark you send me one when you leave.

And there is a discussion on certain acts of each night before bed -- there's an earlier e-mail that day referenced being one hour on the internet a day.

2 There's reference to give me some really racy cell phone

3 videos with your daughter tonight:

4 The jury certainly concluded based on the 5 substance of the e-mails an attempt was made on January 23 6 that Kalichenko received that and whether or not, you 7 know, whether or not the videos were on the shelf already, 8 or that she had the videos, she sent them.

And then on the 24th, Count 7, more requests are 10 being made. So even though they are a day apart they are referencing future action and it is also referencing 12 something will be done on a multiday basis.

Count 8, March 28, 2012, Exhibit 211-A, again there is a direction on specific sex acts, reference to money, I'll send out \$100. To who and where do you want me to send it?

So that can constitute a separate attempt.

Count 1, April 4, 2012, Exhibit 560, reference to seeking pictures of . And there's a reference to sending Kalichenko from Turkey to Moscow. That could constitute a separate attempt.

Count 10, July 16, 2012, Exhibit 205, referenced the videos you sent me, perfect. That's the one that references a script and requests specific sex acts.

And there's reference to money. Tomorrow I'll

Proceedings

1211

1210

wire you more cash in the day. Especially in the context

2 of all the other e-mails can constitute an attempt.

3 Count 11, July 22, 2012, Exhibit 205.

July 22nd, as I said, it seems to be an inquiry to a

5 July 16th memo by Kalichenko referencing having made five

6 other videos for you. We'll send the videos today.

7 References going to the pool. I think this is in the

context of July 21st e-mail from the joeval5@optonline.net

9 saying I got the videos of you and send the rest

10 to my e-mail.

11 You didn't follow my instruction directions.

12 Didn't get to the pool, shower, etcetera.

13 Although Count 10 was July 16th, Count 11 is 14 July 22nd, the jury could certainly find that additional

15 video in the July 16th was an attempt to create some

16 videos or obtain some videos, in this situation to create

17 videos, and having received some videos in the interim,

18 Count 11, July 22nd, is an attempt to receive and have

19 more videos created.

20 Count 12, September 6, 2012, Exhibit 229, send 21 me the usual videos of you and sweet 22 again specific sex acts are requested where \$1,000 is 23 provided. That e-mail could certainly constitute a

24 separate attempt.

Finally Count 13, Exhibit 206, referencing

1 having given \$1200, produced nothing for me, and this one, 2 again, consistent with the other e-mails request each 3 morning and night you will send me a cell phone video of you waking up with your daughter and there are references 5 to sexual acts. "If I don't see this each day," and he makes certain comments.

duplicitous.

So it's clear based upon the e-mail the jury can rationalize this, there are ongoing videos being requested and attempts for additional videos on each and every one of these counts. So I don't believe the counts are multiplicitas between each other.

On the final issue that we've already discussed, and again I'll put the case law on the record of whether or not these counts, the attempt counts are multiplicitas and overlap with Count 2, the sexual exploitation count.

This argument -- there is nothing improper about charging the way Count 3 is charged with multiple -excuse me, Count 2, that basically even though the Government is alleging there are multiple acts of sexual exploitation during that period they charge it as one substantive count.

In the case of United States versus Anson, 304 Fed.Appx. 1 (2d Cir. 2008) made clear, and this is called duplicitous counts, counts that join two or more distinct crimes in a single count. In this case it's a child

Proceedings

pornography case and that criminal charges may aggravate

1213

- 2 multiple individual actions that otherwise could be charged as discrete offenses as long as all the actions 4 are a part of a single scheme. Citing U.S. v. Maloney, 5 287 F.34d 282, Second Circuit 2002. Here certainly the 6 Government's proof could support a finding this is one 7 single scheme creating multiple child pornography videos 8 involving and, therefore, the sexual exploitation 9 charge could be charged in the aggregate even though the 10 Government is alleging there are multiple acts of sexual 11 exploitation during that time period so there is no
- 14 multiplicity, first it is not waived because it was not raised as part of the trial, that defects in the indictment, US v. Chacko, 169 F.3d 140, Second Circuit 1999, said that if you don't assert at all at the district court level, there's a double jeopardy exception which 19 essentially is what it is. If you don't raise it all at the district court level it could be waived, but it doesn't have to be necessarily a pretrial motion. That case was made after the jury rendered its verdict.

In terms of Mr. Lato's objection to

23 The circuits held it was not waived here, it was 24 made at the end of the Government's case but certainly was 25 not waived. But on the substantive issue, first as I

1 noted, the Government is allowed all theories in the case

2 because the evidence could support one theory and not the

3 other if the jury concluded that Ms. Kalichenko had the

4 videos already made, they could find attempts for each of

5 those counts without finding any sexual exploitation of

So there is evidence that supports both

In terms how you deal with that, there's a case called U.S. v. Zvi, 168 F.3d 49 (2d Cir. 1999) and in that case the Second Circuit discusses this in detail and says ordinarily the appropriate remedy, if you have that situation, that's with respect to a money laundering case, but if there is this multiplicitas issue, the appropriate remedy to remand the multiplicitas counts and to adjust the sentence accordingly.

Certainly I think Mr. Lato is correct, the Government might even concede this if there were a conviction on the sexual exploitation counts. Certainly an attempt to commit a crime and a completed crime would create a double jeopardy problem if someone were sentenced on both. If there is any doubt on that, U.S. v. Rust, Eighth Circuit case, 650 F.2d, a 1981 case, where they said it is also clear that defendant may not be convicted in both the attempt and the completed crime because all

Proceedings

1215

1214

the elements of the attempt were included in the completed

2 offense and a dual conviction would amount to double 3

jeopardy.

4 Based upon the Second Circuit decision in Zvi, I

5 think the appropriate remedy here if there were a

6 conviction on both the substantive crimes and the

7 attempted counts would be to vacate the attempted accounts

8 to avoids a double jeopardy problem but we'll deal with

9 that if that occurs.

10 That's the Court's ruling with respect to the 11 Rule 29 motion. I did want to place some cases on the 12 record.

13 Mr. LaPinta did an expert sidebar and came up 14 with a 10th Circuit case.

15 MR. LAPINTA: 9th.

16 THE COURT: I'm talking about the subscriber

17 issue.

18

19

MR. LAPINTA: Foundation.

THE COURT: I thought it was a 10th Circuit. I 20 did look it up and I looked at Second Circuit case law on 21 that issue and I think the rulings that I made -- your 22 objection was correct to some extent and the rulings I 23 made are completely consistent with the Second Circuit 24 cases.

So, there were two objections. The first one

Document 148-1 Filed 06/16/17 Page Proceedings Proceedings

1216

was to the Cablevision subscriber information. And the 1

2 case in the Second Circuit that addresses this issue

3 whether it was a hotel guest card, the case is United

4 States v. Lieberman, 637 F.2d 95 (2d Cir. 1980), and in

5 that case the circuit made clear if someone is filling out

6 information such as a hotel guest card it would not fall

7 within the business records exception because it would

8 contain unreliable hearsay within the record itself.

truth of the statement. "

However, the Second Circuit made clear in that case that if a person were required to prove, provide identification, that would change the analysis. So there is reference if there was a way to verify by examining a driver's license or other form of identification that would be a different analysis. "If such verification is 15 obtained by the employee we see no reason why the guest card would be filled in by the guest himself, would not be qualified as a business record and not be admissible for

With respect to the Cablevision records, it is consistent with that opinion because there were testimony, certainly while they didn't maintain a copy of the identification, that was a business practice to require identification be shown, and also because of the nature of Cablevision in and of itself, you are having service provided to a particular location, it would make sense

Proceedings

1217

that it would be reliable because otherwise as the witness said we would need to verify the house or location that we were providing the service to.

In any event the request for identification is sufficient to come within the business records requirement as articulated in Lieberman.

The Western Union records, however, we would have a problem because it was clear from the cross-examination that no verification whatsoever is done. In fact someone can go on line and put any name in and have money wired to someone else under any name. So that certainly, those Western Union documents could not come in as business records for the truth of the identity of the person whose name is reflected in the records. And this

15 is discussed in a Southern District case, United States v.

16 Zapata, 356 F.Supp.2d 323 (S.D.N.Y. 2005) and the Court in

17 that case goes through a whole bunch of cases in the

18 country and says that although it can't come in as a

19 business record it can come in for the nonhearsay purpose

20 of establishing that somebody put that name on a record

21 and sent money, but you have to give a limiting

22 instruction to the jury to make sure they understand that

23 is not being offered for the truth but simply that money 24

25

Government had to prove through independent evidence who

was sent with someone putting that name on there and the

1 that person is, and that is exactly what the defense

2 requested and what that is, exactly what I did, I gave an

3 instruction to the jury that Western Union records, the

4 names on those records cannot be used for the truth, the

5 Government had to prove who sent them through other means.

1218

The way we'll proceed with respect to that is 2 neither side has any additional evidence to present on that. So just as we did with the trial, I'll give the lawyers an opportunity to make closing arguments to you with respect to this forfeiture issue. They've advised me they both intend to be very brief and I'll give you ten or 15 minutes of instructions on the law with respect to forfeiture that I'll give you and you'll return to the jury room to commence your deliberations on the forfeiture.

So the Government will go first.

MR. KABRAWALA: Thank you again, ladies and gentlemen for your services for paying close attention during the guilt phase of this trial.

Your service is nearly complete and I'll be very brief. There is one more part that is left and that is a very short portion but it is also very important.

Soon the judge will instruct you that the Government is entitled to seek forfeiture of property that was used to facilitate the crimes for which the defendant has been found guilty.

Basically forfeiture means that the Government is entitled to take the property used to commit the crime.

There's three properties, as the judge mentioned, that the Government is seeking. The first one

Summations - Kabrawala

is is the computer that you heard about, this computer, 2 Government's Exhibit 400.

The second one is the SD, Samsung memory card on which the pictures of were found.

The third is the residence, 3 High Gate Drive in Smithtown, New York, that you've heard a lot about during this trial.

Now, you've heard that the videos, the pornographic videos of the Ukrainian toddler, were located on a computer, that computer, Government's Exhibit 400, that is, the pornographic pictures of that were located on an SD card. Both of those items were found in the defendant's home at 3 High Gate Drive. The defendant doesn't get those properties back. He used them to commit the crime.

I don't need to go into what was on the computer; you've seen the images and read the e-mail. I don't need to go into what was on the SD card; you've seen the images and heard the testimony.

The house, that is where the defendant used his computer to communicate with Kalichenko. That's where the computer was found. That's where all the evidence was found. That's also where the stage was found, the hidden cameras were found. That's where the Samsung digital video camera was found in the basement, in the ceiling

1 hidden. It was all in the defendant's home, including the 2 outfits and the hidden cameras.

3 Now, for that reason, for those reasons, that's 4 why the Government seeks forfeiture of the three 5 properties that we've described.

They were used to facilitate the crime. They were used in commission of the crime, and the Government gets to forfeit them.

The judge will instruct you about the law on forfeiture and the burden of proof. It is different. The burden of proof is referred to as a preponderance of the evidence. What that means, as the judge will instruct you and you should follow the judge's instructions, a preponderance of the evidence is simply that it was more likely than not that the items, the three property items described were used to commit the crime. That it is more likely than not that the defendant used those properties to facilitate the crime.

Because the evidence amply demonstrates that those three property items were used to facility the crime, the Government seeks forfeiture of those items and we ask that you return a verdict of forfeiture.

Thank you.

THE COURT: You'll now hear the arguments of the defense.

1 MR. LATO: Thirty seconds, your Honor.

2 THE COURT: Sure.

3 (Counsel confer.)

4 MR. LATO: Good afternoon, ladies and gentlemen.

5 This will be about three minutes.

As Judge Bianco will instruct you, the question on forfeiture is whether the property was used to commit the crime. Don't even waste your time on the Dell desktop or on the memory card. We concede that. The only thing we object to here is the house, and here's why.

The Government's forfeiture allegation is overbroad and at the same time insufficient, and here's why. The Government for some reason wants that little memory card from the Samsung camcorder which is for all practical purposes worthless but they are not even seeking to forfeit the camcorder. Had they done so we could concede that too because based upon on your verdict the camcorder would be forfeitable because that was used to make child pornography.

The Dell desktop computer is obviously forfeitable because based on your verdict the inbox on that computer was child pornography. But the Government is not seeking to get the camcorder which based upon your verdict was used to make child pornography. It is also not seeking the stage or the couch in the house or in the

By way of example, if this house were on a 100-acre farm, the Government might be here asking you to forfeit the whole 100-acre farm. The allegation of forfeiture is too broad. So, computer, forfeited; memory card forfeited.

Had the Government asked for the camcorder, had they asked for the stage, any cameras in the house, all forfeited.

The house itself, no. It was not an instrumentality of the crime. It was not used to commit the crime.

Thank you.

Rebuttal - Kabrawala

1233

MR. KABRAWALA: Thank you, Judge. The reason the Government wants the computer and the SD card is because we want to destroy them. The Government wants to destroy the child pornography images and all traces of them that were on those two items.

You have heard evidence that the house itself was used in the commission of the crime. It served as a backdrop. You saw pictures of it, countless pictures of the basement, the furniture. The Government is not seeking forfeiture of the furniture; don't let defense counsel distract you. This is a case about two children who were sexually exploited on video for the defendant and now he has been found guilty.

The house was used to create images of one of those children, . The basement was used as a backdrop for the sexually explicit pictures of upstairs on the second floor is where the defendant used that computer and stored on the SD card to store images of child pornography and communicate with his co-conspirator Kalichenko.

21 Thank you very much again for your services.

22 THE COURT: Do the lawyers wish to speak to me

24 MR. KABRAWALA: No, your Honor.

25 MR. LAPINTA: No, your Honor.

THE COURT: About 15 minutes. And if you want a 2 copy of my instructions you can request it during your 3 deliberations.

THE COURT: G.

8 Ladies and gentlemen of the jury. I know you have labored long and hard. In view of your verdict the defendant Joseph Valerio is guilty of the offenses charged in the indictment.

You have one more task to perform before you are discharged.

14 In a case of this nature, the Government has a 15 right to seek forfeiture of certain property that is 16 alleged to be related in certain ways to the offenses of 17 which you have found the defendant guilty.

Accordingly, you must render special verdicts concerning certain property that the Government has alleged is subject to forfeiture to the United States.

In your consideration of the forfeiture allegation in the indictment you are instructed that your previous determination that the defendant is guilty of having committed the offenses alleged in the indictment is final and conclusive. You must not seek to discuss or

All the previous instructions regarding direct and

circumstantial evidence, credibility of witnesses and duty

4 to deliberate apply with respect to your verdicts 5 regarding forfeiture.

Let me explain to you the law of forfeiture.

7 Pursuant to Title 18 U.S. Code Section 2253 subsection (a), any person who is convicted of sexual exploitation of

9 a child is required to forfeit to the United States, (A)

10 any visual depiction described in section 2251, 2251(a),

11 2252, 2252(a), 2252(b), or 2260 of Title 18 U.S. Code in

12 any book, magazine, periodical, film, video tape or other

13 matter which contains any such visual depiction which was

14 produced transported, mailed, shipped and received in

15 violation of the offense of conviction.

B. Any property, real and personal, constituting or traceable to gross profits or other proceeds obtained from such offense, and;

Three -- excuse me, C. Any property real and personal used or intended to be used to commit or to promote the commission of such offense or property traceable to such property.

The purpose of the forfeiture law is to prevent any person from persuading, inducing, enticing or coercing any minor to engage in any sexually explicit conduct and

required to meet its burden beyond a reasonable doubt at 1 2 the forfeiture stage, however, the Government need only 3 establish the nexus and forfeitability of the property by a preponderance of the evidence and not beyond a reasonable doubt.

What does a preponderance of the evidence mean? To establish a fact by a preponderance of the evidence means to prove that the fact was more likely true than not true.

A preponderance of the evidence means the greater weight of the evidence and it refers to the quality and persuasiveness of the evidence, not to the number of witnesses or documents.

In determining whether a claim has been proved by a preponderance of the evidence, you may consider the relevant testimony of all witnesses, regardless of who may have called them and all the relevant exhibits received in evidence regardless of who may have produced them.

If you find that the weight of the evidence on an issue tips however slightly in favor of the Government, then you must decide that issue in favor of the Government. On the other hand, if you find that the weight of the evidence on an issue tips in favor of the defendant or that the weight of evidence is evenly divided between the parties, then you must decide that issue in

Jury Charge

1241

favor of the defendant.

In other words, if the Government proves to you that it is more likely than not that it's view of the evidence on any particular issue is proved, then you resolve that issue in favor of the Government. If the Government does not make the proof tip in its favor, you must decide that issue in favor of the defendant.

The requirements to prove beyond a reasonable doubt which I instructed you about in connection with the guilt phase of the case does not apply during the forfeiture phase of the case and you should put those instructions out of your mind.

I'll give you an instruction regarding facilitating property.

Facilitating property which is subject to forfeiture is any property used or intended to be used to facilitate the commission of the offense to intentionally employ, use, persuade, induce, entice and coerce a minor, including but not limited to sexual exploitation of a child and the possession of child pornography of which you have convicted the defendant.

Facilitating property is that property that makes the crime easier to commit or harder to depict. If the use of the property made the property harder to detect, it is subject to forfeiture. The property need

1 not be indetectible for the commission of the illegal 2 activity nor does the property have been used by the

3 defendant exclusively for this behavior to be forfeited

4 Property that was used the vast majority of the time for legitimate purposes may nevertheless be forfeited

6 if it is facilitating a criminal offense. The

7 facilitation of even a single felony offense is sufficient 8 to justify forfeiture.

The forfeiture statute provides all real property used or intended to be used to commit or to facilitate the commission of an offense, of which the defendant has been convicted of, is forfeitable.

Thus, even when only a part of the property is used illegally, the statute calls for the forfeiture of the entire property.

In reaching your determination whether any part of the property was used illegally, you should not consider whether forfeiture of the entire property would be excessive or otherwise disproportionate to the criminal activity that the property was used to facilitate.

I further instruct you that in reaching your decision on forfeiture you should not be concerned, you should not be considered about what might happen to any property that you find to be forfeitable.

In this connection, you should disregard any

Jury Charge

1243

1242

claims of any other persons or businesses, whether family, 2 friends, business associates, banks or victims may have 3 for the property. Those interests will be addressed at a 4 later time.

Similarly, you are not to consider whether the forfeiture may excessive or otherwise disproportionate to the crimes for which you convicted the defendant.

In that regard you should not give consideration -- you should not give consideration to any property of the defendant that has already been seized. This matter is one entrusted solely to the Court and if appropriate will be addressed at a later time.

Your verdict of the alleged property subject to forfeiture must be unanimous. That is, everyone must agree the evidence presented proves by a preponderance of the evidence that the property in question contains visual depictions of sexual exploitation of children as previously defined in the offenses for which the defendant stands convicted and/or was used or intended to be used to commit or promote the commission of the defendant's offenses or constitutes property traceable thereto.

This specific instructions I gave you earlier concerning the counts of the indictment continue to apply. You are further admonished with one exception regarding the burden of proof about which I've already instructed

Case 2:14-cr-00094-JMA Document 148-1 Filed 06/16/17 Page 633 of 667 PageID #: 1698

you, all the instructions previously given to you
 concerning your consideration of evidence, credibility of
 witnesses and duty to deliberate together, all continue to
 apply during your supplemental deliberations concerning
 the forfeiture allegations in the indictment.

Also, while deliberating on these forfeiture matters you may consider any evidence offered by the parties during the guilt phase and the forfeiture phase of the trial.

As I said before there was no additional evidence during the forfeiture phase. You just heard argument.

I'll hand the clerk for delivery, I'll hand to Michelle for delivery, a copy of the special verdict form and in a moment I'll ask that you retire again to the jury room and deliberate with respect to that special verdict form.

So mark the special verdict form as Court Exhibit H. With the lawyers consent I'll cross out "furnishings" on the verdict form.

MR. KABRAWALA: Yes, Judge.

MR. LATO: Yes, your Honor.

I've crossed that out, and I've marked that as
Court Exhibit 8. Hand that to Ms. Raymond and I'll ask
the jury to retire to the jury room to deliberate on

forfeiture.

Thank you.

(Whereupon, the jury commence deliberations at

2:58 p.m..)

THE COURT: If everybody can be seated.

I want to place one case on the record with respect to a rule I referred to before the verdict came in. This is regarding the other information contained in e-mails.

There was an objection by Mr. Lato to at least one of the e-mails, but I specifically remember one about language that was used in describing the relationship between Ms. Kalichenko and Mr. Valerio and it is the Court's ruling that the substance of the e-mails that deals with their relationship with each other, their interaction with each other, whether it be sexual interactions or others with respect to visas, travel, the whole substance of the nature of their relationship is inextricably intertwined with the evidence regarding the charged offenses and was necessary to complete the story of the crime on trial and it is clear, including U.S. v. Carboni, 204 F.3d 39, page 44, Second Circuit 2000, that when it is offered for such purposes, it is not 404(b) evidence, it is part of the charged criminal activity and

just as it relates to the facts of this case, the issue of

1 who received and sent the child pornography was something

2 that was placed in issue in the opening statement. It was

3 reference to the fact that because of the Government's

4 investigation, who received it, who was requesting it and

who was obtaining it, based upon that issue being placed

6 in dispute in terms of the identity of the person who was

7 sending it and also on the critical issue with respect to

the sexual exploitation charge whether or not the videos

9 were preexisting prior to Mr. Valerio's request for the

10 videos to be made or whether or not they were made in

response to his request, the nature of the relationship

between Ms. Kalichenko and Mr. Valerio what was being

requested, the circumstances under which it was being

requested, all become critical, highly probative on the

15 issue of the identity of the person who was making the16 request and receiving it as well as the images themselves

17 and the circumstances surrounding them and whether or not

18 she was making them new for Mr. Valerio or she had them in

19 the Ukraine previously.

So I view this as being highly probative on the central issue in the case and with respect to certain counts. If you look at the e-mails there really is no way to even redact them because they are so interspersed between the request for the child pornography, it would be impossible to understand the context of the request

Jury Charge

because of the nature of the e-mails and how it goes back
 and forth between their relationship with each other and

their request for the child pornography.

So I don't think it is a close question. In my discretion, I obviously considered 403 and given the highly probative nature of the other information and the e-mails to understand the central issues in the case, that the probative value is not substantially outweighed by the danger of unfair prejudice to Mr. Valerio, given the nature of the charge in this case involving sexual exploitation.

There are two different children, including a toddler, the racy nature of the e-mail exchanges and the sexual content. The back and forth of their relationship was certainly not of a different nature or of a worse nature than the charges that are at issue in this case in terms of the conduct so I don't think that there is any danger of unfair prejudice or any confusion by the jury that he's on trial because of his relationship with Ms. Kalichenko.

It was very clear that this case was about the children and not their relationship with each other. So for those reasons I allowed those e-mails in over the defense objection.

For the same reasons I allowed the stage and the
